

credit is not available to the borrower from commercial credit sources for borrowers to maintain eligibility for assistance. Information collections established in the regulation are necessary for FSA to monitor and account for loan security, including proceeds derived from the sale of security, and to process a borrower's request for subordination, partial release of security, or consent. Borrowers are required to provide financial information to determine graduation eligibility based on commercial lender standards provided to FSA.

To better serve borrowers' regular and routine servicing requests, FSA is retiring form FSA-2060 "Application for Partial Release, Subordination (Real or Personal), or Consent". The form FSA-2061 "Application for Partial Release or Consent," and form FSA-2062 "Application for Subordination of Security for Commercial Credit" are new forms; both new forms captured the information previously requested on the FSA-2001 and FSA-2060 that will replace the FSA-2060 and eliminating the need for FSA-2001 for regular and routine servicing requests.

FSA is requesting OMB approval for the new two forms. The burden hours estimate has been increased by 177 hours while the estimated annual responses have increased by 88. The increase in burden is not attributed to additional completion time related to either new form but instead is an overall estimated increase in total future usage of the forms based on the number of borrowers who utilize the FSA-2060 to request servicing actions over the past five years.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hours is the estimated average time per responses multiplied by the estimated total annual of responses.

Estimate of Annual Burden: Public reporting burden for this collection of information is estimated to average 0.309 hours per response.

Type of Respondents: Individuals, associations, partnerships, or corporations.

Estimated Number of Respondents: 94,768.

Estimated Annual Number of Responses per Respondent: 1.0462.

Estimated Total Annual of Responses: 99,147.

Estimated Average Time per Responses: 0.309 hours.

Estimated Total Annual Burden on Respondents: 30,638 hours.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.
