BILLING CODE 4410-CW-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Modification to Consent Decree Under the Clean Air Act and Other Statutes

On January 6, 2023, the Department of Justice lodged a proposed Agreement and Order Regarding Modification of Consent Decree (“Agreement and Order”) with the United States District Court for the Eastern District of Texas in the lawsuit entitled *United States and State of Texas v. E.I. du Pont de Nemours and Company and Performance Materials NA, Inc.*, Case No. 1:21-cv-00516-MJT. The original Consent Decree was entered by the Court on January 28, 2022, and it requires the settling defendants to implement injunctive relief at an ethylene production facility located in Orange, Texas.

The proposed Agreement and Order modifies one injunctive relief requirement of the original Consent Decree to provide for use of an alternative control technology to reduce benzene emissions to air at certain locations within the facility. Specifically, the proposed modification would change the control requirement for benzene waste emissions at two locations to the use of a thermal oxidizer as the primary control technology. Carbon canisters operated in series would not be used at these locations. There are no other changes to the original Consent Decree.

The publication of this notice opens a period for public comment on the proposed Agreement and Order. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to entitled *United States and State of Texas v. E.I. du Pont de Nemours and Company and Performance Materials NA, Inc.*, Case No. 1:21-cv-00516-MJT, D.J. Ref. No. 90-7-1-10173. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

<i>To submit comments:</i>	<i>Send them to:</i>
By email	<i>pubcomment-ees.enrd@usdoj.gov.</i>
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the Agreement and Order may be examined and downloaded at this Justice Department website: <http://www.usdoj.gov/enrd/ConsentDecrees.html>. We will provide a paper copy of the Agreement and Order upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Please enclose a check or money order for \$3.00 (25 cents per page reproduction cost) for the proposed Agreement and Order, payable to the United States Treasury.

Thomas Carroll,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219-0144]

Proposed Extension of Information Collection; Mine Rescue Teams; Arrangements for Emergency Medical Assistance and Transportation for Injured Persons; Agreements; Reporting Requirements; Posting Requirements

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine

Safety and Health Administration (MSHA) is soliciting comments on the information collection for Mine Rescue Teams; Arrangements for Emergency Medical Assistance and Transportation for Injured Persons; Agreements; Reporting Requirements; Posting Requirements.

DATES: All comments must be received on or before March 13, 2023.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA-2022-0064.

- *Mail/Hand Delivery:* Mail or visit DOL-MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202-5452. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor’s COVID-19 policy. Special health precautions may be required.

- MSHA will post your comment as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693-9440 (voice); or (202) 693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

30 CFR part 49 subpart A, Mine Rescue Teams for Underground Metal and Nonmetal (MNM) Mines, requires every operator of an underground mine to assure the availability of mine rescue capability for purposes of emergency rescue and recovery. This collection of information relates to the availability of mine rescue teams; alternate mine rescue capability for small and remote

mines and mines with special mining conditions; inspection and maintenance records of mine rescue equipment and apparatus; physical requirements for team members and alternates; and experience and training requirements for team members and alternates. 30 CFR part 49 subpart A includes sections §§ 49.1–49.9 for MNM mine operators.

30 CFR 49.2 (Availability of mine rescue teams) requires each operator of an underground metal and non-metal mine to send the District Manager a statement describing the mine's method of compliance with this standard.

30 CFR 49.3 (Alternative mine rescue capability for small and remote mines) provides that operators of small and remote mines may submit an application for alternative mine rescue capability to MSHA for approval.

30 CFR 49.4 (Alternative mine rescue capability for special mining conditions) provides that operators of small and remote mines may submit an application for special mining conditions capability to MSHA for approval.

30 CFR 49.5 (Mine rescue station) provides that operators of an underground metal and nonmetal mine shall designate, in advance, the location of the mine rescue station serving the mine. Mine rescue stations are to provide a centralized storage location for rescue equipment. This centralized storage location may be either at the mine site, affiliated mines, or a separate mine rescue structure. Mine rescue stations shall provide a proper storage environment to assure equipment readiness for immediate use.

30 CFR 49.6 (Equipment and maintenance requirements) requires that a person trained in the use and care of a breathing apparatus must inspect and test the apparatus at intervals not exceeding 30 days and must certify by signature and date that the required inspections and tests were done, and record any corrective action taken.

30 CFR 49.7 (Physical requirements for mine rescue team) requires that each member of a mine rescue team be examined annually by a physician who must certify that each person is physically fit to perform mine rescue and recovery work.

30 CFR 49.8 (Training for mine rescue teams) requires that a record of the training received by each mine rescue team member be made and kept on file at the mine rescue station for a period of 1 year. The operator must provide the District Manager information concerning the schedule of upcoming training when requested.

30 CFR 49.9 (Mine emergency notification plan) requires that each

mine have a mine rescue notification plan outlining the procedures to be followed in notifying the mine rescue teams when there is an emergency that requires their services.

30 CFR part 49 subpart B Mine Rescue Teams for Underground Coal Mines, sets standards related to the availability of mine rescue teams; alternate mine rescue capability for small and remote mines; inspection and maintenance records of mine rescue equipment and apparatus; physical requirements for mine rescue team members and alternates; and experience and training requirements for team members and alternates. The collection of information under 30 CFR part 49, subpart B, covers the following requirements for underground coal mines. 30 CFR part 49 subpart B includes sections §§ 49.11–49.60 for coal mine operators.

30 CFR 49.12 (Availability of mine rescue teams) requires each operator of an underground coal mine to send the District Manager a statement describing the mine's method of compliance with this standard.

30 CFR 49.13 (Alternative mine rescue capability for small and remote mines) provides that operators of small and remote mines may submit an application for alternative mine rescue capability to MSHA for approval.

30 CFR 49.16 (Equipment and maintenance requirements) requires that a person trained in the use and care of a breathing apparatus must inspect and test the apparatus at intervals not exceeding 30 days and must certify by signature and date that the required inspections and tests were done, and record any corrective action taken.

30 CFR 49.17 (Physical requirements for mine rescue team) requires that each member of a mine rescue team be examined annually by a physician who must certify that each person is physically fit to perform mine rescue and recovery work.

30 CFR 49.18 (Training for mine rescue teams) requires that a record of the training received by each mine rescue team member be made and kept on file at the mine rescue station for a period of 1 year. The operator must provide the District Manager information concerning the schedule of upcoming training when requested.

30 CFR 49.19 (Mine emergency notification plan) requires that each mine have a mine rescue notification plan outlining the procedures to be followed in notifying the mine rescue teams when there is an emergency that requires their services.

30 CFR 49.50 (Certification of coal mine rescue teams) requires underground coal mine operators to

certify that each designated coal mine rescue team meets the requirements of 30 CFR part 49 subpart B.

30 CFR 75.1713–1 and 77.1702 (Arrangements for emergency medical assistance and transportation for injured persons; agreements; reporting requirements; posting requirements) require coal mine operators to make arrangements for 24-hour emergency medical assistance and transportation for injured persons and to post this information at appropriate places at the mine, including the names, titles, addresses, and telephone numbers of all persons or services currently available under those arrangements.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Mine Rescue Teams; Arrangements for Emergency Medical Assistance and Transportation for Injured Persons; Agreements; Reporting Requirements; Posting Requirements. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at DOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Sign in at the receptionist's desk on the 4th floor via the East elevator. Before visiting MSHA in person, call 202–693–9455 to make an appointment, in keeping with the Department of Labor's

COVID-19 policy. Special health precautions may be required.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Mine Rescue Teams; Arrangements for Emergency Medical Assistance and Transportation for Injured Persons; Agreements; Reporting Requirements; Posting Requirements. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Revision of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219-0144.

Affected Public: Business or other for-profit.

Number of Respondents: 362.

Frequency: On occasion.

Number of Responses: 30,463.

Annual Burden Hours: 5,106 hours.

Annual Respondent or Recordkeeper Cost: \$265.

MSHA Forms: MSHA Form 2000-224, Operator's Annual Certification of Mine Rescue Team Qualifications And MSHA Form 5000-3, Certificate of Physical Qualification for Mine Rescue Work.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Song-ae Aromie Noe,
Certifying Officer.

NATIONAL SCIENCE FOUNDATION

Sunshine Act Meetings

The National Science Board's (NSB) Committee on Oversight hereby gives notice of the scheduling of a videoconference meeting for the transaction of National Science Board business pursuant to the National Science Foundation Act and the Government in the Sunshine Act.

TIME AND DATE: Wednesday, January 18, 2023, from 10:30-11:30 p.m. EST.

PLACE: This meeting will be held by videoconference through the National Science Foundation.

STATUS: Open.

MATTERS TO BE CONSIDERED: The agenda of the meeting is: Committee Chair's opening remarks; Presentations and Discussion of NSF's Established Program to Stimulate Competitive Research (EPSCoR); Committee Chair's closing remarks.

CONTACT PERSON FOR MORE INFORMATION: Point of contact for this meeting is: (Chris Blair, cblair@nsf.gov), 703/292-7000. Members of the public can observe this meeting through a YouTube livestream. The YouTube link is <https://www.youtube.com/watch?v=Y34T58VNE1M>.

Christopher Blair,

Executive Assistant to the National Science Board Office.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-205, 50-361, and 50-362; NRC-2022-0219]

Southern California Edison; San Onofre Nuclear Generating Station, Unit Nos. 1, 2 and 3

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued an exemption in response to a December 16, 2021, request from Southern California Edison, as supplemented on February 28 and September 29, 2022, that would allow the licensee to establish the Controlled Area Boundary (CAB) for the San Onofre Nuclear Generating Station (SONGS) independent spent fuel storage installation (ISFSI) at a distance less than 100 meters from the ISFSI as required by NRC regulation.

DATES: The exemption was issued on January 5, 2023, and was effective upon issuance.

ADDRESSES: Please refer to Docket ID NRC-2022-0219 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0219. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed

in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. Eastern Time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Amy M. Snyder, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-6822, email: Amy.Snyder@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the exemption is attached.

Dated: January 6, 2023.

For the Nuclear Regulatory Commission.

Shaun M. Anderson,

Chief, Reactor Decommissioning Branch, Division of Decommissioning, Uranium Recovery, and Waste Programs, Office of Nuclear Material Safety and Safeguards.
