

—Adoption of Agenda

9:45 a.m.–10:15 a.m.

—OEAP Chairperson's Report

—Updates:

—Meetings and Webinars Attended:

NOAA Caribbean, MREP, EBFM
NOAA webinar, Descending
devices outreach webinar, CFMC
Meeting

—Calendar 2024

—Recipe Book

—Illustrated Booklet on Climate
Change and U.S. Caribbean
Fisheries

—MREP update

—DAP Workshop in St. Thomas/St.
John, U.S.V.I. on IBFMP

10:15 a.m.–10:20 a.m.

—Short Break

10:20 a.m.–11 a.m.

—Update on Status of the Fishery
Ecosystem Plan (FEP)—Liajay
Rivera—Outreach Materials on MPAs in
Puerto Rico—Vilmarie Román—UPR Sea Grant Activities on
Consumption of Underutilized
Species—Jannette Ramos

11 a.m.–12 p.m.

—Update of the Island-Based Fishery
Management Plans

—Fact Sheets on IBFMP

12 p.m.–1 p.m.

—Lunch

1 p.m.–5 p.m.

—OEAP Recommendation of Outreach
Strategies on IBFMPs for Puerto
Rico, St. Thomas/St. John, and St.
Croix, U.S.V.I.

—Liaisons Recommendations

—Liaisons Reports:

—Wilson Santiago—Puerto Rico

—Nicole Greaux/St. Thomas, U.S.V.I.

—Mavel Maldonado/St. Croix,
U.S.V.I.—CFMC Facebook, Instagram and
YouTube Communications with
Stakeholders

—Other Business

The order of business may be adjusted as necessary to accommodate the completion of agenda items. The meeting will begin on March 22, 2023, at 9:30 a.m., and will end on March 22, 2023, at 5 p.m. AST. Other than the start time, interested parties should be aware that discussions may start earlier or later than indicated, at the discretion of the Chair. In addition, the meeting may be completed prior to the date established in this notice.

Special Accommodations

For any additional information on this public virtual meeting, please contact

Diana Martino, Caribbean Fishery
Management Council, 270 Muñoz
Rivera Avenue, Suite 401, San Juan,
Puerto Rico, 00918–1903, telephone:
(787) 226–8849.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 23, 2023.

Rey Israel Marquez,

*Acting Deputy Director, Office of Sustainable
Fisheries, National Marine Fisheries Service.*

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric
Administration**

[RTID 0648–XC797]

**Taking and Importing Marine
Mammals; Taking Marine Mammals
Incidental to Fisheries Research**

AGENCY: National Marine Fisheries
Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA),
Commerce.

ACTION: Notice; receipt of application for
Letter of Authorization; request for
comments and information.

SUMMARY: NMFS' Office of Protected
Resources (OPR) has received a request
from the NMFS Northwest Fisheries
Science Center (NWFSC) for
authorization to take small numbers of
marine mammals incidental to
conducting fisheries research, over the
course of 5 years from the date of
issuance. Pursuant to regulations
implementing the Marine Mammal
Protection Act (MMPA), OPR is
announcing receipt of the NWFSC's
request for the development and
implementation of regulations
governing the incidental taking of
marine mammals. OPR invites the
public to provide information,
suggestions, and comments on the
NWFSC's application and request.

DATES: Comments and information must
be received no later than March 30,
2023.

ADDRESSES: Comments on the
applications should be addressed to
Jolie Harrison, Chief, Permits and
Conservation Division, Office of
Protected Resources, National Marine
Fisheries Service. Physical comments
should be sent to 1315 East-West
Highway, Silver Spring, MD 20910 and
electronic comments should be sent to
ITP.Laws@noaa.gov.

Instructions: OPR is not responsible
for comments sent by any other method,
to any other address or individual, or
received after the end of the comment

period. Comments received
electronically, including all
attachments, must not exceed a 25-
megabyte file size. All comments
received are a part of the public record
and will generally be posted online at
[www.fisheries.noaa.gov/national/
marine-mammal-protection/incidental-
take-authorizations-research-and-other-
activities](http://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-research-and-other-activities) without change. All personal
identifying information (e.g., name,
address) voluntarily submitted by the
commenter may be publicly accessible.
Do not submit confidential business
information or otherwise sensitive or
protected information.

FOR FURTHER INFORMATION CONTACT: Ben
Laws, Office of Protected Resources,
NMFS, (301) 427–8401. Electronic
copies of the application and supporting
documents, as well as a list of the
references cited in this document, may
be obtained online at:

[www.fisheries.noaa.gov/national/
marine-mammal-protection/incidental-
take-authorizations-research-and-other-
activities](http://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-research-and-other-activities). In case of problems accessing
these documents, please call the contact
listed above.

SUPPLEMENTARY INFORMATION:**Background**

The MMPA prohibits the “take” of
marine mammals, with certain
exceptions. Sections 101(a)(5)(A) and
(D) of the MMPA (16 U.S.C. 1361 *et
seq.*) direct the Secretary of Commerce
(as delegated to NMFS) to allow, upon
request, the incidental, but not
intentional, taking of small numbers of
marine mammals by U.S. citizens who
engage in a specified activity (other than
commercial fishing) within a specified
geographical region if certain findings
are made and either regulations are
issued or, if the taking is limited to
harassment, a notice of a proposed
incidental take authorization may be
provided to the public for review.

Authorization for incidental takings
shall be granted if NMFS finds that the
taking will have a negligible impact on
the species or stock(s) and will not have
an unmitigable adverse impact on the
availability of the species or stock(s) for
taking for subsistence uses (where
relevant). Further, NMFS must prescribe
the permissible methods of taking and
other “means of effecting the least
practicable adverse impact” on the
affected species or stocks and their
habitat, paying particular attention to
rookeries, mating grounds, and areas of
similar significance, and on the
availability of the species or stocks for
taking for certain subsistence uses
(referred to in shorthand as
“mitigation”); and requirements

pertaining to the mitigation, monitoring and reporting of the takings are set forth.

Summary of Request

On August 3, 2022, we received an application from NWFSC requesting authorization for take of marine mammals incidental to fisheries research conducted by NWFSC. The requested regulations would be valid for 5 years, from August 29, 2023, through August 28, 2028. The NWFSC plans to continue fisheries and ecosystem research in three defined research areas including the California Current Research Area, the Puget Sound Research Area, and the Lower Columbia River Research Area, defined as the estuarine and tidally influenced waters of the lower Columbia River below the Bonneville Dam. It is possible that marine mammals may interact with fishing gear (e.g., trawl nets, longlines) used in NWFSC's research, resulting in injury, serious injury, or mortality. Because the specified activities have the potential to take marine mammals present within these action areas, NWFSC requests authorization to take multiple species of marine mammal that may occur in these areas.

The requested regulations would be the second incidental take regulations issued to NWFSC, following regulations in place from 2018–2023. NWFSC has complied with all requirements of the previously issued Letters of Authorization and has not exceeded the authorized take numbers. Monitoring reports submitted by NWFSC are available online at: <https://www.fisheries.noaa.gov/action/incidental-take-authorization-noaa-fisheries-nwfs-fisheries-and-ecosystem-research>.

Specified Activities

The Federal Government has a responsibility to conserve and protect living marine resources in U.S. Federal waters and has also entered into a number of international agreements and treaties related to the management of living marine resources in international waters outside the United States. NOAA has the primary responsibility for managing marine finfish and shellfish species and their habitats, with that responsibility delegated within NOAA to NMFS.

In order to direct and coordinate the collection of scientific information needed to make informed management decisions, Congress created six Regional Fisheries Science Centers, each a distinct organizational entity and the scientific focal point within NMFS for region-based Federal fisheries-related research. This research is aimed at

monitoring fish stock recruitment, abundance, survival and biological rates, geographic distribution of species and stocks, ecosystem process changes, and marine ecological research. The NWFSC is the research arm of NMFS in the Northwest Region. The NWFSC conducts research and provides scientific advice to manage fisheries and conserve protected species in three aforementioned geographic research areas. The NWFSC provides scientific information to support the Pacific Fishery Management Council and numerous other domestic and international fisheries management organizations.

The NWFSC collects a wide array of information necessary to evaluate the status of exploited fishery resources and the marine environment. NWFSC scientists conduct fishery-independent research onboard NOAA-owned and operated vessels or on chartered vessels. A few surveys are conducted onboard commercial fishing vessels, but the NWFSC designs and executes the studies and funds vessel time. The gear types used fall into several categories: pelagic trawl gear used at various levels in the water column, pelagic longlines with multiple hooks, seine nets, and other gear. Of research gear used by NWFSC, only pelagic trawl, hook and line gear (including longline gears), and seine nets are likely to interact with marine mammals.

Information Sought

Interested persons may submit information, suggestions, and comments concerning the NWFSC's request (see **ADDRESSES**). NMFS will consider all information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental taking of marine mammals by the NWFSC, if appropriate.

Dated: February 23, 2023.

Kimberly Damon-Randall,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510–22–P

COMMODITY FUTURES TRADING COMMISSION

Request for Nominations for the Global Market Structure Subcommittee, Digital Asset Markets Subcommittee, and Technical Issues Subcommittee Under the Global Markets Advisory Committee

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice.

SUMMARY: The Commodity Futures Trading Commission (CFTC or Commission) is requesting nominations for membership on the Global Market Structure Subcommittee, the Digital Asset Markets Subcommittee, and/or the Technical Issues Subcommittee (together, Subcommittees) under the Global Markets Advisory Committee (GMAC). The GMAC is a discretionary advisory committee established by the Commission in accordance with the Federal Advisory Committee Act.

DATES: The deadline for the submission of nominations is March 14, 2023.

ADDRESSES: Nominations should be emailed to GMAC_Submissions@cftc.gov or sent by hand delivery or courier to Gates S. Hurand, GMAC Designated Federal Officer and Chief Counsel to Commissioner Caroline D. Pham, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street NW, Washington, DC 20581. Please use the title “GMAC Global Market Structure Subcommittee,” “GMAC Digital Asset Markets Subcommittee,” and/or “the GMAC Technical Issues Subcommittee,” as appropriate, for any nominations you submit.

FOR FURTHER INFORMATION CONTACT: Gates S. Hurand, GMAC Designated Federal Officer and Chief Counsel to Commissioner Caroline D. Pham at (202) 418–5000 or email: GMAC_submissions@cftc.gov.

SUPPLEMENTARY INFORMATION: The purpose of the proposed Subcommittees would be to provide report(s) and/or recommendations to the GMAC that will identify and examine key issues that affect the integrity and competitiveness of U.S. markets and U.S. firms engaged in global business, including the regulatory challenges of a global marketplace that reflects the increasing interconnectedness of markets and the multinational nature of business, including for derivatives markets; and to assess and inform international standards through engagement with international policymakers and authorities in other jurisdictions, with a focus on global market structure, digital asset markets, and technical issues, respectively. The GMAC, in turn, would consider and discuss the report(s) and/or recommendations of each Subcommittee. Topics and issues the Subcommittees may consider include, but are not limited to, the following:

- *Global Market Structure Subcommittee.* Identifying and assessing key issues and policy proposals with an impact on global
