

**B. Executive Order 12866: Regulatory Impact**

This final rule has been determined to be not significant within the meaning of Executive Order 12866.

**C. Regulatory Flexibility Act**

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration during the proposed rule stage that this action would not have a significant economic impact on a substantial number of small entities for purposes of the Regulatory Flexibility Act. The factual basis for the certification was published in the proposed rule and is not repeated here. No comments were received regarding this certification, but NOAA did receive one public comment about the evaluation of the insurance, capacity, or regulatory impacts on small businesses. However, NOAA has determined that said public comment is outside the scope of this rulemaking given the fact that this final rule is strictly administrative in nature, the amendment addresses how potential conflict among other Federal agency regulations and FGBNMS sanctuary regulations are to be resolved, and the final rule does not create any new requirements for small businesses nor does it create or remove any environmental protections. As a result, a regulatory flexibility analysis was not required and none was prepared.

[Docket No. RM81–19–000]

**Natural Gas Pipelines; Project Cost and Annual Limits**

**AGENCY:** Federal Energy Regulatory Commission, Energy.

**ACTION:** Final rule.

**SUMMARY:** Pursuant to the authority delegated by the Commission’s regulations, the Director of the Office of Energy Projects (OEP) computes and publishes the project cost and annual limits for natural gas pipelines blanket construction certificates for each calendar year.

**DATES:** This final rule is effective February 14, 2023 and establishes cost limits applicable from January 1, 2023, through December 31, 2023.

**FOR FURTHER INFORMATION CONTACT:** Daniel Green, Chief, Certificates Branch 2, Division of Pipeline Certificates, (202) 502–8755.

**SUPPLEMENTARY INFORMATION:** Section 157.208(d) of the Commission’s Regulations provides for project cost limits applicable to construction, acquisition, operation, and miscellaneous rearrangement of facilities (Table I) authorized under the blanket certificate procedure (Order No. 234, 19 FERC ¶ 61,216). Section 157.215(a) specifies the calendar year dollar limit which may be expended on underground storage testing and development (Table II) authorized under the blanket certificate. Section 157.208(d) requires that the “limits specified in Tables I and II shall be adjusted each calendar year to reflect the ‘GDP implicit price deflator’ published by the Department of Commerce for the previous calendar year.”

Pursuant to § 375.308(x)(1) of the Commission’s Regulations, the authority for the publication of such cost limits, as adjusted for inflation, is delegated to the Director of the Office of Energy Projects. The cost limits for calendar

year 2023, as published in Table I of § 157.208(d) and Table II of § 157.215(a), are hereby issued.

**Effective Date**

This final rule is effective February 14, 2023. The provisions of 5 U.S.C. 804 regarding Congressional review of Final Rules does not apply to the Final Rule because the rule concerns agency procedure and practice and will not substantially affect the rights or obligations of non-agency parties. The final rule merely updates amounts published in the Code of Federal Regulations to reflect the Department of Commerce’s latest annual determination of the Gross Domestic Product (GDP) implicit price deflator, a mathematical updating required by the Commission’s existing regulations.

This document and additional information concerning OFAC are available on OFAC’s website: [www.treas.gov/ofac](http://www.treas.gov/ofac).

**Background**

On March 22, 2019, OFAC issued GLs 16 and 17 to authorize certain transactions otherwise prohibited by Executive Order (E.O.) 13850 of November 1, 2018, “Blocking Property of Additional Persons Contributing to the Situation in Venezuela” (83 FR 55243, November 2, 2018). Subsequently, OFAC issued three further iterations of GL 16. On April 17, 2019, OFAC issued GL 16A, which superseded GL 16. On August 5, 2019, OFAC issued GL 16B, which superseded GL 16A and also authorized certain transactions otherwise prohibited by E.O. 13884 of August 5, 2019, “Blocking Property of the Government of Venezuela” (84 FR 38843, August 7, 2019). On November 22, 2019, OFAC incorporated the prohibitions of E.O. 13850, as well as any other Executive orders issued pursuant to the national emergency declared in E.O. 13692 of March 8, 2015, “Blocking Property and Suspending Entry of Certain Persons Contributing to the Situation in Venezuela,” into the Venezuela Sanctions Regulations, 31 CFR part 591 (VSR). On March 12, 2020, OFAC issued GL 16C, which superseded GL 16B, pursuant to the VSR. GL 17 expired on May 21, 2019.

Also on March 22, 2019, OFAC issued GL 18 to authorize certain transactions otherwise prohibited by E.O. 13808 of August 24, 2017, “Imposing Additional Sanctions with Respect to the Situation in Venezuela” (82 FR 41155, August 29, 2017) or E.O. 13850. On August 5, 2019, OFAC issued GL 18A, which superseded GL 18 and also authorized certain transactions otherwise prohibited by E.O. 13884.

Each GL was made available on OFAC’s website ([www.treas.gov/ofac](http://www.treas.gov/ofac)) when it was issued. The text of these GLs is provided below.
