AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of rate order concerning electric power service formula rate.

SUMMARY: The formula rate for the Colorado River Storage Project (CRSP) Management Center's (MC) Olmsted Powerplant Replacement Project (Olmsted Project) has been confirmed, approved, and placed into effect on an interim basis (Provisional Formula Rate). DATES: The provisional formula rate under Rate Schedule Olmsted F-2 is effective on the first day of the first full billing period beginning on or after May 1, 2023, and will remain in effect through April 30, 2028, pending confirmation and approval by the Federal Energy Regulatory Commission (FERC) on a final basis or until superseded.
