BILLING CODE 4140–01–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG–2022–0047]

Port Access Route Study: Approaches to Maine, New Hampshire, and Massachusetts

AGENCY: Coast Guard, DHS.

ACTION: Notice of availability of draft report; extension of comment period.

SUMMARY: On January 3, 2023, the Coast Guard published a notice announcing the availability of a draft report of an Approaches to Maine, New Hampshire, and Massachusetts Port Access Route Study (MNMPARS). The notice we sent to the Office of the Federal Register provided for a 30-day comment period. But when the notice was published it listed a past date, February 2, 2022, as the end of the comment period. This document extends the intended comment period to a full 30 days from the date of publication of this notice. The Coast Guard seeks comments on the content, proposed routing measures, and development of the report. The recommendations of MNMPARS study may lead to future rulemakings or appropriate international agreements.

DATES: All comments and related material on the notice published at 88 FR 83 on January 3, 2022, must be received on or before February 13, 2023. Commenters should be aware that the electronic Federal Docket Management System will not accept comments after midnight, Eastern Daylight Time, on the last day of the comment period.

ADDRESSES: You may submit comments identified by docket number USCG–2022–0047 using the Federal eRulemaking Portal (<http://www.regulations.gov>). See the “Public Participation and Request for Comments” portion of the **SUPPLEMENTARY INFORMATION** section for further instructions on viewing the draft report and submitting comments.

FOR FURTHER INFORMATION CONTACT: If you have questions about this notice, call or email LTJG Thomas Davis, First Coast Guard District (dpw), U.S. Coast

Guard; telephone (617) 223–8632, email SMB-D1Boston-MNMPARS@uscg.mil.

SUPPLEMENTARY INFORMATION: On January 3, 2023, the Coast Guard published a notice announcing the availability of a draft report of an Approaches to Maine, New Hampshire, and Massachusetts Port Access Route Study (MNMPARS) (88 FR 83). While the public inspection version of the notice (<https://public-inspection.federalregister.gov/2022-28482.pdf>) provided a 30-day comment period notice, the **DATES** section of that published notice stated that comments and related material must be received on or before “February 2, 2022.” Because this was a past date, [regulations.gov](https://www.regulations.gov) did not accept comments in our online docket. We attempted to get the Office of the Federal Register to correct but a correction has not yet been published.

If we were to simply correct the end of the comment period date in the document published January 3, 2023, that would not provide a full comment period. To provide those interested in commenting on the report a full 30-day comment period, the Coast Guard is extending the comment period to February 13, 2023. If the Office of the Federal Register issues a correction to the date in the January 3, 2022 notice, that will not impact this extension of the comment period. You will have from January 12, 2023 (if not earlier) to February 13, 2023.

The draft report is available at this specific address in the docket: <https://www.regulations.gov/document/USCG-2022-0047-0044>. This notice is published under the authority of 5 U.S.C. 552(a).

Dated: January 6, 2023.

James E. McLeod,

Acting Chief, Office of Regulations and Administrative Law.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2023–0002; Internal Agency Docket No. FEMA–B–2302]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: This notice lists communities where the addition or modification of

Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Federal Regulations. The currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will be finalized on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Deputy Associate Administrator for Insurance and Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Rick Sacbbit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) patrick.sacbbit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided.

Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

The FIRM and FIS report are the basis of the floodplain management measures

that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. The flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below.

Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.
