SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through March 31, 2023. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on December 15, 2021 during a 60-day comment period (86 FR 71265). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Disinfectants/Disinfection Byproducts, Chemical, and Radionuclides Rules ICR examines public water system and primacy agency burden and costs for recordkeeping and reporting requirements in support of the microbial drinking water regulations. These recordkeeping and reporting requirements are mandatory for compliance with 40 CFR parts 141 and 142. The following regulations are included: the Stage 1 Disinfectants and Disinfection Byproducts Rule (Stage 1 DBPR), the Stage 2 Disinfectants and Disinfection Byproducts Rule (Stage 2 DBPR), the Chemical Phase Rules (Phases II/IIB/V), the Radionuclides Rule, Disinfectant Residual Monitoring and Associated Activities under the Surface Water Treatment Rule (SWTR),¹ the Arsenic Rule and the Lead and Copper Rule (LCR), including the Lead and Copper Rule Short Term Revisions. Future chemical-related rulemakings will be added to this consolidated ICR after the regulations are promulgated

¹ Includes only SWTR components relating to disinfectant residual monitoring and associated activities. All remaining SWTR requirements are included in the Microbial Rules ICR.

and the initial, rule-specific, ICRs are due to expire.

Form numbers: None.

Respondents/affected entities: Public water systems and primacy agencies.

Respondent's obligation to respond: Mandatory for compliance with 40 CFR parts 141 and 142.

Estimated number of respondents: 144,197 (total).

Frequency of response: Varies by requirement (*i.e.*, on occasion, monthly, quarterly, semi-annually, and annually).

Total estimated burden: 5,652,398 hours (per year). Burden is defined as 5 CFR 1320.03(b).

Total estimated cost: \$593,972,000 (per year), which includes \$319,880,000 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 491,043 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to increases in burden from the previous ICR for LCR sampling, analysis and report writing from industry consultation.

Courtney Kerwin,

Director, Regulatory Support Division.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Public Water System Supervision Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an Information Collection Request (ICR) for the Public Water System Supervision Program (EPA ICR Number 0270.48, OMB Control Number 2040-0090) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). This is a proposed extension of the ICR, which is currently approved through March 31, 2023. Public comments were previously requested via the **Federal Register** on December 15, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before April 24, 2023.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OW-2011-0443, EPA online using www.regulations.gov (our preferred method), by email to OW-Docket@epa.gov or by mail to EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through March 31, 2023. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on December 15, 2021 (86 FR 71265) during a 60-day comment period. This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Public Water System Supervision (PWSS) Program ICR examines public water systems, primacy agencies (*i.e.*, states and tribes with primary enforcement authority) and tribal operator certification provider burden, and costs for “cross-cutting” recordkeeping and reporting requirements (*i.e.*, the burden and costs for complying with drinking water information requirements that are not associated with contaminant-specific rulemakings). The following activities have recordkeeping and reporting requirements that are mandatory for compliance with the *Code of Federal Regulations* (CFR) at 40 CFR parts 141 and 142: the Consumer Confidence Report Rule (CCR), the Variance and Exemption Rule (V/E Rule), General State Primacy Activities, the Public Notification Rule (PN), and Proficiency Testing Studies for Drinking Water Laboratories. The information collection activities for both the Operator Certification and the Capacity Development Program are driven by the grant withholding and reporting provisions under sections 1419 and 1420, respectively, of the Safe Drinking Water Act. The information collection for the Tribal Operator Certification Program is driven by grant eligibility requirements outlined in the Drinking Water Infrastructure Grant Tribal Set-Aside Program Final Guidelines and the Tribal Drinking Water Operator Certification Program Guidelines.

Form numbers: None.

Respondents/affected entities: New and existing public water systems and primacy agencies.

Respondent's obligation to respond: Mandatory for compliance with 40 CFR parts 141 and 142.

Estimated number of respondents: 146,099 (total).

Frequency of response: Varies by requirement (*i.e.*, on occasion, monthly, quarterly, semi-annually and annually).

Total estimated burden: 3,421,278 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$208,214,000 (per year), includes \$37,756,000 in operation and maintenance costs.

Changes in the estimates: There is a decrease of 222,093 hours in the total estimated annual respondent burden compared with the ICR currently approved by OMB. This decrease is a result of updating relevant baseline information for each rule with the most current and accurate information available (*e.g.*, public water system inventory); and updating burden to incorporate the results of consultation with stakeholders. Where appropriate and available, estimated violation and

other associated rates have also been updated to reflect current information on rule compliance.

Courtney Kerwin,

Director, Regulatory Support Division.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Prepared Feeds Manufacturing were promulgated on January 5, 2010; and amended on both July 20, 2010, and December 23, 2011. These regulations apply to existing facilities and new facilities where animal feed (other than feed products for dogs and cats) makes up at least half (by mass) of the facility's annual production of all products. These regulations apply to new and existing area source prepared feeds manufacturing facilities that use one or more materials (additives/premixes) that contain 0.1 percent or greater by weight of chromium (Cr) or 1.0 percent or greater by weight of manganese (Mn). New facilities include those that commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart DDDDDDD.

Form numbers: None.

Respondents/affected entities: Prepared feeds manufacturing facilities
