SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, section 2, 109 stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On November 10, 2022, FTA published a 60-day notice (87 FR 67996) in the **Federal Register** soliciting comments on the ICR that the agency was seeking OMB approval. FTA received no comments after issuing this 60-day notice. Accordingly, DOT announces that these information collection activities have been re-evaluated and certified under 5 CFR 1320.5(a) and forwarded to OMB for review and approval pursuant to 5 CFR 1320.12(c).

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The requirements are being submitted for clearance by OMB as required by the PRA.

Title: 49 U.S.C. Section 5337 State of Good Repair Program.

OMB Number: 2132-0577.

Background: 49 U.S.C. 5337, the State of Good Repair Grants Program authorizes the Secretary of Transportation to make grants to designated recipients to maintain, replace, and rehabilitate high intensity fixed guideway systems and high intensity motorbus systems in a state of good repair. Projects that are eligible for the State of Good Repair Program funds

must be in a recipient's Transit Asset Management plan. Eligible recipients include state and local governmental authorities in urbanized areas with high intensity fixed guideway systems and/or high intensity motorbus systems operating for at least seven years. Projects are funded at 80 percent federal with a 20 percent local match requirement by statute. FTA will apportion funds to designated recipients. The designated recipients will then allocate funds as appropriate to recipients that are public entities in the urbanized areas. FTA can make grants to direct recipients after sub-allocation of funds. Recipients apply for grants electronically, and FTA collects milestone and financial status reports from designated recipients on a quarterly basis. The Competitive Rail Vehicle Replacement Grant (Rail Program) is a discretionary grant program to assist in funding the replacement of rail rolling stock. The Rail Program (49 U.S.C. 5337(f)) a set-aside of the State of Good Repair Formula Grants Program (49 U.S.C. 5337).

The information submitted ensures FTA's compliance with applicable federal laws.

Respondents: States and local governmental authorities.

Estimated Annual Number of Responses: 1,097.

Estimated Total Respondents: 68.

Estimated Total Annual Burden: 13,729 hours

Frequency: Annual.

Title: 49 U.S.C. Section 5310-Enhanced Mobility of Seniors and Individuals with Disabilities & Section 5311-Nonurbanized Area Formula Program.

OMB Number: 2132–0500.

Background: 49 U.S.C. 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program provides formula funding to states and designated recipients to meet the transportation needs of older adults and people with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs. Funds are apportioned based on each state's share of the population for these two groups. Formula funds are apportioned to designated recipients; for rural and small urban areas, this is the state Department of Transportation or a local government entity that operates a public transportation service, while in large urban areas, a designated recipient is chosen by the governor. Designated recipients have flexibility in how they select subrecipient projects for funding, but their decision process must be clearly noted in a state/program management plan. The selection process may be formula-based, competitive or discretionary, and subrecipients can include states or local government authorities, private non-profit organizations, and/or operators of public transportation.

The program aims to improve mobility for older adults and people with disabilities by removing barriers to transportation service and expanding transportation mobility options. This program supports transportation services planned, designed, and carried

out to meet the special transportation needs of seniors and individuals with disabilities in all areas—large urbanized (over 200,000), small urbanized (50,000–200,000), and rural (under 50,000). Eligible projects include both “traditional” capital investment and “nontraditional” capital or operating investment beyond the Americans with Disabilities Act (ADA) complementary paratransit services.

49 U.S.C. 5311—Formula Grants for Rural Areas Program provides capital, planning, and operating assistance to states to support public transportation in rural areas with populations of less than 50,000, where many residents often rely on public transit to reach their destinations. The program also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program. Eligible direct recipients are States and Indian Tribes. Eligible subrecipients include states and local governmental authorities, nonprofit organizations, and operators of public transportation or intercity bus service. The Tribal Transit program provides funding directly to federally recognized Indian Tribes for capital, operating, and planning purposes, through a formula and a competitive program.

Respondents: States or local governmental entities that operate a public transportation service, federally recognized Indian Tribes, and designated recipients; or eligible subrecipients.

Estimated Annual Number of Respondents: 517 respondents.

Estimated Total Annual Burden: 54,133 hours.

Frequency: Annual.
