

The BLM has identified Alternatives C and E as the agency's preferred alternatives. In selecting preferred alternatives, the BLM aims to consider project elements that balance energy production with reducing the potential for adverse impacts. Identification of these as the agency's preferred alternatives does not imply that one of these will be selected as the BLM's final decision. Information acquired during the public comment period could identify an alternative that blends elements of the agency's preferred alternatives, incorporates elements of any of the alternatives, or selects any of the five alternatives as the proposed alternative in the final EIS.

Draft EIS Preparation Process

A Notice of Intent to prepare an EIS was published in the **Federal Register** on August 20, 2021, (86 FR 46867), announcing the beginning of the public scoping process. The scoping period closed on October 20, 2021, and 1,478 comment submissions were received; of those, 1,157 are unique. A scoping report was prepared and is available on the project's ePlanning website <https://bit.ly/3uu3BuV>.

The scoping process and subsequent feedback received from agency resource specialists, Native American Tribes, cooperating agencies, consulting parties, and interested parties identified a range of concerns to be included in the EIS analysis. Concerns included, but were not limited to the following:

- Potential impacts to the Minidoka National Historic Site and associated impacts to Japanese American communities;
- Potential impacts to Wilson Butte Cave and associated impacts to Native American Tribes;
- Potential impacts to cultural resources associated with Native American habitation and early European-American settlement;
- Potential impacts to the Shoshone-Bannock Tribes' treaty rights, including the rights to hunt and harvest foods, medicines, and materials from their homeland;
- Potential impacts to big game winter range and movement corridors, bats, raptors, and the Greater sage-grouse general habitat management area;
- Potential impacts to permitted livestock grazing operations;
- Potential impacts to transportation networks needed to access the project; and
- Potential socioeconomic impacts.

Lead and Cooperating Agencies

The BLM is the lead agency responsible for completing the EIS and

deciding whether to approve, approve with conditions, or deny MVE's request for a ROW grant. Cooperating agencies involved in the development of the draft EIS include the National Park Service, the U.S. Fish and Wildlife Service, the U.S. Army Corps of Engineers, the State of Idaho, and the counties of Jerome, Lincoln, and Minidoka, Idaho.

Schedule for Decision Making Process

The final EIS is tentatively scheduled to be issued in summer 2023, with a Record of Decision in fall 2023.

Public Involvement Process

The BLM will hold virtual and in-person public meetings during the comment period. The date(s) and location(s) of meetings will be announced in advance through local media, email, mail, and the ePlanning project website <https://bit.ly/3uu3BuV>.

The purpose of public review of the draft EIS is to provide an opportunity for meaningful collaborative public engagement and for the public to provide substantive comments, such as identification of factual errors, data gaps, relevant methods, or scientific studies. You may submit comments at any time during the 60-day comment period by using one of the methods listed in the **ADDRESSES** section of this notice. The BLM will respond to substantive comments by making appropriate revisions to the EIS or explaining why a comment did not warrant a change.

The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration.

The BLM will use the draft EIS review process to help fulfill the public involvement requirements under the National Historic Preservation Act (54 U.S.C. 306108), as provided in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the Proposed Action will assist the BLM in identifying and evaluating impacts to such resources.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.
