SUPPLEMENTARY INFORMATION:

Title: Federally Recognized State Managed Phytosanitary Program.

OMB Control Number: 0579–0365.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to prohibit or restrict the importation, entry, or interstate movement of plant pests, plants, plant products, or other articles if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the

Animal and Plant Health Inspection Service (APHIS).

As part of this mission, APHIS' Plant Protection and Quarantine program responds to introductions of plant pests to eradicate, suppress, or contain them through various programs to prevent their interstate spread. APHIS' plant pest containment and eradication programs qualify as "official control programs," as defined by the International Plant Protection Convention (IPPC), recognized by the World Trade Organization as the standard-setting body for international plant quarantine issues. Official control is defined as the active enforcement of mandatory phytosanitary regulations and the application of mandatory phytosanitary procedures with the objective of containment or eradication of quarantine pests or for the management of regulated non-quarantine pests. As a contracting party to the IPPC, the United States has agreed to observe IPPC principles as they relate to international trade.

APHIS is aware that individual States enforce phytosanitary regulations and procedures within their borders to address pests of concern, and that those pests are not always also the subject of an APHIS response program or activity. To strengthen APHIS' safeguarding system to protect agriculture and to facilitate agriculture trade through effective management of phytosanitary measures, APHIS initiated the Federally Recognized State Managed Phytosanitary (FRSMP) Program, which establishes an administrative process for granting Federal recognition to certain State-managed official control programs for plant pest eradication or containment and State-managed pest exclusion programs. (The FRSMP Program was previously referred to as the Official Control Program.) Federal recognition of a State's pest control activities will justify actions by Federal inspectors at ports of entry to help exclude pests that are under a phytosanitary program in a destination State. This process involves the use of information collection activities, including the submission of a petition for protocol for quarantine pests of concern, a petition for regulated non-quarantine pests, State cooperative agreements, and audit review annual accomplishment reports.

We are asking the Office of Management and Budget (OMB) to approve these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our

information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 34.7 hours per response.

Respondents: State plant health regulatory officials.

Estimated annual number of respondents: 1.

Estimated annual number of responses per respondent: 7.

Estimated annual number of responses: 7.

Estimated total annual burden on respondents: 243 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 1st day of February 2023.

Anthony Shea

Administrator, Animal and Plant Health Inspection Service.

Members can serve on only one USDA Advisory Committee at a time.

All nominees will undergo a USDA background check. Any member who is not a Federal government employee will be appointed to serve as a non-compensated special government employee (SGE). addressing the nomination.

Additionally, a resume or curriculum vitae and a completed USDA Advisory Committee Membership Background Information form AD-755 (available online at: <https://www.usda.gov/sites/default/files/documents/ad-755.pdf>) must be included with the nomination. The resume or curriculum vitae must be limited to five one-sided pages and should include educational background, expertise, and a list of select publications, if available, that confirm the nominee's expertise for the related work. Background

The NACMCF provides impartial scientific advice, and peer reviews to Federal food safety agencies for use in the development of an integrated national food safety systems approach that assures the safety of domestic, imported, and exported foods.

The NACMCF is a discretionary advisory committee that was established in 1988, by the Secretary of Agriculture, and after consulting with the Secretary of the U.S. Department of Health and Human Services, in response to the recommendations of two external organizations. The National Academy of Sciences recommended an interagency approach to microbiological criteria, since various federal, State, and local agencies are responsible for food safety. Also, the U.S. House of Representatives Committee on Appropriations made a similar recommendation in the Rural Development, Agriculture, and Related Agencies Appropriation Bill for fiscal year 1988. The charter for the NACMCF is available for viewing at <https://www.fsis.usda.gov/policy/advisory-committees/national-advisory-committee-microbiological-criteria-foods-nacmcf>. The NACMCF provides scientific advice and recommendations to the Secretary of Agriculture and the Secretary of Health and Human Services on public health issues relative to the safety and wholesomeness of the U.S. food supply, including development of microbiological criteria and review and evaluation of epidemiological and risk assessment data and methodologies for assessing microbiological hazards in foods. The Committee also provides scientific advice and recommendations to the U.S. Departments of Commerce and Defense. For example, one of the most recent efforts of the Committee was to provide the best scientific information available on 'Enhancing

Salmonella Control in Poultry.' The Committee is currently addressing 'Cronobacter spp. In Powdered Infant Formula' and anticipates an FSIS charge related to the benefits of genomic characterization of pathogens.

The Committee reports to the Secretary of Agriculture through the Under Secretary for Food Safety, the Committee's Chair, and to the Secretary of Health and Human Services through the Assistant Secretary for Health, the Committee's Vice-Chair. Currently, Dr. José Emilio Esteban, Under Secretary for Food Safety, USDA, is the Committee Chair; Dr. Susan T. Mayne, Director of the Food and Drug Administration's Center for Food Safety and Applied Nutrition (CFSAN), is the Vice-Chair; and Mr. John J. Jarosh, FSIS, is the Director of the NACMCF Secretariat and Designated Federal Officer.

Appointments to the Committee will be made by the Secretary of Agriculture after consultation with the Secretary of Health and Human Services to ensure that recommendations made by the Committee take into account the needs of the diverse groups served by the USDA.

The full Committee expects to meet at least once a year, virtually or in person, and the meetings will be announced in advance in the **Federal Register**. NACMCF holds subcommittee meetings in order to accomplish the work of the Committee; all subcommittee work is reviewed and approved during a public meeting of the full Committee, as announced in the **Federal Register**. The subcommittees will meet as deemed necessary by the subcommittee chairperson in an open public forum. Subcommittees may also meet virtually. The subcommittee meetings will not be announced in the **Federal Register**; however, FSIS will announce the agenda and subcommittee meetings through the FSIS *Constituent Update*, available online at: <http://www.fsis.usda.gov/cu>. Subcommittees may invite technical experts to present information for consideration by the subcommittee. All data and records available to the full Committee are expected to be available to the public after the full Committee has reviewed and approved the work of the subcommittee.

Advisory committee members are expected to attend all scheduled meetings during their two-year term to ensure the smooth functioning of the advisory committee. Members must be prepared to work outside of scheduled Committee and subcommittee meetings and may be required to assist in document preparation. Committee members serve on a voluntary basis;

however, travel expenses and per diem reimbursements are available when in person meetings occur.

Regarding Nominees Who Are Selected

All SGE and Federal government employee nominees who are selected must complete the Office of Government Ethics (OGE) 450 Confidential Financial Disclosure Report before rendering any advice or before their first meeting. All Committee members will be reviewed pursuant to 18 U.S.C. 208 for conflicts of interest relating to specific NACMCF work charges, and financial disclosure updates will be required annually. Members subject to financial disclosure must report any changes in financial holdings requiring additional disclosure. OGE 450 forms are available on-line at: https://www.oge.gov/web/oge.nsf/ethicsofficials_financial-disc.

Documents and Comments

NACMCF documents and comments posted on the FSIS website are electronic conversions from a variety of source formats. In some cases, document conversion may result in character translation or formatting errors. The original document is the official, legal copy. To meet the electronic and information technology accessibility standards in section 508 of the Rehabilitation Act, NACMCF may add alternate text descriptors for non-text elements (graphs, charts, tables, multimedia, etc.). These modifications only affect the internet copies of the documents. Copyrighted documents will not be posted on FSIS' website but will be available for inspection in the FSIS Docket Room.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS will also announce and provide a link to it through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS web page. Through the web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and

information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.
