SUPPLEMENTARY INFORMATION: Under section 4041 of the Employee Retirement Income Security Act of 1974 (ERISA), a single-employer pension plan may terminate voluntarily only if it satisfies the requirements for either a standard or a distress termination. Pursuant to section 4041(b) of ERISA (for standard terminations), section 4041(c) of ERISA (for distress terminations), and PBGC's termination regulation (29 CFR part 4041), a plan administrator wishing to terminate a plan is required to submit specified information to PBGC in support of the proposed termination and to provide specified information regarding the proposed termination to third parties (participants, beneficiaries, alternate payees, and employee organizations).

The collection of information has been approved under OMB control number 1212–0036 (expires March 31, 2023). On November 15, 2022, PBGC published in the **Federal Register** a notice at 87 FR 68524 informing the public of its intent to request an extension of this collection of information and solicited public comment. No comments were received. PBGC intends to request that OMB extend its approval, with modifications, for another 3 years. PBGC is modifying the Standard Termination Filing Instructions to make clear that certain documents, already mentioned in the instructions, must be included with the submission of these forms. In addition, PBGC is making other editorial and clarifying changes to the instructions. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that annually 1,654 plan administrators will be subject to the collection of information requirements in PBGC's regulations and the implementing forms and instructions, and that the total estimated annual burdens of complying with these requirements are 41,735 hours and \$8,509,740.
