SUPPLEMENTARY INFORMATION:

Title of Collection: United States Antarctic Program (USAP) Climate Survey.

OMB Control No.: 3145–0260.

Type of Request: Intent to seek approval to reinstate with revisions an information collection for three years. The primary purpose of this reinstatement is to identify and study the perceptions and perspectives of USAP participants located in Antarctica. The surveys address attitudes and concerns that will help NSF work with program participants and participating organizations to instill positive changes.

Proposed Project: In accordance with presidential memo 6646 the NSF manages the U.S. Antarctic Program including occupation of three year-round stations located on the Antarctic continent. NSF is committed to a workplace and community that fosters a climate free from sexual assault and harassment. NSF has recently completed a Sexual Assault/Harassment Prevention and Response (SAHR) program which requires reinstatement of this information collection.

Use of the Information: Disseminating a climate survey ensures accurate baseline data that will allow NSF to monitor SAHPR program progress, course correct efforts, and objectively demonstrate successes.

Burden on the Public: The Foundation estimates that an average of 1,800 respondents are expected to complete the request per year for a total of 900 burden hours annually.
