Abstract: The Migratory Bird Treaty Act (16 U.S.C. 703-712) designates the Department of the Interior as the primary agency responsible for managing migratory bird populations frequenting the United States and setting hunting regulations that allow for the well-being of migratory bird populations. These responsibilities dictate that we gather accurate data on various characteristics of migratory bird populations.

The North American Woodcock Singing Ground Survey is an essential part of the migratory bird management program. Federal, State, Provincial, Tribal, and local conservation agencies conduct the survey annually to provide the data necessary to determine the population status of the American woodcock. In addition, the information is vital in assessing the relative changes in the geographic distribution of the species. We use the information primarily to develop recommendations for hunting regulations. Without information on the population's status, we might promulgate hunting regulations that:

- Are not sufficiently restrictive, which could cause harm to the woodcock population, or
- Are too restrictive, which would unduly restrict recreational opportunities afforded by woodcock hunting.

State, local, Tribal, Provincial, and Federal conservation agencies, as well as other participants, use Form 3-156 to conduct annual field surveys. Instructions for completing the survey and reporting data are on the reverse of the form. Observers can scan/email, scan/upload via link, mail, or fax Form 3-156 to the Division of Migratory Bird Management, or enter the information electronically through the internet, <https://migbirdapps.fws.gov/woodcock>.

We collect observer information (name, telephone, email address, and mailing address) so that we can contact the observer if questions or concerns arise. Observers provide information on:

- Sky condition, temperature, wind, and precipitation.
- Stop number.
- Odometer reading.
- Time at each stop.

- Number of American Woodcock males heard peenting (calling).
- Disturbance level.
- Comments concerning the survey.

We use the information that we collect to analyze the survey data and prepare reports. Assessment of the population's status serves to guide the Service, the States, and the Canadian Government in the annual promulgation of hunting regulations.

The public may request a copy of Form 3-156 contained in this information collection by sending a request to the Service Information Collection Clearance Officer (see **ADDRESSES**).
