BILLING CODE 3410-20-P

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Seek Approval To Reinstatement of an Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to seek reinstatement of an information collection, the 2023 Irrigation and Water Management Survey. Revision to previous burden hours will be needed due to changes in the size of the target population, sampling design, and questionnaire length.

DATES: Comments on this notice must be received by April 17, 2023 to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535-0234, by any of the following methods:

- *Email:* ombofficer@nass.usda.gov.

Include the docket number above in the subject line of the message.

- *E-fax:* (855) 838-6382.

- *Mail:* Mail any paper, disk, or CD-

ROM submissions to: Richard Hopper, NASS Clearance Officer, U.S.

Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.

- *Hand Delivery/Courier:* Hand deliver to: Richard Hopper, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.

FOR FURTHER INFORMATION CONTACT:

Kevin Barnes, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720-2707. Copies of this information collection and related instructions can be obtained without charge from Richard Hopper, NASS-OMB Clearance Officer, at (202) 720-2206 or at ombofficer@nass.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: 2023 Irrigation and Water Management Survey.

OMB Control Number: 0535-0234.

Type of Request: Statement to Seek

Reinstatement of an Information Collection.

Abstract: The 2023 Irrigation and Water Management Survey is conducted every 5 years as authorized by the Census of Agriculture Act of 1997 (Pub. L. 105-113). The 2023 Irrigation and Water Management Survey will use a combined probability sample of all farms and horticultural operations that reported irrigation and/or irrigation equipment on the 2022 Census of Agriculture. This irrigation survey aims to provide a comprehensive inventory of farm irrigation practices with detailed data relating to acres irrigated by category of land use, acres and yields of irrigated and non-irrigated crops, quantity of water applied, and method of application to selected crops. Also included will be 2023 expenditures for maintenance and repair of irrigation equipment and facilities; purchase of energy for on-farm pumping of irrigation water; investment in irrigation equipment, facilities, and land improvement; cost of water received from off-farm water supplies; and questions related to water reuse and security. The irrigation questions for horticultural specialties will provide the area irrigated in the open and under protection, source of water, and the irrigation method used at the State level and by 20 Water Resource Regions (WRR). A table will be published showing the total estimated quantity of water applied for crops including horticultural specialties. Irrigation data are used by the farmers, their representatives, government agencies, and many other groups concerned with the irrigation industry and water use issues. This survey will provide the only source of dependable, comparable irrigation data by State and Water Resources Region (WRR). The National Agricultural Statistics Service will use the information collected only for statistical purposes and will publish the data only as aggregate totals.

Authority: The census of agriculture and subsequent follow-on censuses are required by law under the "Census of Agriculture Act of 1997," Public Law 105-113, 7 U.S.C. 2204(g). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501, *et seq.*) and Office

of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, Title III of Public Law 115-435, codified in 44 U.S.C. Ch. 35. CIPSEA supports NASS's pledge of confidentiality to all respondents and facilitates the agency's efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA. NASS uses the information only for statistical purposes and publishes only tabulated total data.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 45-60 minutes per response. Publicity materials and instruction sheets will account for about 15 minutes of additional burden per respondent. Respondents who refuse to complete the survey will be allotted 2 minutes of burden per attempt to collect the data.

Respondents: Farmers, Ranchers, Farm Managers, and producers of Nursery, Greenhouse and Floricultural Products.

Estimated Number of Respondents: 35,000.

Estimated Total Annual Burden on Respondents: 28,000 hours.

Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological, or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, January 26, 2023.

Kevin L. Barnes,

Associate Administrator.
