General Description of Collection: Part 360.6 of the FDIC's regulations sets forth certain conditions that must be satisfied for a securitization transaction sponsored by an insured depository institution to be eligible for special treatment in the event that the FDIC is appointed receiver for the sponsor. Among other conditions, the securitization documents must require compliance with certain disclosure requirements (including the requirements of Regulation AB of the Securities and Exchange Commission). Conditions of eligibility for special treatment for participations in financial assets under part 360.6 are also set forth.

Based upon a closer review of the Rule, the FDIC has re-categorized the information collection requirements in 12 CFR part 360.6 into five distinct information collections (ICs) covering: (1) periodic disclosures of credit performance or changes to initial compensation arrangements under 12 CFR 360.6(b)(2)(i)(C) and (D); (2) disclosures of initial compensation arrangements and securitization structure under 12 CFR 360.6(b)(2)(i)(B) and (D); (3) sponsors' disclosures of loan-level information and third-party due diligence reports for RMBSs under 12 CFR 360.6(b)(2)(ii)(A) and (B); (4) servicers' disclosures of servicer or affiliate ownership interests for securitizations in which the assets include residential mortgage loans under 12 CFR 360.6(b)(2)(ii)(C); and (5) a recordkeeping requirement that the closing documents of a securitization be maintained in a readily accessible form under 12 CFR 360.6(c)(7). The burden associated with these five categories are enumerated in the estimated burden

table which now identifies the regulatory authorities for each IC.

While there is no change in the substance of the information collection, the ICR is being revised to reflect the re-categorization of the PRA requirements in 12 CFR part 360.6 into five distinct ICs. The additional IC was added to this ICR to recognize the periodic credit performance disclosure requirement.

Request for Comment: Comments are invited on: (a) Whether the collections of information are necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.

The GSA "Equity Study on Remote Identity Proofing" will assess the impact of ethnicity, race, gender, income, and other demographic factors on the components of identity proofing, which is the process of verifying that a person is who they say they are. GSA will test remote identity-proofing tools that include both biometric checks using facial verification technology as well as non-biometric methods like mobile-device account ownership and credit history.
