

screening area where screening services are currently provided or would be eligible to be provided under TSA's annually appropriated passenger screening program.

DATES: Send your comments by February 10, 2023. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" and by using the find function.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh, TSA PRA Officer, Information Technology (IT), TSA-11, Transportation Security Administration, 6595 Springfield Center Drive, Springfield, VA 20598-6011; telephone (571) 227-2062; email TSAPRA@tsa.dhs.gov.

SUPPLEMENTARY INFORMATION: TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on June 21, 2022, 87 FR 36868.

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: TSA Reimbursable Screening Services Program (RSSP) Pilot Request.

Type of Request: Revision of a currently approved collection.

OMB Control Number: 1652-0073.

Form(s): NA.

Affected Public: Public or private entities regulated by TSA.

Abstract: The RSSP is authorized by section 225, Division A, of the Consolidated Appropriations Act, 2019, Public Law 116-6, 133 Stat. 13 (Feb. 15, 2019), as amended by the Consolidated Appropriations Act, 2021, Section 223, Division F, Public Law 116-260, 134 Stat. 1459 (Dec. 27, 2020), and as amended by the Consolidated Appropriations Act, 2023, Section 222, Division F, Public Law 117-328 (Dec. 29, 2022) to extend RSSP through 2025. Under this provision, TSA may establish a pilot for public or private entities regulated by TSA to request reimbursable screening services outside of an existing primary passenger terminal screening area where screening services are currently provided or eligible to be provided under TSA's annually appropriated passenger screening program. For purposes of section 225, "screening services" means "the screening of passengers, flight crews, and their carry-on baggage and personal articles, and may include checked baggage screening if that type of screening is performed at an offsite location that is not part of a passenger terminal of a commercial airport." TSA is collecting this information to enable public and private entities regulated by TSA to request screening services under the RSSP.

TSA is revising the title of OMB control number 1652-0073 from "*TSA Reimbursable Screening Services Program Request*" to "*TSA Reimbursable Screening Services Program Pilot Request*" to more accurately represent the information collection.

Number of Respondents: 15.

Estimated Annual Burden Hours: An estimated 492 hours annually.

Dated: January 5, 2023.

Christina A. Walsh,

*TSA Paperwork Reduction Act Officer,
Information Technology.*

BILLING CODE 9110-05-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R2-ES-2022-N072; FXES1113020000-223-FF02ENEH00]

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews of 31 Species in the Southwest

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are conducting 5-year status reviews under the Endangered Species Act, of 31 animal and plant species. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information that has become available since the last review for the species.

DATES: To ensure consideration, we are requesting submission of new information no later than February 10, 2023. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For details on how to request or submit information, see Request for Information and How Do I Ask Questions or Provide Information? in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: For information on a particular species, contact the appropriate person or office listed in the table in the **SUPPLEMENTARY INFORMATION** section. For general information, contact Beth Forbus, by telephone at 505-248-6681; or by email at Beth_Forbus@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Why do we conduct 5-year reviews?

Under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section

4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review. For additional information about 5-year status reviews, refer to our factsheet at <https://www.fws.gov/overview/what-we-do/recovery-overview.html>.

What information do we consider in our review?

A 5-year status review considers all new information available at the time of the review. In conducting these reviews,

we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been implemented that benefit the species;

(D) Threat status and trends in relation to the five listing factors (as

defined in section 4(a)(1) of the ESA); and

(E) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year status review and will also be useful in evaluating the ongoing recovery programs for the species.

Request for Information

To ensure that a 5-year status review is complete and based on the best available scientific and commercial information, we request new information from all sources. See What Information Do We Consider in Our Review? for specific criteria. If you submit information, please support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

How do I ask questions or provide information?

If you wish to provide information for any species listed above, please submit your comments and materials to the appropriate contact in the table above. You may also direct questions to those

contacts (also see **FOR FURTHER INFORMATION CONTACT**).

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Completed and Active Reviews

A list of all completed and currently active 5-year status reviews can be found at <https://ecos.fws.gov/ecp/report/species-five-year-review>.

Authority

This document is published under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).
