BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Communications Supply Chain Risk Information Partnership Supplemental Information Gathering

AGENCY: National Telecommunications and Information Administration (NTIA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed and continuing information collections, which will help us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before February 27, 2023.

ADDRESSES: Interested persons are invited to submit written comments by email to Kathryn Basinsky,

Telecommunications Policy Specialist, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230 or by email at CSRIP@ntia.gov. Please reference "C–SCRIP Supplemental Information Gathering" in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or specific questions related to collection activities should be directed to Kathryn Basinsky, Telecommunications Policy Specialist, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, via email at CSRIP@ntia.gov, or via telephone at (202) 482–1880.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Secure and Trusted Communications Networks Act of 2019 (STCNA), Public Law 112–96, 133 Stat. 158 (2020) (codified as amended at 47 U.S.C. 1601–1609), tasked NTIA with establishing a program to share information regarding supply chain security risks with trusted providers of advanced communications service and trusted suppliers of communications equipment or services. Furthermore, STCNA directed NTIA to conduct regular briefings and events and engage with trusted providers of advanced communications service and trusted suppliers of communications equipment or services, particularly small businesses or those that primarily serve rural areas.

NTIA engages in several activities to satisfy the statutory obligations assigned by STCNA, including hosting a public-facing C–SCRIP website to disseminate information about the program as well as public, open-source, unclassified supply chain alerts and information, and training opportunities. The agency also distributes a bi-monthly newsletter for those who subscribe via the C–SCRIP website and conducts webinars and briefings on a variety of cybersecurity and supply chain security topics.

To tailor its engagement and more effectively and efficiently disseminate information, NTIA is seeking to collect additional biographical information from those signing up for its newsletter. Specifically, NTIA would like to collect a subscriber's name, title, employer, location (state and country), and email address. This information will enable

NTIA staff to better understand the demographics of its constituents. As a result, NTIA will be able to create and distribute cybersecurity and supply chain risk information that will be more useful to its constituents and to attend events in locations where its core audience is also likely to be able to attend.

II. Method of Collection

Under this proposed effort, NTIA will collect data electronically via webform on the C–SCRIP website.

III. Data

OMB Control Number: 0660–XXXX.

Form Number(s): None.

Type of Review: New information collection.

Affected Public: Business or other for-profit organizations; not-for-profit institutions; State, local, or Tribal government; Federal Government; or any other member of the public who wishes to receive the C–SCRIP newsletter.

Estimated Number of Respondents: 300.

Estimated Time per Response: 10 minutes or less.

Estimated Total Annual Burden Hours: 1,500.

Estimated Total Annual Cost to Public: \$2,379.

Respondent's Obligation: Voluntary.

Legal Authority: The Secure and Trusted Communications Networks Act of 2019 (STCNA), Public Law 112–96, 133 Stat. 158 (2020) (codified as amended at 47 U.S.C. 1601–1609).

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your

comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–60–P

COUNCIL ON ENVIRONMENTAL QUALITY

Carbon Dioxide Capture, Utilization and Sequestration (CCUS) Non-Federal Lands Permitting Task Force

AGENCY: Council on Environmental Quality (CEQ).

ACTION: Request for nominations.

SUMMARY: As required by the Utilizing Significant Emissions with Innovative Technologies (USE IT) Act, the Council on Environmental Quality (CEQ) is seeking additional member nominations from a diverse range of qualified candidates to serve on the “Carbon Dioxide Capture, Utilization and Sequestration (CCUS) Non-Federal Lands Permitting Task Force” (Non-Federal Task Force). Vacancies are anticipated to be filled by February 17, 2023.

DATES: CEQ must receive nominations by January 27, 2023.

ADDRESSES: You may submit nominations, identified by “CEQ CCUS Non-Federal Lands Permitting Task Force,” by email to ccus.taskforce@ceq.eop.gov.

Instructions: All nominations must include a resume; a short biography providing an adequate description of the nominee’s qualifications (including information that will enable CEQ to make a determination as to whether the nominee meets the membership requirements of the Non-Federal Task Force); and contact information for the nominee. Interested candidates may self-nominate.

FOR FURTHER INFORMATION CONTACT: Caroline M. Gignoux, Attorney-Advisor, 730 Jackson Place NW, Washington, DC 20503, (202) 395–5750 or ccus.taskforce@ceq.eop.gov.

SUPPLEMENTARY INFORMATION: The USE IT Act, Div. S, sec. 102 (d)(2)(D), Public Law 116–260, 134 Stat. 1182, directs the establishment of no less than two

regionally based task forces to: (1) identify challenges and successes that permitting authorities, project developers, and operators face to permit CCUS projects in an efficient, orderly, and responsible manner; and (2) provide recommendations to improve the performance of the permitting process and regional coordination for the purpose of promoting the efficient, orderly, and responsible development of CCUS projects and carbon dioxide pipelines. The regulatory authorities and permitting frameworks differ on Federal lands and the Outer Continental Shelf, and non-Federal lands; therefore, one task force will address permitting and other challenges for CCUS projects on Federal lands and the Outer Continental Shelf, and the other task force will address permitting and other challenges for CCUS projects on non-Federal lands.

On July 28, 2022, CEQ published two notices in the **Federal Register** requesting nominations for membership on the task forces. 87 FR 45304; 87 FR 45306.

The purpose of this notice is to request additional nominations for membership on the Non-Federal Task Force, one of the two task forces that will be established under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App. 2, and its implementing regulations at 41 CFR parts 101–6 and 102–3. A separate **Federal Register** notice seeking additional member nominations for the Carbon Dioxide Capture, Utilization and Sequestration (CCUS) Federal Lands and Outer Continental Shelf Permitting Task Force has been issued simultaneously with this notice.

Members will be selected by the Council on Environmental Quality (CEQ) Chair pursuant to the USE IT Act. As required by FACA, the Non-Federal Task Force membership will be fairly balanced in terms of the points of view represented and the functions to be performed by the Non-Federal Task Force. Members of the Non-Federal Task Force will serve without compensation. However, each member may be reimbursed for authorized travel and per diem expenses incurred while attending Non-Federal Task Force meetings in accordance with Federal Travel Regulations. The Non-Federal Task Force shall meet not less than twice each year. To the maximum extent practicable, all task forces established under this provision of the USE IT Act shall meet collectively not less than once each year.

Responsibilities of the Non-Federal Task Force

As provided by the USE IT Act, the duties of the Non-Federal Task Force will be to:

- Inventory existing or potential Federal and state approaches to facilitate reviews associated with the deployment of CCUS projects and carbon dioxide pipelines, including best practices that avoid duplicative reviews to the extent permitted by law; engage stakeholders early in the permitting process; and make the permitting process efficient, orderly, and responsible;
- Develop common models for state-level carbon dioxide pipeline regulation and oversight guidelines that can be shared with states in the geographical area covered by the Non-Federal Task Force;
- Provide technical assistance to states in implementing regulatory requirements and models developed by the Non-Federal Task Force;
- Inventory current or emerging activities that transform captured carbon dioxide into a product of commercial value, or as an input to products of commercial value;
- Identify any priority carbon dioxide pipelines needed to enable efficient, orderly, and responsible development of CCUS projects at increased scale;
- Identify gaps in the current Federal and state regulatory framework and in existing data for the deployment of CCUS projects and carbon dioxide pipelines;
- Identify Federal and state financing mechanisms available to project developers; and
- Develop recommendations for relevant Federal agencies on how to develop and research technologies that can capture carbon dioxide; and would be able to be deployed within the region covered by the Non-Federal Task Force including any projects that have received technical or financial assistance for research under section 103(g)(6) of the Clean Air Act (42 U.S.C. 7403(g)).

Vacancies To Fill

The Non-Federal Task Force must include no less than one representative in each of the following categories as specified in the USE IT Act. Div. S, sec. 102 (d)(2)(D)(ii)(II), Public Law 116–260, 134 Stat. 1182. Nominations are sought to fill at least one position in each category:

- Any state that requests participation in the geographical area covered by the Non-Federal Task Force;
- Developers or operators of CCUS projects or carbon dioxide pipelines;
