

violations. The Partial Consent Decree resolved all claims against the City of Harrisburg and nearly all claims against CRW, except for claims regarding CRW's implementation of a Long-Term Control Plan and claims for civil penalties against CRW. The Partial Consent Decree became effective on August 24, 2015.

The Modification to Partial Consent Decree refines the 2015 Partial Consent Decree by requiring CRW to perform injunctive measures to ensure that the sewer system is capable of meeting capture goals in a Long-Term Control Plan. Those measures include, among other requirements, construction projects to help bring the sewer system to a functional baseline; public notification of combined sewer overflow events, including real-time monitoring of certain combined sewer outfalls, and submission of a Long-Term Control Plan that complies with EPA's CSO Policy no later than December 31, 2024. The Modification provides the same resolution as the 2015 Partial Consent Decree; it does not resolve claims regarding CRW's implementation of the Long-Term Control Plan and claims for civil penalties against CRW.

The publication of this notice opens a period for public comment on the Modification to Partial Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and Pennsylvania Department of Environmental Protection v. Capital Region Water and City of Harrisburg*, D.J. Ref. No. 90-5-1-1-10157. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

**DEPARTMENT OF JUSTICE**

**Notice of Lodging of Proposed Third Amended Consent Decree Under the Clean Water Act**

On February 13, 2023, the Department of Justice lodged a proposed Third Amendment to the Consent Decree with the United States District Court for the Northern District of Ohio in the lawsuit entitled *United States v. City of Akron, Ohio, et al.*, Civil Action No. 09-cv-00272.

In this action the United States, and the State of Ohio in a cross-claim, sought civil penalties and injunctive relief for violations of the Clean Water Act, 33 U.S.C. 1251 *et seq.*, in connection with the City of Akron's ("Akron's" or "City's") operation of its municipal wastewater treatment facility and sewer system. Under the Consent Decree, which was approved by the Court in January 2014, Akron was required to implement a comprehensive plan to address overflows from its combined sewer system and bypasses around secondary treatment at the wastewater treatment facility. That plan, known as the "Long Term Control Plan Update" ("LTCP Update"), which was approved by the United States in November 2011 and the State of Ohio in April 2012, sets forth specific projects that the City is required to implement, and identifies dates for completion of these projects.

The proposed amendment modifies provisions of the 2014 Consent Decree that are set forth in the City's LTCP Update. Specifically, the proposed amendment includes: (1) resizing a large tunnel (the Northside Interceptor Tunnel) from 23 million gallons ("MG") to 10.3 MG; and (2) adding a new requirement for sewer separation at one of the City's combined sewer overflow discharge points that would otherwise be controlled by the Northside Interceptor Tunnel.

The publication of this notice opens a period for public comment on the proposed Third Amendment to the Consent Decree. Comments should be

addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. City of Akron et al.*, D.J. Ref. No. 90-5-1-1-3144/2. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:
