#### **Submission for OMB Review; Comment Request; Extension: Rule 10b-10**

*Upon Written Request, Copies Available From:* Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) ("PRA"), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the previously approved collection of information provided for in Rule 10b-10 (17 CFR 240.10b-10) under the Securities and Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

Rule 10b-10 requires broker-dealers to convey specified information to customers regarding their securities transactions. This information includes the date and time of the transaction, the identity and number of shares bought or sold, and whether the broker-dealer acts as agent for the customer or as principal for its own account. Depending on whether the broker-dealer acts as agent or principal, Rule 10b-10 requires the disclosure of commissions, as well as mark-up and mark-down information. For transactions in debt securities, Rule 10b-10 requires the disclosure of redemption and yield information. Rule 10b-10 potentially applies to all of the approximately 3,531 firms registered with the Commission that effect transactions for or with customers.

Based on information provided by registered broker-dealers to the Commission in FOCUS Reports, the Commission staff estimates that on average, registered broker-dealers process approximately 27,151,388,510 order tickets per year for transactions for or with customers. Each order ticket representing a transaction effected for or with a customer generally results in one confirmation. Therefore, the Commission staff estimates that

approximately 27,151,388,510 confirmations are sent to customers annually. The confirmations required by Rule 10b-10 are generally processed through automated systems. It takes approximately 30 seconds to generate and send a confirmation. Accordingly, the Commission staff estimates that broker-dealers spend approximately 226,261,571 hours per year complying with Rule 10b-10 ( $27,151,388,510 \times .5 \div 60$ ).

The number of confirmations sent and the cost of sending each confirmation varies from firm to firm. Smaller firms generally send fewer confirmations than larger firms because they effect fewer transactions. The Commission staff estimates the cost of producing and sending a paper confirmation, including postage, to be approximately 67 cents. The Commission staff also estimates that the cost of producing and sending a wholly electronic confirmation is approximately 40 cents. Based on informal discussions with industry participants, as well as representations made in requests for exemptive and no-action letters relating to Rule 10b-10, the staff estimates that broker-dealers used electronic confirmations for approximately 35 percent of transactions. Based on these calculations, Commission staff estimates that 17,648,402,532 paper confirmations are mailed each year at a cost of \$11,824,429,696. Commission staff also estimates that 9,502,985,979 wholly electronic confirmations are sent each year at a cost of \$3,801,194,392. Accordingly, Commission staff estimates that the total annual cost associated with generating and delivering to investors the information required under Rule 10b-10 is approximately \$15,625,624,088.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-96702; File No. SR-NYSEAMER-2023-03]

### Self-Regulatory Organizations; NYSE American LLC; Notice of Filing and Immediate Effectiveness of Proposed Change To Modify Rule 7.31E

January 18, 2023.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on January 4, 2023, NYSE American LLC (“NYSE American” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to modify Rule 7.31E regarding MPL–IOC Orders. The proposed rule change is available on the Exchange’s website at [www.nyse.com](http://www.nyse.com), at the principal office of the Exchange, and at the Commission’s Public Reference Room.

#### II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

#### A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

The Exchange proposes to amend Rule 7.31E regarding MPL–IOC Orders.

Rule 7.31E(d)(3) defines a Mid-Point Liquidity Order (“MPL Order”) as a Limit Order to buy (sell) that is not displayed and does not route, with a working price at the lower (higher) of the midpoint of the PBBO or its limit price. An MPL Order may be entered during any Exchange trading session, is ranked Priority 3—Non-Display Orders, and does not participate in auctions. An MPL Order to buy (sell) must be designated with a limit price in the minimum price variation for the security and will be eligible to trade at its working price.<sup>3</sup> If there is no PBB or PBO, or if the PBBO is locked or crossed, an arriving or resting MPL Order will not be eligible to trade until the PBBO is not locked or crossed. If a resting MPL Order to buy (sell) trades with another MPL Order to sell (buy) after the PBBO is unlocked or uncrossed, the MPL Order with the later working time will be the liquidity-removing order.<sup>4</sup>

An Aggressing MPL Order to buy (sell) will trade at the working price of resting orders to sell (buy) when such resting orders have a working price at or below (above) the working price of the MPL Order. Resting MPL Orders to buy (sell) will trade against all Aggressing Orders to sell (buy) priced at or below (above) the working price of the MPL Order.<sup>5</sup>

Currently, Rule 7.31E(d)(3)(D) provides that an MPL Order may be designated with an Immediate-or-Cancel (“IOC”) Modifier (an “MPL–IOC Order”). An MPL Order designated IOC will be traded in whole or in part on the Exchange as soon as such order is received, and any untraded quantity will be cancelled.<sup>6</sup> Rule 7.31E(d)(3)(D) further provides that, subject to the IOC

Modifier, an MPL–IOC Order follows the same trading and priority rules as an MPL Order (as described above), except that an MPL–IOC Order will be rejected if (i) the order entry size is less than one round lot or (ii) there is no PBBO or the PBBO is locked or crossed.

The Exchange proposes to modify Rule 7.31E(d)(3)(D) to permit MPL–IOC Orders to be entered in any size and thus proposes to eliminate rule text currently providing that an MPL–IOC Order would be rejected if entered in a quantity less than one round lot. The Exchange believes that requiring MPL–IOC Orders to be entered in round lots is unnecessary and that providing ETP Holders with the option to enter MPL–IOC Orders in odd lots could increase liquidity and enhance opportunities for order execution on the Exchange. The Exchange notes that permitting odd-lot order quantities is not novel on the Exchange or other cash equity exchanges and believes that this proposed change would align the Exchange’s handling of MPL–IOC Orders with the treatment of equivalent order types on other cash equity exchanges.<sup>7</sup>

Because of the technology changes associated with this proposed rule change, the Exchange will announce the implementation date by Trader Update, which, subject to effectiveness of this proposed rule change, will be in the first quarter of 2023.

##### 2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Act,<sup>8</sup> in general, and furthers the objectives of Section 6(b)(5),<sup>9</sup> in particular, because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to, and perfect the

<sup>3</sup> See Rule 7.31E(d)(3)(A).

<sup>4</sup> See Rule 7.31E(d)(3)(B).

<sup>5</sup> See Rule 7.31E(d)(3)(C). The Exchange also proposes a non-substantive conforming change to Rule 7.31E(d)(3)(C) to delete “that is eligible to trade” from the rule text. The Exchange proposes to eliminate this text as extraneous and notes that the proposed change would harmonize the language of Rule 7.31E(d)(3)(C) with rules of the same number on its affiliated exchanges, New York Stock Exchange, LLC (“NYSE”); NYSE Arca, Inc. (“NYSE Arca”); NYSE Chicago, Inc. (“NYSE Chicago”); and NYSE National, Inc. (“NYSE National”) (collectively, the “Affiliated Exchanges”). See NYSE Rule 7.31(d)(3)(C); NYSE Arca Rule 7.31–E(d)(3)(C); NYSE Chicago Rule 7.31(d)(3)(C); NYSE National Rule 7.31(d)(3)(C).

<sup>6</sup> See Rule 7.31E(b)(2) (defining IOC Modifier).

<sup>7</sup> See, e.g., Members Exchange Rules 11.8(c)(1) and (2) (providing that a Midpoint Peg Order may be designated IOC and may be entered as an odd lot, round lot, or mixed lot); Cboe EDGX Exchange, Inc. Rules 11.8(d)(1) and (2) (providing that a MidPoint Peg Order may have an IOC instruction and may be entered as an odd lot, round lot, or mixed lot); Cboe EDGA Exchange, Inc. Rules 11.8(d)(1) and (2) (same). The Exchange also notes that the rules of the Nasdaq Stock Market LLC (“Nasdaq”), Cboe BZX Exchange, Inc. (“BZX”), and Cboe BYX Exchange, Inc. (“BYX”) appear to permit orders, including orders analogous to MPL–IOC Orders, to be entered in any size. See Nasdaq Rule 4703(b) (providing that an order may be entered in any whole share size, except as otherwise provided); BZX Rule 11.2 (providing that orders are eligible for odd-lot, round-lot, and mixed-lot executions unless otherwise indicated); BYX Rule 11.2 (same).
