

Background

The aviation industry/users have indicated a desire for the FAA to transition the Alaskan en route navigation structure away from the dependency on NDBs. Advances in technology have allowed for alternative navigation methods to support decommissioning high-cost ground navigation equipment. In 2021, the FAA conducted a study in accordance with FAA Order JO 7400.2, Procedures for Handling Airspace Matters, on whether to decommission PIZ, HHM, and FDV due to the ongoing high cost of maintenance and repairs. Interested parties were invited to submit comments on the study. No comments were received and the FAA scheduled PIZ, HHM, and FDV to be decommissioned.

Colored Federal airway B-2 navigates between PIZ and FDV. Decommissioning PIZ and FDV would render this route unusable. Accordingly, the FAA proposes to revoke B-2 in its entirety. United States Navigational (RNAV) routes T-366, T-367, T-364, and T-260 overlay or parallel the entire route, which mitigates the impact of revoking B-2.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to revoke Colored Federal airway B-2 in the vicinity of Pont Lay, AK due to the scheduled decommissioning of PIZ, HHM, and FDV. B-2 currently extends between PIZ and FDV. The FAA proposes to revoke B-2 in its entirety.

Colored Federal airways are published in paragraph 6009(d) of FAA Order JO 7400.11G dated August 19, 2022 and effective September 15, 2022, which is incorporated by reference in 14 CFR 71.1. The Colored Federal airway listed in this document would be removed subsequently in FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034;

February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
