k. *Description of Request:* Ampersand Cranberry Lake Hydro (Ampersand) proposes surrendering its license for the non-operating project. The project dam and other project facilities are owned by the Oswegatchie River-Cranberry Regulating District (Regulating District), a local governmental entity. Ampersand lost its lease to the project, along with all rights and access to the project. Ampersand is not proposing any ground disturbing activities as part of the surrender. Ampersand proposes to adopt the Regulating District's plan to, at the Regulating District's own expense, remove the project's fuse plug spillway, complete all needed repairs of the dam, remove the generating and appurtenant equipment from the powerhouse, and secure the project site. If the Commission approves the surrender and the surrender becomes effective, Commission jurisdiction will end over

the project and the project and dam will transition to the jurisdiction of New York State Department of Environmental Conservation.

#### SUPPLEMENTARY INFORMATION:

*Background:* The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the EPA Administrator on the scientific and technical basis for agency positions and

regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C. app. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the Science Advisory Board BenMAP and Benefits Methods Panel will hold a public meeting to discuss charge questions related to the BenMAP model and TSD.

**Availability of Meeting Materials:** All meeting materials, including the agenda will be available on the SAB web page at <https://sab.epa.gov>.

**Procedures for Providing Public Input:** Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee's charge or meeting materials. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for the SAB to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should follow the instructions below to submit comments.

**Oral Statements:** In general, individuals or groups requesting an oral presentation at a meeting will be limited to three minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Persons interested in providing oral statements should contact the DFO, in writing (preferably via email) at the contact information noted above by February 22, 2023, to be placed on the list of registered speakers.

**Written Statements:** Written statements will be accepted throughout the advisory process; however, for timely consideration by SAB members, statements should be submitted to the DFO by February 22, 2023, for consideration at the March 2–3, 2023 meeting. Written statements should be supplied to the DFO at the contact information above. It is the SAB Staff Office general policy to post written comments on the web page for the meeting. Submitters are requested to

provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites.

Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without explicit permission of the copyright holder.

**Accessibility:** For information on access or services for individuals with disabilities, please contact Holly Stallworth, at 202.564.2073 or [stallworth.holly@epa.gov](mailto:stallworth.holly@epa.gov), preferably at least ten days prior to the meeting, to give the EPA as much time as possible to process your request.
