SUPPLEMENTARY INFORMATION:

Proposed Action: SouthCoast Wind seeks approval to construct, own, operate, and maintain the Project: a wind energy facility and its associated export cables on the Outer Continental Shelf (OCS) offshore Massachusetts. The Project would be developed within the range of design parameters outlined in the SouthCoast Wind COP, subject to applicable mitigation measures.

The Project would be located about 26 nautical miles (nm) (48 kilometers) south of Martha’s Vineyard and 20 nm (37 kilometers) south of Nantucket in the area defined in BOEM’s renewable energy lease OCS–A 0521 (Leased Area). The Leased Area covers approximately 127,388 acres. The Project would comprise up to 149 positions in the Leased Area to be occupied by up to 147 wind turbine generators and up to 5 offshore substation platforms. The 149 positions will conform to a 1 nm x 1 nm grid layout with an east-west and north-south orientation, which lessees agreed will apply across all the Massachusetts and Rhode Island wind energy areas. The Project would include two export cable corridors. One corridor would be used by multiple export cables making landfall and interconnecting to the ISO New England Inc. grid in Falmouth, Massachusetts. The other corridor would be used by multiple export cables making landfall and interconnecting to the ISO New England Inc. grid at Brayton Point in Somerset, Massachusetts.

Alternatives: BOEM considered 17 alternatives when preparing the DEIS and carried forward 6 alternatives for further analysis in the DEIS. These six alternatives include five action

alternatives and the no action alternative. BOEM did not analyze in detail 11 of the alternatives because they did not meet the purpose and need for the proposed action or did not meet screening criteria, which are presented in chapter 2 of the DEIS. The screening criteria included consistency with law and regulations, technical and economic feasibility, environmental impact, and geographic considerations.

Availability of the DEIS: The DEIS, COP, and associated information are available on BOEM’s website at: <https://www.boem.gov/renewable-energy/state-activities/southcoast-wind>. BOEM has distributed digital copies of the DEIS to all parties listed in the DEIS appendix M, which also includes the location of all libraries receiving a copy. If you require a digital copy on a flash drive or paper copy, BOEM will provide one upon request, if supplies are available. You may request a flash drive or paper copy of the DEIS by calling (703) 787–1532.

Cooperating Agencies: The following eight Federal agencies and State governmental entities participated as cooperating agencies in the preparation of the DEIS: Bureau of Safety and Environmental Enforcement; U.S. Environmental Protection Agency; National Marine Fisheries Service; U.S. Army Corps of Engineers; U.S. Coast Guard; Massachusetts Office of Coastal Zone Management; Rhode Island Coastal Resources Management Council; and New York State Department of State.

Information on Submitting Comments: BOEM does not consider anonymous comments. Please include your name and address as part of your comment. BOEM makes your comment, including your name and address, available for public review online and during regular business hours. You may request that BOEM withhold your name, address, or any other personally identifiable information (PII) included in your comment from the public record; however, BOEM cannot guarantee that it will be able to do so. If you wish your name, address, or other PII to be withheld, you must state your request prominently in a cover letter and explain the harm that you fear from its disclosure such as unwarranted privacy invasion, embarrassment, or injury. Even if BOEM withholds your information in the context of this notice, your comment is subject to the Freedom of Information Act (FOIA) and any relevant court orders. If your comment is requested under FOIA or a relevant court order, your information will only be withheld if a determination is made that one of the FOIA’s exemptions to

disclosure applies or if the relevant court order is challenged. Such a determination will be made in accordance with the Department of the Interior’s FOIA regulations and applicable law.

Please label privileged or confidential information as “Contains Confidential Information,” and consider submitting such information as a separate attachment. Information that is not labeled as privileged or confidential may be regarded by BOEM as suitable for public release.

All submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses will be made available for public inspection in their entirety.

Authority: 42 U.S.C. 4231 *et seq.* (NEPA, as amended) and 40 CFR 1506.6.

Karen Baker,

Chief, Office of Renewable Energy Programs, Bureau of Ocean Energy Management.

BILLING CODE 4340–98–P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–684 and 731–TA–1597–1598 (Preliminary)]

Gas Powered Pressure Washers From China and Vietnam

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of gas powered pressure washers from China and Vietnam, provided for in subheading 8424.30.90 and 8424.90.90 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”) and to be subsidized by the government of China.²

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

² 88 FR 4807 and 88 FR4812 (January 25, 2023).

notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission's rules, upon notice from the U.S. Department of Commerce ("Commerce") of affirmative preliminary determinations in the investigations under §§ 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under §§ 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On December 30, 2022, FNA Group, Inc., Pleasant Prairie, Wisconsin filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized imports of gas powered pressure washers from China and LTFV imports of gas powered pressure washers from China and Vietnam. Accordingly, effective December 30, 2022, the Commission instituted countervailing duty investigation No. 701-TA-684 and antidumping duty investigation Nos. 731-TA-1597-1598 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of January 6, 2023 (88 FR 1093). The Commission conducted its conference on January 20, 2023. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on February 13, 2023. The views of the Commission are contained in USITC Publication 5409 (February 2023), entitled *Gas Powered Pressure Washers from China and*

Vietnam: Investigation Nos. 701-TA-684 and 731-TA-1597-1598 (Preliminary).

By order of the Commission.

Issued: February 14, 2023.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-1278]

Certain Radio Frequency Transmission Devices and Components Thereof; Notice of Commission Decision To Review in Part and, on Review, To Affirm a Final Initial Determination Finding No Violation of Section 337; Termination of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to review in part a final initial determination ("FID") of the presiding Chief Administrative Law Judge ("Chief ALJ") finding no violation of section 337 of the Tariff Act of 1930 ("section 337"), as amended, in this investigation. On review, the Commission affirms with modification the FID's finding of no violation of section 337. The investigation is terminated.

FOR FURTHER INFORMATION CONTACT:

Houda Morad, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 708-4716. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: On September 2, 2021, the Commission instituted this investigation under section 337 based on a complaint filed by Zebra Technologies Corporation of Lincolnshire, Illinois ("Complainant"). See 86 FR 49344-45 (Sept. 2, 2021). The complaint, as supplemented, alleges a

violation of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain radio frequency transmission devices and components thereof by reason of infringement of claims 1, 3-8, 10, 11, and 13-16 of U.S. Patent No. 6,895,219 ("the '219 patent") and claims 17-19 of U.S. Patent No. 7,683,788 ("the '788 patent") (collectively, the "Asserted Patents"). See *id.* The notice of investigation names OnAsset Intelligence, Inc. of Irving, Texas ("Respondent") as the respondent in the investigation. See *id.* The Office of Unfair Import Investigations is not a party to the investigation. See *id.*

On May 31, 2022, the Commission partially terminated the investigation as to claims 7, 8, and 16 of the '219 patent based on the withdrawal of the allegations in the complaint as to those claims. See Order No. 20 (May 2, 2022), *unreviewed by Comm'n Notice* (May 31, 2022).

On September 16, 2022, the Chief ALJ issued the FID finding no violation of section 337. Specifically, the FID finds that Complainant failed to establish infringement of the Asserted Patents by the Respondent. The FID also finds that claims 17 and 18 (but not claim 19) of the '788 patent are invalid as anticipated by U.S. Patent No. 7,193,504 ("Carrender I") (RX-132). The FID further finds that the domestic industry requirement is satisfied with respect to the '788 patent. The FID does not reach invalidity and the domestic industry requirement as to the '219 patent.

The FID also includes a Recommended Determination ("RD") recommending, should the Commission find a violation of section 337, that the Commission issue: (1) a limited exclusion order against radio frequency transmission devices and components thereof that are imported into the United States, sold for importation, or sold within the United States after importation by or on behalf of the Respondent; and (2) a cease and desist order against the Respondent. The RD further recommends that the Commission set no bond during the period of Presidential review.

On September 30, 2022, Complainant filed a petition for Commission review of the FID. As to the '788 patent, Complainant requests Commission review with respect to the FID's findings concerning: (1) claim construction; (2) non-infringement; (3) invalidity of claims 17 and 18; and (4) contingently, the domestic industry findings as to one of Complainant's domestic industry products. As to the '219 patent, Complainant does not challenge the
