Federal agencies with an opportunity to  
comment on new, proposed, revised,

reduce paperwork and respondent  
burdens, we are again soliciting  
comments from the public and other  
Federal agencies on the proposed ICR  
that is described below. We are  
especially interested in public comment

burden for this collection of

information, including the validity of  
the methodology and assumptions used;

(4) How might the agency minimize  
the burden of the collection of  
information on those who are to  
respond, including through the use of  
appropriate automated, electronic,  
mechanical, or other technological  
collection techniques or other forms of

**Abstract:** The regulations at 25 CFR  
273, Subpart E, implement in section  
7(c) Contracting Party Student Count  
Reporting Compliance, of the Johnson-  
O'Malley Supplemental Indian  
Education Program Modernization Act  
(JOM Modernization Act). These  
regulations require the BIE to  
implement an annual reporting  
requirement for existing JOM  
contractors to report a student count  
served by each contracting party, and an  
accounting of the amounts and purposes  
for which the contract funds were  
expended. The information received  
from the annual reporting requirements  
of the contractor will allow the  
Secretary to provide an annual report,  
including the most recent determination  
of the number of eligible Indian  
students served by each contracting

party, recommendation on appropriate funding levels, and an assessment of the contracts receiving JOM contracts, to the appropriate Committee and Subcommittees in the Senate and of the House of Representatives.

### Notice of Availability of the Proposed Resource Management Plan Amendment and Final Environmental Impact Statement for the SunZia Southwest Transmission Project Right-of-Way Amendment, New Mexico and Arizona

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLMPA), the Bureau of Land Management (BLM) has prepared a Proposed Resource Management Plan (RMP) Amendment and Final Environmental Impact Statement (EIS) for the SunZia Southwest Transmission Project Right-of-Way Amendment and by this notice is announcing the start of a 30-day protest period of the Proposed RMP Amendment.

**DATES:** This notice announces the beginning of a 30-day protest period to the BLM on the Proposed RMP Amendment. Protests must be postmarked or electronically submitted on the BLM's ePlanning site within 30 days of the date that the Environmental Protection Agency (EPA) publishes its Notice of Availability (NOA) in the **Federal Register**. The EPA usually publishes its NOAs on Fridays.

### FOR FURTHER INFORMATION CONTACT:

Adrian Garcia, Project Manager, (505) 954–2199, [agarcia@blm.gov](mailto:agarcia@blm.gov); or Virginia

Alguire, Assistant Field Manager, (575) 838–1290, [valguire@blm.gov](mailto:valguire@blm.gov); 301 Dinosaur Trail, Santa Fe, New Mexico 87508. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Mr. Garcia. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** The RMP amendment is being considered to allow the BLM to evaluate SunZia Transmission, LLC's application to amend its right-of-way grant for the SunZia Southwest Transmission Project (Project), which would require amending the existing Socorro Field Office RMP.

The proposed SunZia Southwest Transmission Project is composed of two planned 500-kilovolt transmission lines located across approximately 520 miles of Federal, state, and private lands between central New Mexico and central Arizona. The Project traverses Lincoln, Socorro, Sierra, Luna, Grant, Hidalgo, Valencia, and Torrance counties in New Mexico and Graham, Greenlee, Cochise, Pinal, and Pima counties in Arizona.

The proposed alternatives would not be in conformance with the Socorro RMP due to one of the following conditions: the right-of-way would cross an area designated in the RMP as right-of-way avoidance or exclusion, the right-of-way would cross a special designation, or the project would not comply with Visual Resource Management objectives. Plan amendments would be required for alternatives where no conforming alternatives could be developed that would meet the purpose and need of the project.

In addition to the alternative transmission line routes, two plan amendment alternatives have been identified for each of the affected RMPs, as follows:

- **No Action:** If no action is taken, then the right-of-way for the project would not be granted and no amendment to the affected RMP would be granted.

- **400-foot-wide right-of-way:** The affected RMP would be amended to designate a 400-foot-wide right-of-way for the proposed project through the BLM right-of-way avoidance areas and one exclusion area associated with an Area of Critical Environmental Concern. The Visual Resource Management
