

by supporting “actively managed” clusters (*i.e.*, clusters that are administered by a team of individuals and possess a form of governance rather than a cluster that occurs naturally without intervention in a regional economy). The clusters provide a host of services to the target population of small and emerging businesses within their regional and industry focuses. Services include direct business advising and support and sponsoring events, such as networking opportunities with investors, large businesses, and other stakeholders in the regions.

Abstract of Proposed Collection

- *1405-0011, DS-2029, Application for Consular Report of Birth Abroad of a Citizen of the United States of America*: The form is used to apply for a Consular Report of Birth Abroad of a U.S. citizen. The information collected on this form will be used to certify the acquisition of U.S. citizenship at birth of a person born abroad. 8 U.S.C. 1104 and 22 CFR 50.5 through 50.7 are among the important legal authorities pertaining to the Department's use of this form.

- *1405-0187, DS-5507, Affidavit of Physical Presence or Residence, Parentage, and Support*: The form is used to determine whether a U.S. national parent has met the statutory physical presence or residence requirements to transmit U.S. nationality to their child born abroad or in a United States territory for U.S. noncitizen nationality; to establish parentage of the child; and to fulfill the requirements of 8 U.S.C. 1409(a), which permits acknowledgment of paternity under oath and requires the U.S. citizen father's written agreement to provide financial support for a child born abroad out of wedlock to a U.S. citizen father.

The DS-2029, Application for Consular Report of Birth Abroad of a Citizen of the United States of America, has been amended based on changes in Department policy. The Department's new gender policy permits passport applicants to select the gender marker on their passport without presenting medical documentation of gender transition. This policy change includes updating forms to add a third gender marker "X" for applicants identifying as non-binary, intersex, and/or gender non-conforming (in addition to the existing "M" and "F" gender markers).

Both the DS-2029 and the DS-5507 have been amended to replace the term "sex" with "gender" and to be pronoun-inclusive of all genders.

Both forms have been amended to reflect the Department's updated interpretation of Section 301 of the Immigration and Nationality Act (INA). Under the updated interpretation, INA Section 301 applies to children born abroad to parents who are married to each other at the time of the child's birth, when the child has a genetic or gestational connection to at least one of the parents in the marriage, and one of the parents in the marriage is a U.S. citizen. This updated interpretation accommodates modern families and the growing use of Assisted Reproductive Technology (ART) and surrogacy. The Department's previous interpretation of the INA required a child born abroad to a U.S. citizen parent and a foreign national parent to have a genetic or gestational tie to the U.S. citizen parent to acquire U.S. citizenship at birth (if all other statutory transmission requirements are met). The Department had considered births abroad where one of the parents did not have a genetic or gestational tie to the child as "out of wedlock," even if the parents were married, and adjudicated such claims under INA Section 309. The Department will now adjudicate citizenship claims under the "in wedlock" provisions of INA Section 301 when the parents are married at the time of the child's birth and at least one parent has a genetic or gestational tie to the child. Under the updated interpretation, the child may have a genetic or gestational tie to either parent in a legal marriage—if one of those parents is a U.S. citizen and all other statutory transmission requirements have been met—to acquire U.S. citizenship at birth. A child born abroad in this circumstance is now considered to be born "in wedlock" for the purposes of INA Section 301.

Finally, the DS-5507 instructions regarding periods of physical presence or residence in the United States or abroad have been amended to decrease the burden on the public by clarifying that the Department will accept just the Month and Year [or MM-YYYY format] for time frames if exact dates are unknown. However, the instructions also indicate that the individual may be asked to provide exact dates if necessary to determine that statutory transmission requirements have been met.

Methodology

Parents normally submit an application for a Consular Report of Birth Abroad at a U.S. embassy or consulate in the consular district in which the birth occurred. A consular officer will interview the parent(s)/guardian, examine the application and supporting documentation, and enter

the information provided into the Department of State American Citizen Services (ACS) electronic database.

Parent(s) may complete and submit the Affidavit of Physical Presence or Residence, Parentage, and Support in person or by mail. The form may be accessed online, completed electronically, printed, and signed; or it may be downloaded, printed, and filled out manually.

The DS-2029 is also available in an online format (known as "eCRBA"). The eCRBA will allow applicants to enter their data, upload required documents, pay fees, and schedule an appointment to appear at the adjudicating post for an interview.

Additionally, the applicant will be able to check the status of their application. The eCRBA pilot launched in March 2019 at posts located in Toronto, Mexico City, Frankfurt, Paris, Tokyo, and Sydney. The Department continues to work on enhancements with an anticipated phased global rollout in 2023.

Kevin E. Bryant,

Deputy Director, Office of Directives Management, Department of State.
