DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2017-0084]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated December 28, 2022, Norfolk Southern Corporation (NS) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 214 (Railroad Workplace Safety). The relevant FRA Docket Number is FRA-2017-0084.

Specifically, NS requests to extend its relief from § 214.336(c), *On-track safety procedures for certain roadway work groups and adjacent tracks*, as it pertains to procedures for adjacent controlled track movements at 25 miles per hour (mph) or less.

NS indicates this request is specific to a unique working group, the R-3 Dual Rail Gang (R-3 Gang), and the relief would only apply to this group. This group is a system-level production gang comprised of 78 employees and 40 roadway maintenance machines with the capability to remove both rails while simultaneously installing both new rails. NS seeks relief from the requirement of using the gauge position of the rail as the point for the plane that is not to be broken on the occupied track. Instead, NS seeks to use the removed rails of the occupied track as an envelope for on-ground work performed exclusively between these rails for the employees working in the R-3 Gang. NS asserts the R-3 Gang's work can be performed safely. Additionally, NS seeks relief from the requirement that on-ground work be performed exclusively between the rails
