

good-paying jobs. EPA received \$41.5 billion in appropriations to develop and support 24 new and existing programs that monitor and reduce greenhouse gas emissions and air pollution, protect health and advance environmental justice.

These new programs funded by the IRA Sections 60112 and 60116 will provide grants, technical assistance, and tools, including a carbon label, to advance the President’s bold agenda to combat the climate crisis, protect public health and advance environmental justice. The new programs will help manufacturers, institutional buyers, real estate developers, builders and others measure, report and substantially lower the levels of embodied carbon and other greenhouse gas emissions associated with the production, use and disposal of construction materials and products including steel, concrete, asphalt and glass. Additionally, this work will support President Biden’s Buy Clean Task Force which is developing recommendations for Federal procurement and federally funded projects that would expand consideration of greenhouse gas emissions and other pollutants associated with construction materials.
