Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Housing Vacancy Survey (HVS)

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 16, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: Housing Vacancy Survey.

OMB Control Number: 0607-0179.

Form Number(s): None.

Type of Request: Regular submission, Request for an Extension, without Change, of a Currently Approved Collection.

Number of Respondents: 72,000.

Average Hours per Response: 0.05.

Burden Hours: 3,600.

Needs and Uses: Collection of the HVS in conjunction with the Current Population Survey began in 1956 and serves a broad array of data users. The HVS provides the only quarterly statistics on rental vacancy rates and homeownership rates for the United States, the four census regions, the 50 states and the District of Columbia, and the 75 largest metropolitan statistical areas (MSAs). Private and public sector organizations use these rates extensively to gauge and analyze the housing market with regard to supply, cost, and affordability at various points in time.

Policy analysts, program managers, budget analysts, and congressional staff use these data to advise the executive and legislative branches of government with respect to the number and characteristics of units available for occupancy and the suitability of housing initiatives. These data are a component of consumer expenditure statistics. They also are used to project mortgage demand and to measure the adequacy of the supply of rental and homeowner units. In addition, investment firms use the HVS data to analyze market trends and for economic forecasting.

Affected Public: Individuals who have knowledge of the vacant sample unit (landlords, rental agents, neighbors).

Frequency: Monthly.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 182; and Title 29, United States Code, Section 2.
