Regulatory Evaluation

This regulation involves a foreign affairs function of the United States and therefore, Executive Order 12866 does not apply and evaluation under the Department of Transportation’s Regulatory Policies and Procedures is not required.

Regulatory Flexibility Act Determination

I certify this regulation will not have a significant economic impact on a substantial number of small entities. The St. Lawrence Seaway Tariff of Tolls primarily relate to commercial users of the Seaway, the vast majority of whom are foreign vessel operators. Therefore, any resulting costs will be borne mostly by foreign vessels.

Environmental Impact

This regulation does not require an environmental impact statement under

the National Environmental Policy Act (49 U.S.C. 4321, *et seq.*) because it is not a major federal action significantly affecting the quality of the human environment.

Federalism

The Corporation has analyzed this rule under the principles and criteria in Executive Order 13132, dated August 4, 1999, and has determined that this proposal does not have sufficient federalism implications to warrant a Federalism Assessment.

Unfunded Mandates

The Corporation has analyzed this rule under Title II of the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4, 109 Stat. 48) and determined that it does not impose unfunded mandates on State, local, and tribal governments and the private sector requiring a written statement of economic and regulatory alternatives.

Paperwork Reduction Act

This regulation has been analyzed under the Paperwork Reduction Act of 1995 and does not contain new or modified information collection requirements subject to the Office of Management and Budget review.

The revisions read as follows:

§ 402.3 Interpretation.

Commodity means cargo that has been defined as a commodity in the Manager’s commodity codes.

Containerized cargo means cargo shipping in a container. Containers are used to transport freight in multiple modes: vessel, rail, and truck. There are many configurations: Dry, insulated or thermal, refrigerated or reefer, flat racks and platforms, open top and tank.

Typical dimensions: 8 feet in width, 8 feet 6 inches or 9 feet 6 inches in height and 20 feet or 40 feet in length. Less common lengths include, for example, 24, 28, 44, 45, 46, 48, 53, and 56 feet.

(ii) Destined to a point inside Canada or the United States of America or a country outside Canada or the United States of America, provided that such commodity has not been destined to such point or country, as the case may be, at any time in any of the five consecutive navigation seasons immediately preceding the then current navigation season;

(iii) Originating at a point inside Canada or the United States of America or a country outside Canada or the United States of America and destined to a point inside Canada or the United States of America or a country outside Canada or the United States of America, provided that such Commodity was previously moved by any mode of transportation other than by vessel at all times in the five consecutive navigation seasons immediately preceding the then current navigation season; or

(iv) That has not moved through either section of the Seaway in any of the five consecutive navigation seasons immediately preceding the then current

navigation season, in a volume exceeding 10,000 metric tons.

Volume commitment means the negotiated annual cargo tonnage, with a minimum of 75,000 metric tons per year, a shipper/receiver must reach for the negotiated toll reduction under the Gateway Incentive to become applicable.

■ 3. Amend § 402.4 by revising paragraph (b) to read as follows:

§ 402.4 Tolls.

* * * * *

(c) The shipper/receiver, or its representative, will qualify annually for the negotiated toll reduction upon completion of the annual volume commitment.

* * * * *

(e) The shipper/receiver, or its representative, will provide the Manager with a request for the Gateway Incentive refund, together with copies of any documents required to support the request, within sixty (60) days of the close of the navigation season. Requests for refunds should be submitted to the Manager who will be responsible for reviewing all documents and data and recommending the refund under the Gateway Incentive.

(f) The negotiated Gateway Incentive percentage of tolls reduction paid in respect of qualifying cargo shipped will be refunded by the Manager after the close of the navigation season, once the Manager has confirmed through the review of submitted support documents that the shipper/receiver has met the volume commitment. The Manager reserves the right to require the ultimate origin and destination of cargoes to validate the commitment.

(g) The Manager reserves the right to immediately terminate any Gateway Incentive agreement.
