

waiver will also allow grantees and funding recipients to continue with projects in connection with iron and steel products where Made in America requirements have long been contemplated—providing greater ease of implementation for HUD’s grantees. Without this waiver, HUD will likely lose grantee and funding recipient participation, be exposed to liabilities if HUD forces grantees and funding recipients to modify their current plans to come into compliance, or delay critical activities to protect life, safety and property, and will negatively impact the most vulnerable Americans we seek to serve.

As HUD’s previous Notice advised and as supported by several comments received during the comment period, many of the HUD’s programs may be subject to the BAP and have previously not required compliance with similar Buy American preferences. Because the potential application of BAP mandated by the Act is new to the majority of HUD’s program FFA, this waiver advances BABA by targeting the next phase of implementation to include Choice Neighborhoods (“CN”), a place-based grant program which helps communities develop and implement locally driven comprehensive plans to transform neighborhoods. In Fiscal Year 2023, HUD received \$350 million for CN, which Public Housing Authorities and local jurisdictions apply for competitively. CN provides planning grants, which provide for the development of comprehensive plans, and implementation grants, which allow communities to implement their plans—including for use on infrastructure activities. This allows for efficient phased implementation while reducing the administrative burden to potential grantees and funding recipients where the costs of uncertainties surrounding compliance with BABA could distract from the focus on higher value BABA compliant items. Failure to provide recipients such flexibilities could delay the award for infrastructure projects as grantees and funding recipients must exert considerable effort accounting for the sourcing for miscellaneous, low-cost items. HUD is seeking comment on the further implementation of the BAP but will focus specific attention on the full implementation of the BAP in connection with the use of iron and steel in infrastructure projects in other FFA programs utilizing HUD FFA within this waiver period, except for Tribal FFA, and in connection with the use of specified construction materials in infrastructure projects funded by CDBG formula grant and Recovery

Housing Program funds within this waiver period.

V. Impact of This Waiver on Other FFA

HUD will not require compliance with the BAP in connection with the use of any HUD FFA obligated by HUD before November 14, 2022, or during the pendency of any other applicable BABA waiver issued by HUD, including this waiver, as applicable, after it is finalized. However, where the BAP or other “Buy American” requirements are made applicable to a project of a grantee or funding recipient by another Federal agency, those requirements are not waived by this waiver, nor is the grantee or funding recipient exempt from the application of those requirements in accordance with the requirements of the Federal agency providing such FFA.

VI. Assessment of Cost Advantage of a Foreign-Sourced Product

Under OMB Memorandum M–22–11, “Memorandum for Heads of Executive Departments and Agencies,” published on April 18, 2022, agencies are expected to assess “whether a significant portion of any cost advantage of a foreign-sourced product is the result of the use of dumped steel, iron, or manufactured products or the use of injuriously subsidized steel, iron, or manufactured products” as appropriate before granting a public interest waiver. HUD’s analysis has concluded that this assessment is not applicable to this waiver, as this waiver is not based in the cost of foreign-sourced products. HUD will perform additional market research during the waiver period to better understand the market and to limit the use of waivers caused by dumping of foreign-sourced products.

VII. Solicitation of Comments on the Waiver

As required under section 70914 of the Act, HUD is soliciting comment from the public on the waiver announced in this Notice. In particular, HUD invites comments on its updated implementation schedule and corresponding waiver of application of the BAP in connection with infrastructure projects funded by HUD FFA. HUD also seeks specific comment on how it may best further phase in the application of the BAP: (1) as to other programs for HUD FFA used to purchase iron and steel in addition to specified construction materials; (2) as to construction materials not specified in this Notice; (3) manufactured products for other programs and CDBG formula and Recovery Housing Program grants HUD invites comments on what time period would be appropriate

purposes of achieving these various phases of orderly implementation of the Act.

If issued, the waiver would be applicable to HUD FFA that HUD obligates on or after the effective date of the final waiver and throughout the applicable waiver periods consistent with the implementation schedule as described above. Additionally, for HUD FFA obligated by HUD on or after February 22, 2023, but prior to the effective date of the final waiver described in this Notice, HUD would waive application of BAP for all expenditures incurred by grantees after the effective date of the Final Notice, consistent with the implementation periods described above.

Marcia L. Fudge,
Secretary.

BILLING CODE 4210–67–P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX23MR00G6Z800 OMB Control Number 1028–NEW]

Agency Information Collection Activities; Turtle Distribution Database

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before April 24, 2023.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Margaret Lamont by email at mlamont@usgs.gov or by telephone at 352–209–4306. Individuals who are hearing- or speech-impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR

1320.8(d)(1), all information collections require approval. We may not conduct or sponsor, nor are you required to respond to, a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The order Testudines, which encompasses tortoises and freshwater and marine turtles, is among the most threatened group of vertebrates in the world. However, turtles are frequently observed during everyday activities, such as while walking through a park, driving along a roadway, or kayaking in a river or pond. Local citizen-science projects focused on single species (such as box turtles) have provided valuable demographic

information for turtle populations, but these projects are isolated both spatially and specifically (*i.e.*, focused on one species). This project would use sighting information supplied by citizens to fill gaps in our knowledge of turtle distributions throughout Northern Florida. When a citizen observes a turtle, they would document the species (if possible), location (latitude/longitude collected via cell phone), date, and time, and they would photograph the animal. We would also ask each contributor to provide their initials (not full name) and a way to contact them if questions about the entry arise (*e.g.*, phone number or email address). The sighting information will be mapped and used to develop species-distribution maps.

Title of Collection: Turtle Distribution Database.

OMB Control Number: 1028–NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public: Individuals.

Total Estimated Number of Annual Respondents: 100.

Total Estimated Number of Annual Responses: 100.

Estimated Completion Time per Response: 5 minutes on average.

Total Estimated Number of Annual Burden Hours: 8 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501 *et seq.*).

Margaret M. Lamont,

Research Biologist, USGS Wetland and Aquatic Research Center, U.S. Geological Survey.
