Certain Cold-Drawn Mechanical Tubing of Carbon and Alloy Steel From India: Preliminary Results of Countervailing Duty Administrative Review; 2021

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily finds that countervailable subsidies are being provided to producers and exporters of certain cold-drawn mechanical tubing of carbon and alloy steel (cold-drawn mechanical tubing) from India during the period of review, January 1, 2021, through December 31, 2021. Interested parties are invited to comment on these preliminary results.

DATES: Applicable March 7, 2023.

FOR FURTHER INFORMATION CONTACT: Eliza DeLong or Eric Hawkins, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3878 or (202) 482-1988, respectively.

SUPPLEMENTARY INFORMATION:

Background

On February 1, 2018, Commerce published the countervailing duty order on cold-drawn mechanical tubing from India.¹ On February 8, 2022, Commerce published a notice of initiation of an administrative review of the *Order*.² On October 6, 2022, Commerce extended the time period for issuing these preliminary results by 120 days, in accordance with section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), to no later than February 28, 2023.³

For a complete description of the events that followed the initiation of this review, see the Preliminary Decision Memorandum.⁴ A list of topics

discussed in the Preliminary Decision Memorandum is included as the appendix to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Scope of the Order

The merchandise covered by the *Order* is cold-drawn mechanical tubing from India. For a complete description of the scope of the *Order*, see the Preliminary Decision Memorandum.

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(A) of the Act. For each of the subsidy programs found countervailable, we preliminarily find that there is a subsidy, *i.e.*, a financial contribution that gives rise to a benefit to the recipient, and the subsidy is specific.⁵ For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum.

Companies Not Selected for Individual Review

The Act and Commerce's regulations do not directly address the subsidy rate to be applied to companies not selected for individual examination where Commerce limits its examination in an administrative review pursuant to section 777A(e)(2) of the Act. However, Commerce normally determines the rates for non-selected companies in reviews in a manner that is consistent with section 705(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation. Section 777A(e)(2) of the Act provides that "the individual countervailable subsidy rates determined under subparagraph (A) shall be used to determine the all-others rate under section 705(c)(5) {of the Act}." Section 705(c)(5)(A) of the Act states that for companies not investigated, in general, we will determine an all-others rate by

Mechanical Tubing of Carbon and Alloy Steel from India; 2021," dated concurrently with, and hereby adopted by, this notice (Preliminary Decision Memorandum).

⁵ See sections 771(5)(B) and (D) of the Act regarding financial contribution; section 771(5)(E) of the Act regarding benefit; and section 771(5A) of the Act regarding specificity.

weight-averaging the countervailable subsidy rates established for each of the companies individually investigated, excluding zero and *de minimis* rates or any rates based solely on the facts available.

Accordingly, to determine the rate for companies not selected for individual examination, Commerce’s practice is to weight average the net subsidy rates for the selected mandatory respondents, excluding rates that are zero, *de minimis*, or based entirely on facts available.⁶ We preliminarily determine that Goodluck India Limited (Goodluck) and Tube Investments of India Ltd. (TII) received countervailable subsidies that are above *de minimis* and are not based entirely on facts available. Therefore, we preliminarily determine to apply the weighted average of the net subsidy rates calculated for Goodluck and TII using publicly ranged sales data submitted by those respondents to the non-selected companies.⁷ The companies for which a review was requested, and which were not selected as mandatory respondents or found to be cross-owned with a mandatory respondent, are Lal Baba Seamless Tubes Pvt. Ltd. and Metamorphosis Engitech India Pvt. Ltd.

Preliminary Results of Review

For the period January 1, 2021, through December 31, 2021, we preliminarily find that the following net subsidy rates exist:

Company	Subsidy rate (percent <i>ad valorem</i>)
Goodluck India Limited ⁸	3.53
Tube Investments of India Ltd ⁹	3.97
Review-Specific Average Rate Applicable to the Following	
Lal Baba Seamless Tubes Pvt. Ltd	3.79
Metamorphosis Engitech India Pvt. Ltd	3.79

on all appropriate entries in accordance with the final results of this review. If the assessment rate calculated in the final results is zero or *de minimis*, we will instruct CBP to liquidate all appropriate entries without regard to countervailing duties.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. SUPPLEMENTARY INFORMATION:

Authority: 15 U.S.C. 1512 and the Federal Advisory Committee Act, 5 U.S.C. 1001 *et seq.*

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. 1001 *et seq.*, notice is hereby given that the NIST Safety Commission will meet on March

9, 2023, from 8:30 a.m. to 5 p.m. Mountain Time and March 10, 2023, from 8:30 a.m. to 5 p.m. Mountain Time. The meeting will be open to the public. Members of the Commission are appointed by the Director of NIST. The Commission is composed of not more than seven members who are qualified to provide advice to the NIST Director on matters relating to safety policies; safety management system, practices, and performance; and safety culture. The primary purpose of this meeting is for the Commission to continue its assessment of the state of NIST's safety culture and how effectively the existing safety protocols and policies have been implemented across NIST. The agenda may change to accommodate Commission business. The final agenda will be posted on the NIST website at <https://www.nist.gov/director/nist-safety-commission/march-9-10-nist-safety-commission-meeting-agenda>.

Individuals and representatives of organizations who would like to offer comments and suggestions related to the Commission's business are invited to request a place on the agenda. Approximately 15 minutes will be reserved for public comments and speaking times will be assigned on a first come, first-serve basis. The amount of time per speaker will be determined by the number of requests received but is likely to be about three minutes each. Questions from the public will not be considered during this period. Requests must be submitted by email to Corrine Lloyd at corrine.lloyd@nist.gov and must be received by 4 p.m. Eastern Time, March 7, 2023 to be considered. Speakers who wish to expand upon their oral statements, those who had wished to speak but could not be accommodated on the agenda, and those who were unable to participate are invited to submit written statements by email to corrine.lloyd@nist.gov.

All NIST staff and public participants will be attending via webinar and must register at: <https://events.nist.gov/profile/form/index.cfm?PKformID=0x18963abcd> by 4:00 p.m. Eastern Time, March 7, 2023 for detailed instructions on how to join the webinar. Any questions regarding registration may be directed to Corrine Lloyd at corrine.lloyd@nist.gov.

Pursuant to 41 CFR 102-3.150(b), the **Federal Register** notice for this meeting is being published fewer than 15 calendar days prior to the meeting as exceptional circumstances exist. It is imperative that the meeting be held on March 9-10, 2023, to accommodate the tight working timeline of the Commission as set forth in its charter. Specifically, the charter requires the

Commission to provide an oral briefing of its preliminary findings to the NIST Director within 75 days of beginning its activities, and written findings within 150 days of beginning its activities. The Commission intends to present its preliminary findings to NIST leadership at this meeting. Postponing this meeting would result in an unacceptable delay in the Commission's ability to report the findings and observations from the work of the Commission's three subcommittees, collect additional information from NIST staff at the Boulder campus, and to develop its final recommendations for NIST leadership, until well into the fall. The **Federal Register** notice could not be published previously due to logistical requirements needed to accommodate the timing requirement of the meeting, including unanticipated additional time required for completion of the work of the Commission's three subcommittees that will be reporting out at the meeting, and unanticipated additional time required to confirm availability of a representative of a third-party contractor to present on the results of the 2023 NIST Safety Culture Survey it conducted.
