**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Part 70**

[EPA–R09–OAR–2022–0623; FRL–10031–03–R9]

**Clean Air Act Operating Permit Program; California; San Diego County Air Pollution Control District; Correction**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule; correction.

**SUMMARY:** On December 23, 2022, the Environmental Protection Agency (EPA) published a direct final rule in the **Federal Register** to approve revisions to the Clean Air Act (CAA or “Act”) Operating Permit Program (title V) of the San Diego County Air Pollution Control District (SDCAPCD or “District”) in California. In that rulemaking, the EPA included an incorrect effective date in Section VI of the document and in the instructions to amend the regulatory text. This document corrects the errors in the direct final rule.

**DATES:** This correction is effective February 21, 2023.

**FOR FURTHER INFORMATION CONTACT:** La Weeda Ward, Permits Office (Air–3–1), U.S. Environmental Protection Agency, Region IX, (213) 244–1812, [ward.laweeda@epa.gov](mailto:ward.laweeda@epa.gov).

**SUPPLEMENTARY INFORMATION:** In our direct final rule published December 23, 2022 (87 FR 78871), the EPA included an incorrect effective date in the document and instructions to amend the regulatory text. We are correcting the effective date to the date 60 days after publication in the **Federal Register** because the language in 40 CFR 70.4(b)(11)(i) states that part 70 sources have one year to submit permit applications after the effective date of the permit program. Final rules from past actions in California match the effective date of the program with the

effective date of the federal rule, as indicated by the amendatory instructions to change the regulatory text in 40 CFR part 70, appendix A. See, e.g., 68 FR 74871 (December 29, 2003) (a direct final rule), 68 FR 65637 (November 21, 2003), and 77 FR 54382 (September 5, 2012).

The direct final rule published on December 23, 2022 (87 FR 78871) matches the effective date of the program with the publication date of the rule, which would give sources less than one year from the program effective date to submit their applications. The following amendatory instructions correct the effective dates in Section VI and the regulatory text in FR Doc. 2022–27725 appearing on pages 78871–78874 in the **Federal Register** of Friday, December 23, 2022:

#### VI. Final Action [Corrected]

■ 1. On page 78874, at the top of the first column, the text “If we do not receive timely adverse comments, this direct final approval will be effective without further notice on December 23, 2022.” is corrected to read “If we do not receive timely adverse comments, this direct final approval will be effective without further notice on February 21, 2023.”

#### Appendix A to Part 70—Approval Status of State and Local Operating Permits Programs [Corrected]

■ 2. On page 78874, in the middle of the third column, the text “(6) The District adopted revisions on October 14, 2021. The California Air Resources Board submitted revisions to the EPA on January 24, 2022. Approval is effective on December 23, 2022.” is corrected to read “(6) The District adopted revisions on October 14, 2021. The California Air Resources Board submitted revisions to the EPA on January 24, 2022. Approval is effective on February 21, 2023.”

Dated: January 26, 2023.

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Parts 2 and 15

[ET Docket No. 21–232 and EA Docket No. 21–233; FCC 22–84; FR ID 120432]

#### Protecting Against National Security Threats to the Communications Supply Chain Through the Equipment Authorization Program

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** In this document, the Federal Communications Commission (Commission) amends its rules related to equipment authorization to further secure our communications networks and supply chain from equipment that poses an unacceptable risk to national security of the United States or the security and safety of United States persons. The Commission implements revisions to the equipment authorization program to prohibit authorization of equipment that has been identified on the Commission’s Covered List—published pursuant to the Secure and Trusted Communications Networks Act of 2019—as posing an unacceptable risk to national security of the United States or the security or safety of United States persons, and the Commission prohibits the marketing and importation of such equipment in the United States. The Commission also addresses what constitutes “covered” equipment for purposes of implementing the equipment authorization prohibition that the Commission is implementing. The actions being taken comply with Congress’s directive in the secure Equipment Act of 2021 to prohibit authorization of “covered” equipment on the Covered List within one year of that Act’s enactment and to lay the foundation to prohibit the authorization of any additional “covered” equipment that may be added to the Covered List based on a determination that such equipment poses an unacceptable risk to national security.

**DATES:** Effective February 6, 2023.

#### Procedural Matters

*Final Regulatory Flexibility Analyses.* The Regulatory Flexibility Act of 1980 (RFA) requires that an agency prepare a regulatory flexibility analysis for notice and comment rulemakings, unless the agency certifies that “the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities.” Accordingly, the Commission has prepared a Final Regulatory Flexibility Analysis (FRFA) concerning the possible impact of the rule changes contained in this Second Order on Reconsideration on small entities. As required by the RFA, an Initial Regulatory Flexibility Analysis (IRFA) was incorporated in the Notice of Proposed Rulemaking (*NPRM*) (86 FR 46644, August 19, 2021). The Commission sought written public comment on the proposals in the *NPRM*, including comments on the IRFA. No comments were filed addressing the IRFA. Accordingly, the Commission has prepared a Final Regulatory Flexibility Analysis (FRFA) concerning the possible impact of the rule changes contained in the document on small entities. The present FRFA conforms to the RFA and can be viewed under Appendix B of the item.

*Paperwork Reduction Act.* This document contains new and modified information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. It was submitted to the Office of Management and Budget (OMB) for emergency review under section 3507(d) of the PRA. Public comment on this
