

The applicant proposes to import parts from up to 20 individual Amazon river dolphins annually. The parts would be collected by researchers working under separate Bolivian authorizations during rescue and relocation efforts. These parts will be analyzed as part of health assessments for infectious disease and exposure to contaminants. The permit would be valid for 5 years from the date of issuance.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: March 8, 2023.

Amy Sloan,

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
