

Estate. The information collection related to the Osage Mineral Estate is described below in (b)(1).

ONRR uses the production, royalty, and other information collected in this ICR to ensure that a lessee properly pays royalty and other mineral revenues due on oil, gas, and geothermal resources produced from Federal and Indian lands. ONRR shares the data with the Bureau of Indian Affairs, Bureau of Land Management, Bureau of Ocean Energy Management, Bureau of Safety and Environmental Enforcement, and Tribal and State governments for their land and lease management responsibilities. The requirement to report accurately and timely is mandatory.

(b) *Information Collections:* This ICR covers the paperwork requirements under 30 CFR part 1210, subparts B, C, and D; part 1212, subpart B and proposed regulations under 25 CFR part 226, subparts F and I as follows:

(1) *Osage Mineral Estate Royalty and Production Reporting:* The proposed regulations at 25 CFR part 226, subparts F and I require a lessee to submit information to ONRR specific to the Osage Mineral Estate's royalties, rental, bonuses, and other payment information, including sales volumes and values. Lessees are required to submit this information by using one of the forms identified by ONRR. ONRR uses the information collected to ensure companies properly pay royalties based on accurate production accounting on oil, gas, and geothermal resources that they produce from leases of the Osage Mineral Estate.

(2) *Royalty Reporting:* Regulations at 30 CFR part 1210, subparts B and D and part 1212, subpart B, require a lessee to report and remit royalty on oil, gas, and geothermal resources, and to make, retain, and, upon request, provide for inspection accurate and complete records demonstrating proper royalty and other payment. A lessee submits form ONRR-2014, *Report of Sales and Royalty Remittance*, monthly to report royalty on oil, gas, and geothermal leases. Each line contains the royalty owed and the basic elements necessary to calculate the royalty, such as lease number, agreement number, unit number, product code, sales type, sales volume, sales value, processing allowances, transportation allowances, royalty value prior to allowances, and royalty value less allowances. A lessee also uses the form to report certain rents.

(3) *Production Reporting:* Regulations at 30 CFR part 1210, subparts C and D and part 1212, subpart B, require an operator to submit production reports if

it operates a Federal or Indian oil and gas lease or federally approved unit or communitization agreement, and to make, retain, and, upon request, provide for inspection accurate and complete records for demonstrating royalty payment. An operator uses the following forms for production accounting and reporting:

(i) *Form ONRR-4054, Oil and Gas Operations Report:* An operator submits this report monthly. Part A tracks the oil and gas volume produced from each Federal or Indian well. Part B tracks disposition of the oil and gas. Part C tracks the oil and gas inventory on the property. ONRR compares the production information with the sales and other royalty data that a lessee submits on form ONRR-2014 to ensure that the lessee paid and reported the proper royalty on the reported oil and gas production. ONRR also uses the information from parts A, B, and C to track all oil and gas from the point of production to the point of first sale or other disposition.

(ii) *Form ONRR-4058, Production Allocation Schedule Report:* Unless certain conditions are met, an operator must submit this report if it operates an offshore facility measurement point (FMP) handling production from a Federal oil and gas lease or federally approved unit agreement that is commingled (with approval) with production from any other source prior to measurement for royalty determination. The report is filed monthly to allocate the production to each source. ONRR uses the data to verify accurate production and royalty reporting.

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing duty order on steel concrete reinforcing bar ("rebar") from Turkey and revocation of the antidumping duty orders on rebar from Japan, Taiwan, and Turkey would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on June 1, 2022 (87 FR 33206) and determined on September 6, 2022 that it would conduct expedited reviews (87 FR 77636, December 19, 2022).

SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930 provides that, if the Commission finds a violation, it shall exclude the articles concerned from the United States: unless, after considering the effect of such exclusion upon the public health and welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, and United States consumers, it finds that such articles should not be excluded from entry. (19 U.S.C. 1337(d)(1)).

The Commission is soliciting submissions on public interest issues raised by the recommended relief should the Commission find a violation, specifically: a limited exclusion order against certain replacement automotive lamps of TYC Brother Industrial Co., Ltd, Genera Corporation (dba TYC Genera), LKQ Corporation, and Keystone Automotive Industries, Inc. Parties are to file public interest submissions pursuant to 19 CFR 210.50(a)(4).

(ii) identify any public health, safety, or welfare concerns in the United States relating to the recommended limited exclusion order;

(iii) identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the subject articles if they were to be excluded;

(iv) indicate whether complainant, complainant's licensees, and/or third party suppliers have the capacity to replace the volume of articles potentially subject to the recommended limited exclusion order within a commercially reasonable time; and

(v) explain how the recommended limited exclusion order would impact consumers in the United States.

Written submissions must be filed no later than by close of business on February 23, 2023.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above. The Commission's paper filing requirements in 19 CFR 210.4(f) are currently waived. 85 FR 15798
