

statement or environmental assessment need be prepared in connection with the granting of this exemption request.

IV. Conclusion

Accordingly, the NRC has determined that, pursuant to 10 CFR 54.15 and 10 CFR 50.12, the requested exemption is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security. Also, special circumstances, as defined in 10 CFR 50.12(a)(2), are present. Therefore, the NRC hereby grants the licensee a one-time exemption for Diablo Canyon Power Plant, Units 1 and 2, from 10 CFR 2.109(b) to allow PG&E to submit a license renewal application for the Diablo Canyon Power Plant, Units 1 and 2, less than 5 years prior to expiration of the operating licenses, but no later than December 31, 2023.

The decision to issue PG&E an exemption from 10 CFR 2.109(b) does not constitute approval of the license renewal application PG&E intends to submit by December 31, 2023. Rather, this exemption provides that if PG&E submits an application by December 31, 2023, and the application is sufficient for docketing, the licensee will receive timely renewal protection under 10 CFR 2.109(b) while the NRC evaluates that application. Should the application be docketed, the NRC will provide an opportunity for the public to seek a hearing and review the application using its normal license renewal review processes and standards to determine whether the application meets all applicable regulatory requirements.

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 2nd day of March 2023.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2022-0170, in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Requests to Federally Recognized Indian Tribes for Information.
2. *OMB approval number:* 3150–0245.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* Not applicable.
5. *How often the collection is required or requested:* On occasion.
6. *Who will be required or asked to respond:* Federally recognized Indian Tribes.
7. *The estimated number of annual responses:* 32.
8. *The estimated number of annual respondents:* 637.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 5,120 (15,360 hours over the course of the three-year clearance period (32 responses per request × 20 requests per year × 8 hours per response × 3 years = 15,360 hours).

10. *Abstract:* NRC actions and NRC regulated activities may affect Indian Tribes and their current or ancestral Tribal lands. On January 9, 2017, the NRC published a Tribal Policy Statement (82 FR 2402). In its Tribal Policy Statement, the NRC indicated that it recognizes the Federal Trust Relationship with Indian Tribes and will uphold its Trust Responsibility to Indian Tribes. In its policy statement, the NRC stated that it recognizes and is committed to a government-to-government relationship with Indian Tribes. The NRC also indicated that it would engage in timely consultations with Indian Tribes. The NRC is requesting OMB approval of a plan for a generic collection of information. The need and practicality of the collection can be evaluated, but the details of the specific individual collections will not be known until a later time. The information collected will include voluntary requests for information that would allow the NRC to more effectively involve Indian Tribes in the NRC's regulatory activities and to enable the NRC to plan the NRC's Tribal outreach and consultation activities.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to

properly perform its functions? Does the information have practical utility? Please explain your answer.

2. Is the estimate of the burden of the information collection accurate? Please explain your answer.

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: March 2, 2023.

For the Nuclear Regulatory Commission.

POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service®.

ACTION: Notice of modified systems of records.

SUMMARY: The United States Postal Service® (USPS) is proposing to revise one Customer Privacy Act System of Records (SOR). These modifications are being made to support an initiative that is intended to enhance the USPS shippers' customer experience and individual privacy protection when filing an online International inquiry. The USPS International Assistant (IA) initiative will improve the efficiency of the identity verification process by streamlining name and address verification as described below.

DATES: These revisions will become effective without further notice on April 7, 2023, unless in response to comments received on or before that date result in a contrary determination.

ADDRESSES: Comments may be submitted via email to the Privacy and Records Management Office, United States Postal Service Headquarters (uspsprivacyfedregnotice@usps.gov). To facilitate public inspection, arrangements to view copies of written comments received may be made upon request.

FOR FURTHER INFORMATION CONTACT: Janine Castorina, Chief Privacy and Records Management Officer, Privacy and Records Management Office, via (uspsprivacyfedregnotice@usps.gov or 202–268–2000).

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy

Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records. The Postal Service has determined that Customer Privacy Act System of Records, USPS SOR 810.100, www.usps.com Registration, should be revised to support the USPS International Assistant (IA) initiative. The Postal Service continuously seeks to improve service and the customer experience and is therefore proposing to simplify the process for filing an international inquiry online by using the IA tool. The IA initiative is intended to improve the efficiency of the identity verification process by streamlining name and address verification when submitting International Inquiries on usps.com. The USPS International Assistant (IA) promotes individual privacy protection by leveraging usps.com Customer Registration account profile information to improve the identity verification of the individual submitting the international inquiry.

I. Background

International customer care involves a two-step process to submit an International inquiry for lost or damaged packages. Investigation of a package that a customer shipped from the United States (U.S.) to an International destination begins with an individual customer inquiry. Once the inquiry is filed and the USPS agent investigates the lost or damaged package request, the inquiry is determined to be either closed or to proceed as a Claim.

The IA online International inquiry tool initially facilitates the filing of an inquiry by using the package tracking number to pull product, service, scanning, and shipment data from internal USPS databases. The USPS requires this data for each export shipment to meet compliance regulations and to investigate the status of a customer's International inquiry. The individual that is filing the inquiry will be required to login to their usps.com Customer Registration account to proceed. IA then begins the process to verify that the customer filing the inquiry is the sender of the package, or if the individual filing the inquiry is the Sender's Representative.

Enhanced International Assistant (IA) Online Inquiry Process Description

For the Sender: If the sender's name and address on the package matches the name and address in the Customer Registration profile of the individual customer filing the international inquiry, the IA system will allow the
