FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 23–111; FR ID 127148]

Radio Broadcasting Services; Various Locations

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document amends the FM Table of Allotments, of the Commission’s rules, by reinstating certain channels as a vacant FM allotment in various communities. The FM allotments were previously removed from the FM Table because a construction permit and/or license was granted. These FM allotments are now considered vacant because of the cancellation of the associated FM authorizations or the dismissal of long-form auction FM applications. A staff

engineering analysis confirms that all of the vacant FM allotments complies with the Commission’s minimum distance separation and city-grade coverage requirements. The window period for filing applications for these vacant FM allotments will not be opened at this time. Instead, the issue of opening these allotments for filing will be addressed by the Commission in subsequent order.

DATES: Effective February 27, 2023.
FOR FURTHER INFORMATION CONTACT: Rolanda F. Smith, Media Bureau, (202) 418–2700.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission’s *Order*, adopted February 8, 2023 and released February 9, 2023. The full text of this Commission decision is available online at <https://apps.fcc.gov/ecfs/>. This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104–13. The Commission will not send a copy of the *Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A), because these allotments were previously reported.

Fisheries of the Exclusive Economic Zone Off Alaska; Amendment 124 to the BSAI FMP for Groundfish and Amendment 112 to the GOA FMP for Groundfish To Revise IFQ Program Regulations

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues a final rule to implement Amendment 124 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (BSAI FMP) and Amendment 112 to the Fishery Management Plan for Groundfish of the Gulf of Alaska (GOA FMP). First, this final rule amends regulations for the Individual Fishing Quota (IFQ) and Community Development Quota (CDQ) Programs for pot gear configurations, pot gear tending and retrieval requirements, pot limits, and associated recordkeeping and reporting requirements. These changes increase operational efficiency and flexibility for IFQ holders and CDQ groups. Second, this final rule authorizes jig gear as a legal gear type for harvesting sablefish IFQ and CDQ, increasing opportunities for entry-level participants. Third, this final rule temporarily removes the Adak community quota entity (CQE) residency requirement for a period of five years. These actions are intended to promote the goals and objectives of the Northern Pacific Halibut Act of 1982 (Halibut Act), the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the BSAI FMP, GOA FMP, and other applicable laws.

DATES: Effective February 27, 2023.

ADDRESSES: Electronic copies of the Environmental Assessment and the Regulatory Impact Review (herein referred to as the “Analysis”) prepared for this final rule are available from www.regulations.gov or from the NMFS Alaska Region website at <https://www.fisheries.noaa.gov/region/alaska>.

SUPPLEMENTARY INFORMATION:

Background

The North Pacific Fishery Management Council (Council) recommended Amendment 124 to the BSAI FMP and Amendment 112 to the GOA FMP to authorize the use of jig gear in the sablefish IFQ and CDQ programs. Amendment 124 would also remove the residency requirements for CQE. The Council also recommended changes to Federal regulations to increase operational efficiency and flexibility for IFQ holders and CDQ groups. Fishery Management Plan amendments and regulations developed by the Council may be implemented by NMFS only after approval by the Secretary of Commerce. Similarly, halibut fishery regulations developed by the Council may only be implemented by NMFS after approval of the Secretary of Commerce. NMFS published a Notice of Availability for Amendment 124 to the BSAI FMP and Amendment 112 to the GOA FMP in the **Federal Register** on (87 FR 66125, November 2, 2022) with comments invited through January 3, 2023. NMFS published a proposed rule to implement Amendment 124 to the BSAI FMP and Amendment 112 to the GOA FMP (87 FR 71559, November 23, 2022) with comments invited through December 23, 2022.

This final rule implements provisions that affect IFQ halibut and IFQ sablefish in the GOA and IFQ and CDQ halibut and sablefish in the BSAI. The IFQ and CDQ fisheries are prosecuted in accordance with discrete catch limits and managed in separate geographic areas of harvest. Sablefish IFQ regulatory areas are defined and shown in Figure 14 to 50 CFR part 679 and section 1.3 of the Analysis. Halibut IFQ areas are consistent with International Pacific Halibut Commission (IPHC) regulatory areas and are defined and shown in Figure 15 to 50 CFR part 679 and section 1.3 of the Analysis. This final rule applies within sablefish IFQ areas in the GOA, specifically the Southeast Outside (SEO) District of the GOA, West Yakutat (WY) District of the GOA, Central GOA (CGOA), and Western GOA (WGOA).
