Expiration Date: May 31, 2023.

Type of Request: Intent to seek approval to revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue state and national estimates of crop and livestock production, prices, and disposition. The Aquaculture Surveys program produces estimates at the national level on both trout and catfish. Survey results are used by government agencies and others in planning farm programs.

The trout survey includes sales (dollars, pounds, and quantities), percent of product sold by outlet at the point of first sale, distribution (dollars, pounds, and quantities) of fish raised for release into open waters, and losses. The catfish surveys include inventory counts, water surface acreage used for production and sales (dollars, pounds, and quantities).

- Twenty-five states (Arkansas, California, Colorado, Connecticut, Georgia, Idaho, Massachusetts, Michigan, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Oregon, Pennsylvania, Tennessee, Utah, Virginia, Washington, West Virginia, Wisconsin, and Wyoming) are in the Trout Production Survey. In January, data are collected in the selected states that produce and either sell or distribute trout. State, federal, tribal, and other facilities where trout are raised for conservation, restoration, or recreational purposes are included in the survey.

- Nine states (Alabama, Arkansas, California, Georgia, Louisiana, Mississippi, Missouri, North Carolina, and Texas) are in the Catfish Production Survey. Data are collected from farmers in January for inventory, water surface acreage, and previous year sales. In addition, farmers in the three major catfish producing states are surveyed in July for mid-year inventory and water surface acreage.

- An aquaculture survey is conducted in Hawaii is conducted under a cooperative agreement with the state.

- An aquaculture census is conducted in Pennsylvania to satisfy Act 98 of the 1998 Pennsylvania General Assembly Amended Title 3 (Agriculture) of the Pennsylvania Consolidated Statutes mentions the Pennsylvania Department of Agriculture cooperates with NASS for a survey of Pennsylvania's aquacultural industry.

- All of the surveys conducted under this approval will have a voluntary reporting statement on each questionnaire with exception to the Pennsylvania Aquaculture Census, which is required by State Law.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 Public Law 104–13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, Title III of Public Law 115–435, codified in 44 U.S.C. Ch. 35. CIPSEA supports NASS's pledge of confidentiality to all respondents and facilitates the agency's efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 15–20 minutes per response. Pre-survey publicity or cover letters will also be included to encourage respondents to complete and return the surveys and to provide the respondents with information on how to complete the surveys using the internet.

Methodology and Preliminary Results

Commerce has conducted this review in accordance with section 751(a)(1)(C) of the Act, which specifies that Commerce shall "review the current status of, and compliance with, any agreement by reason of which an investigation was suspended." Pursuant to the AD Agreement, each signatory producer/exporter individually agrees that it will not sell subject merchandise at prices less than the reference prices established in Appendix I to the AD Agreement.⁸ Each signatory producer/exporter also individually agrees that for each entry the amount by which the estimated normal value exceeds the export price (or the constructed export price) will not exceed 15 percent of the weighted average amount by which the estimated normal value exceeded the export price (or constructed export price) for all less-than-fair-value entries of the producer/exporter examined during the course of the investigation.⁹ The signatory producers/exporters also individually agree to provide documentation upon request from Commerce¹⁰ and provide certifications each quarter¹¹ to allow Commerce to monitor the AD Agreement. In addition, the signatory producers/exporters agree to incorporate into their sales contracts with Intermediary Customers¹² the obligation that such customers will abide by the terms of the AD Agreement.¹³ Lastly, the signatory producers/exporters agree to ensure that Other Sugar¹⁴ is tested for polarity by a laboratory approved by CBP upon entry into the United States and that the importers of record report the polarity

under subheading 1701.99.1010. Prior to January 1, 2020, merchandise covered by the AD Agreement was also classified in the HTSUS under subheadings 1701.14.1000 and 1701.99.5010.
