Obligation to Respond: Voluntary.

Summary: S&T's mission is to deliver effective and innovative insight, methods, and solutions for the critical needs of the Homeland Security Enterprise. As the research and development (R&D) arm of the Department of Homeland Security (DHS), the Science and Technology Directorate (S&T) focuses on providing the tools, technologies, and knowledge products the nation's Homeland Security Enterprise needs today and tomorrow. S&T constantly works to bridge industry and end-user communities around the nation. S&T's R&D focus areas cover DHS's core mission areas and use our network of industry, national laboratory and other partners seek solutions for capability gaps and define topics for future research. In order to work continuously to ensure that our programs are effective and meet our customers' needs, S&T seeks to obtain Office of Management and Budget approval of a generic clearance to collect qualitative feedback on our service delivery. By qualitative feedback, we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This collection of information is necessary to enable the S&T programs to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with our commitment to improving tools, technologies, services and knowledge products. The information collected from our customers and stakeholders will help ensure that users have an effective, efficient, and satisfying experience with our programs. This

feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations, provide an early warning of issues with products or service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between S&T and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector.

There is no cost to participants other than their time.

J. Jeffrey Robinson,

Deputy Chief Information Officer, Science and Technology Directorate, Department of Homeland Security.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; In-Season Subsistence Salmon Fishery Catch and Effort Survey

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service (Service), are proposing to renew an information collection without change.

DATES: Interested persons are invited to submit comments on or before April 5, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function. Please provide a copy of your comments to the Service Information Collection Clearance

Officer, U.S. Fish and Wildlife Service, MS: PRB (JAO/3W), 5275 Leesburg Pike, Falls Church, VA 22041–3803 (mail); or by email to Info_Coll@fws.gov. Please reference “1018–0173” in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT:

Madonna L. Baucum, Service Information Collection Clearance Officer, by email at Info_Coll@fws.gov, or by telephone at (703) 358–2503. You may review the ICR online at <http://www.reginfo.gov>. Follow the instructions to review Department of the Interior collections under review by OMB. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act (PRA, 44 U.S.C. 3501 *et seq.*) and its implementing regulations at 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

On June 22, 2022, we published in the **Federal Register** (87 FR 37355) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on August 22, 2022. In an effort to increase public awareness of, and participation in, our public commenting processes associated with information collection requests, the Service also published the **Federal Register** notice on [Regulations.gov](https://www.regulations.gov) (Docket No. FWS–R7–NWRS–2022–0078) to provide the public with an additional method to submit comments (in addition to the typical Info_Coll@fws.gov email and U.S. mail submission methods). We received one comment in response to that notice which did not address the information collection requirements. No response to that comment is required.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our

information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The administration and uses of national wildlife refuges and wetland management districts are governed by the National Wildlife Refuge System Administration Act of 1966 (Administration Act; 16 U.S.C. 668dd–668ee), as amended by the National Wildlife Refuge System Improvement Act of 1997; the Refuge Recreation Act of 1962 (Recreation Act; 16 U.S.C. 460k–460k–4); and the Alaska National Interest Lands Conservation Act (ANILCA; 16 U.S.C. 3101 *et seq.*). ANILCA provides specific authorization and guidance for the administration and management of national wildlife refuges within the State of Alaska.

Renewal of OMB's approval authorizes the Yukon Delta National Wildlife Refuge (YDNWR) to participate in the design and implementation of subsistence fisher surveys operated by the Orutsararmiut Traditional Native Council and the Kuskokwim River Inter-Tribal Fisheries Commission (KRITFC). Participation in the surveys informs in-

season fisheries management decision-making in the Kuskokwim River subsistence salmon fishery.

The information collected by the survey includes the times individuals left and returned from boat launches, several characteristics of their fishing gear, broad classification of where the fishing activity occurred, for how long they actively fished, and how many of each of three salmon species they harvested. When coupled with aerial boat counts performed by the YDNWR, these data can be used to obtain quantitative estimates of total fishing activity and salmon harvest occurring from short-duration subsistence harvest opportunities. The estimates are then used to inform the management strategy used jointly by the YDNWR and the KRITFC.

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Reviews of Two Northeastern Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year reviews under the Endangered Species Act, as amended, for two northeastern species. A 5-year review is based on the best scientific and commercial data available at the time of the review. We are requesting submission of any such information that has become available since the previous 5-year review for each species.

DATES: To ensure consideration, please submit your written information by April 5, 2023. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For instructions on how and where to submit information, see Request for New Information and Table 2—Contacts under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

General Information: Martin Miller, by telephone at 413–253–8615, via email at martin_miller@fws.gov, or via U.S. mail at U.S. Fish and Wildlife Service, 300 Westgate Center Drive, Hadley, MA 01035.

Species-Specific Information and Submission of Comments: Contact the appropriate person or office listed in Table 2—Contacts in **SUPPLEMENTARY INFORMATION**.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), are initiating 5-year reviews under the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*), for two northeastern species: the endangered Virginia big-eared bat (*Corynorhinus* (= *Plecotus*) *townsendii virginianus*) and Furbish's lousewort (*Pedicularis furbishiae*).
