Administration for Community Living

Intent To Award a Single-Source Supplement for the Expanding the National Capacity for Person-Centered, Trauma-Informed (PCTI) Care: Services and Supports for Holocaust Survivors and Other Older Adults With a History of Trauma and Their Family Caregivers Program

ACTION: Notice.

SUMMARY: The Administration for Community Living (ACL) announces the intent to award a single-source supplement to the current cooperative agreement held by the Jewish Federations of North America for the project *Expanding the National Capacity for Person-Centered, Trauma-Informed (PCTI) Care: Services and Supports for Holocaust Survivors and Other Older Adults with a History of Trauma and Their Family Caregivers* program. The purpose of this program is to advance the development and expansion of PCTI supportive services for Holocaust survivors living in the U.S. Additionally, the project is advancing the capacity of the broader aging services network to deliver services of this type to any older adult with a history of trauma and their family caregivers.

FOR FURTHER INFORMATION CONTACT: For further information or comments regarding this program supplement, contact Greg Link, U.S. Department of Health and Human Services, Administration for Community Living, Administration on Aging, Office of

Supportive and Caregiver Services: telephone (202) 795-7386; email greg.link@acl.hhs.gov.

SUPPLEMENTARY INFORMATION: The overall goals of the program are as follows:

1. Increase the number and type of innovations in PCTI care for Holocaust survivors, older adults with a history of trauma, and their family caregivers, and
2. Expand the capacity of the Aging Network to provide PCTI care to the populations it serves.

The administrative supplement for FY 2023 will be in the amount of \$3,454,500, bringing the total award for FY 2023 to \$8,389,500. The supplement will provide sufficient resources to enable the grantee and their partners, JFNA, to accomplish the following:

- Continue to address the significant needs of Holocaust survivors living in the United States and other older adults with histories of trauma and their family caregivers by:
 - Further expanding Innovations Program, deepening its focus on existing programs to make them more PCTI, and expand the program to additional communities;
 - Expanding the Critical Supports Initiative to federation agencies and aging services providers together to identify and address the most critical needs and allocate additional resources accordingly to those needs. This component of the program allows each participating community to determine how to best allocate the resources available to meet the needs and form new partnerships to prevent emergencies; and
 - Growing the National Networks program to scale PCTI approaches to multiple locations/cities.

- For all of these programs, the supplement will increase outreach, evaluation, technical assistance, and sub-grantee monitoring and financial oversight activities.
 - Expanding Technical Assistance and Capacity Building to establish the infrastructure and framework to realize Congress' intent for the establishment and operation of a national resource center to provide training and technical assistance to agencies in the aging network delivering services to older individuals experiencing the long-term and adverse consequences of trauma, as described in Section 411(14) of the Older Americans Act of 1965, as amended. Doing so will enable JFNA to expand the reach and effectiveness of this project by broadening the technical assistance and capacity building activities in the following ways:
 - Growth and partnerships are essential for PCTI approaches to take

root. The supplement will be used to increase the ways in which this can be accomplished, including re-launching an Aging and Trauma Workgroup and an Educational Advisory Committee, ensuring the voices of Holocaust survivors, other older adults with histories of trauma and their family caregivers are represented; enabling the grantee to develop and implement an action plan to work with foundations.

- Thought leadership in the field of PCTI care is greatly needed for it to take root as standard practice in the aging services network. The supplement will: (1) permit the expansion of the grantee's PCTI training program; (2) provide the resources necessary to fund the development of a family caregiving roadmap to support PCTI approaches to implementing the National Strategy to Support Family Caregivers; and (3) further develop and expand the field and practice of PCTI evaluation approaches and practices already begun under this project, but on a limited basis.

- Sustainability and efficiency are key to any demonstration project. The supplement will enable JFNA to explore technology enhancements to streamline the sub-grant management process, bring on additional staff to manage expanded expectations and work, including growth, and enhance program oversight, monitoring, evaluation, and additional activities proportional to the increased funding and expectations resulting from this supplement.

Program Name: Expanding the National Capacity for Person-Centered, Trauma-Informed (PCTI) Care: Services and Supports for Holocaust Survivors and Other Older Adults with a History of Trauma and Their Family Caregivers.

Recipient: The Jewish Federations of North America.

Period of Performance: The supplement award will be issued for the third year of the five-year project period of September 1, 2020 through August 31, 2025.

Total Award Amount: \$8,389,500 in FY 2023.

Award Type: Cooperative Agreement Supplement.

Statutory Authority: The Older Americans Act (OAA) of 1965, as amended, Public Law 109-365—Title 4, Section 411.

Basis for Award: The Jewish Federations of North America (JFNA) is currently funded to carry out the objectives of the project entitled *Expanding the National Capacity for Person-Centered, Trauma-Informed (PCTI) Care: Services and Supports for Holocaust Survivors and Other Older Adults with a History of Trauma and*
