[Docket No. 230301–0058]

RIN 0694–AJ06

Additions and Revisions of Entities to the Entity List

AGENCY: Bureau of Industry and Security, Department of Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Industry and Security is amending the Export Administration Regulations (EAR) by adding 37 entities under 38 entries to the Entity List. These entities are listed under the destinations of Belarus (1), Burma (3), the People’s Republic of China (China) (28), Pakistan (4), Russia (1), and Taiwan (1). Some entities are added under multiple entries, accounting for the difference in the totals. This final rule also modifies 10 existing entries on the Entity List under the destination of China.

DATES: This rule is effective March 2, 2023.

FOR FURTHER INFORMATION CONTACT: Chair, End-User Review Committee, Office of the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of

Commerce, Phone: (202) 482–5991, Email: ERC@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

The Entity List (supplement no. 4 to part 744 of the EAR (15 CFR parts 730–774)) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States, pursuant to § 744.11(b). The EAR impose additional license requirements on, and limit the availability of, most license exceptions for exports, reexports, and transfers (in-country) where a listed entity is a party to the transaction. The license review policy for each listed entity is identified in the “License Review Policy” column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** document that added the entity to the Entity List. The Bureau of Industry and Security (BIS) places entities on the Entity List pursuant to part 744 (Control Policy: End-User and End-Use Based) and part 746 (Embargoes and Other Special Controls) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and makes all decisions to remove or modify an entry by unanimous vote.

Additions to the Entity List

In this final rule, the ERC determined to add AIF Global Logistics Co., Ltd., Aispeed Industry Ltd., Artronix International (HK) Ltd., Galaxy Electronics, Jotrin Electronics Ltd., Korchina Logistics (HK) Ltd., Suzhou Centec Communications Co., Ltd. and Suzhou Centec Technology Co., Ltd to the Entity List, all under the destination of China, for engaging in activities contrary to the national security and foreign policy interests of the United States under § 744.11 of the EAR. Specifically, AIF Global Logistics Co., Ltd., Aispeed Industry Ltd., Artronix International (HK) Ltd., Galaxy Electronics, Jotrin Electronics Ltd., and Korchina Logistics (HK) Ltd., are being added as these companies have supplied and/or attempted to supply

items subject to the EAR to Iran’s Paradazan System Namad Arman (PASNA), an entity listed by the U.S. Department of Treasury’s Office of Foreign Assets Control (OFAC) as a Specially Designated National (SDN). Suzhou Centec Communications Co., Ltd. and Suzhou Centec Technology Co., Ltd., are added for their support of China’s military modernization. These actions include acquiring or attempting to acquire U.S.-origin items in support of programs for the People’s Liberation Army and providing goods and services to customers on the BIS Entity List, leading to the possibility for diversion. Suzhou Centec Technology Co., Ltd. also participates in and hosts military and military-civil fusion exhibitions and summits, and specifically advertises military end uses for its products. These eight entities are added with a license requirement for all items subject to the EAR. License applications will be reviewed under a presumption of denial.

The ERC determined to add Baoding Giant Import and Export Co., Ltd., Baoding Shimaotong Enterprises Services Co., Ltd., Gaobeidian Kaituo Precise Instrument Co., Ltd., and Luo Dingwen, under the destination of China, to the Entity List. These additions are made due to their contributions to ballistic missile programs of concern. The ERC determined to add Rayscience Optoelectronics Innovation Company Ltd., under the destination of China, based on its contributions to Pakistan’s ballistic missile program. These five entities are added with a license requirement for all items subject to the EAR. License applications will be reviewed pursuant to § 744.3(d) of the EAR.

The ERC determined to add Beijing Zhengyuan Chuangshi Consulting Co., Ltd., Hongtai Electric Ltd., Nanjing Colpak Mechanical Equipment Co., Ltd., Liang Ping Huang and Sunton Tech Hong Kong Ltd. to the Entity List, all under the destination of China; Nanjing Jiuding Refrigeration & Air-conditioning Equipment Co., Ltd., under the destinations of China and Pakistan; and Abdul Razaq Asim, Add-On Technology, and Dynamic Engineers under the destination of Pakistan, to the Entity List. These additions are based on the entities’ involvement in unsafeguarded nuclear activities and missile-related activities. These eight entities require a license for all items subject to the EAR. License applications will be reviewed pursuant to §§ 744.2(d) and 744.3(d) of the EAR.

The ERC determined to add BGI Research; BGI Tech Solutions

(Hongkong) Co., Ltd.; and Forensic Genomics International, to the Entity List, under the destination of China, pursuant to § 744.11 of the EAR. The addition of these entities is based upon information that indicates their collection and analysis of genetic data poses a significant risk of contributing to monitoring and surveillance by the government of China, which has been utilized in the repression of ethnic minorities in China. Information also indicates that the actions of these entities concerning the collection and analysis of genetic data present a significant risk of diversion to China's military programs. These entities are added with a license requirement for all items subject to the EAR. License applications for these entities will be subject to a case-by-case review for ECCNs 1A004.c, 1A004.d, 1A995, 1A999.a, 1D003, 2A983, 2D983, and 2E983, and for EAR99 items described in the Note to ECCN 1A995; case-by-case review for items necessary to detect, identify and treat infectious disease; and presumption of denial for all other items subject to the EAR.

The ERC determined to add FISCA Security & Communication Co., Ltd., Ministry of Transport and Communications, and Naung Yoe Technologies Co., Ltd. to the Entity List, under the destination of Burma. These additions are for activities contrary to U.S. foreign policy interests under § 744.11 of the EAR. These entities are added for providing surveillance equipment and services to Burma's military regime, enabling it to carry out human rights abuses through the tracking and identification of target individuals and groups. The military regime has unjustly arrested leaders of the democratically elected government and committed serious human rights abuses and other abuses against individuals in Burma, including violently suppressing peaceful protests. These entities have enabled these abuses by providing support to Burma's military regime. These entities are added to the Entity List with a license requirement for all items subject to the EAR. License applications for these entities will be reviewed on a case-by-case basis for telecommunications infrastructure items described in Category 5 Part 1 or Category 5 Part 2 and consumer communications devices identified in Part § 740.19; as well as a presumption of denial for all other items subject to the EAR.

The ERC determined to add DMT Trading LLC, under the destination of Belarus, DMT Electronics, under the destination of Russia, and Neotec Semiconductor Ltd., under the

destination of Taiwan, to the Entity List. These additions are based on information indicating that these companies significantly contribute to Russia's military and/or defense industrial base, contrary to U.S. national security and foreign policy interests under § 744.11 of the EAR. These entities will receive a footnote 3 designation. A footnote 3 designation indicates that they are Russian or Belarusian 'military end users' in accordance with § 744.21. A footnote 3 designation subjects these entities to the Russia/Belarus-Military End User Foreign Direct Product' (FDP) rule, detailed in § 734.9(g). These entities are added with a license requirement for all items subject to the EAR. License applications will be reviewed under policy of denial for all items subject to the EAR other than food and medicine designated as EAR99, which will be reviewed on a case-by-case basis.

The ERC determined to add 4Paradigm Technology Co.; Inspur Group Co., Ltd.; Loongson Technology; National Research Center for Parallel Computer Engineering and Technology; Qingdao National Laboratory of Marine Science and Technology; Wuxi Institute of Advanced Technology; to the Entity List for acquiring and attempting to acquire U.S.-origin items in support of the China's military modernization efforts. This activity is contrary to U.S. national security and foreign policy interests under § 744.11 of the EAR. All of these entities will require a license for items subject to the EAR, which will be reviewed under a presumption of denial. They are also given a footnote 4 designation, which means that "items subject to the EAR" for the purpose of these license requirements include foreign-produced items that are subject to the EAR pursuant to § 734.9(e)(2) of the EAR.

For the reasons described above, this final rule adds the following 37 entities under 38 entries to the Entity List and includes, where appropriate, aliases:

Modifications to the Entity List

This final rule implements the decision of the ERC to modify the entries of ten existing entities on the Entity List, all under the destination of China. Nine aliases and nine addresses are added to Beijing Institute of Technology. The license review policy of Beijing University of Aeronautics and Astronautics (BUAA) is modified from the policy set forth in § 744.3(d) to a presumption of denial; this modification is based on their contributions to China's military modernization efforts; ten aliases and eight addresses are added to the entry as well. Two aliases and two addresses are added to the

entry for Beijing University of Posts and Telecommunications (BUPT). Two aliases are added to the entry for Harbin Engineering University. Nine aliases and nine addresses are added to the entry for Harbin Institute of Technology. Five aliases and six addresses are added to the entry for Nanjing University of Aeronautics and Astronautics. Five aliases and five addresses are added to the entry for Nanjing University of Science and Technology. Seven aliases and nine addresses are added to the entry for Northwestern Polytechnical University. Five aliases and four addresses are added to the entry for Sichuan University. Thirteen aliases and thirteen addresses are added to the entry for Tianjin University.

Savings Clause

For the changes being made in this final rule, shipments of items removed from eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export, reexport, or transfer (in-country), on March 2, 2023, pursuant to actual orders for export, reexport, or transfer (in-country) to or within a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR).

Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS's principal authorities and serves as the authority under which BIS issues this rule.

Rulemaking Requirements

1. This rule has been determined to be not significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to or be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by OMB under control number 0694–0088, Simplified Network Application Processing System, which

includes, among other things, license applications and commodity classifications, and carries a burden estimate of 29.4 minutes for a manual or electronic submission for a total burden estimate of 33,133 hours. Total burden hours associated with the PRA and OMB control number 0694–0088 are not expected to increase as a result of this rule.

3. This rule does not contain policies with federalism implications as that term is defined in Executive Order 13132.

4. Pursuant to section 1762 of the Export Control Reform Act of 2018, this action is exempt from the Administrative Procedure Act (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, are not applicable. Accordingly, no regulatory flexibility analysis is required and none has been prepared.

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1220

[Docket No. CPSC-2019-0025]

Safety Standard for Non-Full-Size Baby Cribs

AGENCY: Consumer Product Safety Commission.
ACTION: Direct final rule.

SUMMARY: In December 2010, the U.S. Consumer Product Safety Commission (CPSC or Commission) published a consumer product safety standard for non-full-size baby cribs (NFS cribs) pursuant to section 104 of the Consumer Product Safety Improvement Act of 2008 (CPSIA). The Commission’s mandatory standard incorporated by reference the ASTM voluntary standard that was in effect for NFS cribs at the time, with modifications to make the standard more stringent, to further reduce the risk of injury associated with NFS cribs, and to exclude sections of the ASTM voluntary standard inapplicable to NFS cribs. The CPSIA sets forth a process for updating mandatory standards for durable infant or toddler products that are based on a voluntary standard, when a voluntary

standards organization revises the standard. In November 2022, ASTM published a revised voluntary standard for NFS cribs, and it notified the Commission of this revised standard in December 2022. This direct final rule updates the mandatory standard for NFS cribs to incorporate by reference ASTM’s 2022 version of the voluntary standard for NFS cribs.
DATES: The rule is effective on June 3, 2023, unless the Commission receives a significant adverse comment by April 5, 2023. If the Commission receives such a comment, it will publish a document in the **Federal Register**, withdrawing this direct final rule before its effective date. The incorporation by reference of the publication listed in this rule is approved by the Director of the Federal Register as of June 3, 2023.
