Notice of Availability of the Record of Decision for the Whitewater River Groundwater Replenishment Facility, Riverside County, CA

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) has prepared the Record of Decision (ROD) for the Whitewater River Groundwater Replenishment Facility located in the Palm Springs-South Coast Field Office.

The ROD constitutes the decision of the BLM.

DATES: The Palm Springs-South Coast Field Manager signed the ROD on March 14, 2023. Issuance of the ROD initiates a 30-day appeal period ending April 17, 2023.

ADDRESSES: The ROD is available via the internet at <https://go.usa.gov/x6KsM>. Copies of the Whitewater River Groundwater Replenishment Facility ROD are available at the Palm Springs South Coast Field Office at 1201 Bird Center Drive, Palm Springs, CA 92262. Appeals must be submitted to this address, in accordance with the regulations contained in 43 CFR part 4.

FOR FURTHER INFORMATION CONTACT:

Brandon G. Anderson, Assistant District Manager, telephone: (760) 422-9120; email: bganderson@blm.gov; address Bureau of Land Management, 1201 Bird Center Drive, Palm Springs, CA 92262. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The Coachella Valley Water District (CVWD) applied for a right-of-way (ROW) grant from the BLM for its existing groundwater replenishment facility in North Palm Springs that is partially located on public lands managed by the BLM. The BLM issued the Final Environmental Impact Statement on August 12, 2022. After careful consideration of the environmental impacts, the BLM selects Alternative 1: Proposed Action (Selected Alternative). Consistent with 43 CFR 2801.10, this decision remains in effect pending appeal. The Selected Alternative would issue CVWD a ROW grant for existing water control berms, intake structures, conveyance structures, and 19 infiltration ponds over approximately 690 acres of BLM-managed public lands. The facility also includes 1,480 acres of lands held by CVWD. The Selected Alternative increases water recharge volumes to 511,000-acre feet per year of water, which represents the full annual capacity of the facility.

This decision may be appealed to the Interior Board of Land Appeals (IBLA), Office of the Secretary, in accordance with the regulations contained in 43 CFR part 4. If an appeal is filed, your notice of appeal must be filed as noted in the **ADDRESSES** section within 30 days from receipt of this decision. The

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 23-020]

Name of Information Collection: NASA Website Customer Satisfaction Survey

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of new information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: Comments are due by May 15, 2023.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 60 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 60-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Bill Edwards-Bodmer, NASA Clearance Officer, NASA

Headquarters, 300 E Street SW, JF0000, Washington, DC 20546, 757-864-3292, or b.edwards-bodmer@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract: This collection of information supports the National Aeronautics and Space Act of 1958, as amended, specifically to improve how NASA disseminates information about its programs to "widest extent practicable." NASA offers a small percentage of its web visitors a chance to take a survey that asks for the feedback on the site's design, navigation and other elements. NASA has used this data to inform ongoing improvements to the site, including major redesigns in 2003, 2007, 2013 and 2015. The data has then been used to track visitors' assessments of how successful each redesign was. Without this data, NASA wouldn't have known how to focus its improvement efforts or how successful they had been.

II. Methods of Collection: NASA has purchased the services of Verint, now the provider of the survey, which NASA has used for 20 years. Verint's product offers 0.1 percent of all visitors the opportunity to take the survey. Users may decline to take the survey entirely or to answer specific questions. If they accept, they are asked approximately 30 questions about the site's design, navigation, performance and other aspects. Once the survey is submitted, it is collated and analyzed. Verint provides NASA with an aggregated view of the data as well as individual responses to some questions. The user is never asked for identifying information, though some general demographic data is requested (education level, age range, self-identified audience segment, e.g., "general public"). Users can decline to take the survey by closing the computer window in which it is offered.

is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.
