BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 22-151; RM-11927; DA 23-229; FR ID 133158]

Television Broadcasting Services Hampton, Virginia

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On April 13, 2022, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking (NPRM)* in response to a petition for rulemaking filed by WVEC Television, LLC (Petitioner), the licensee of WVEC (Station or WVEC), channel 11, Hampton, Virginia, requesting the substitution of channel 35 for channel 11 at Hampton in the Table of TV Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends Federal Communications Commission (FCC) regulations to substitute channel 35 for channel 11 at Hampton.

DATES: Effective March 27, 2023.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418-1647 or Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 87 FR 23154 on April 19, 2022. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 35. No other comments were filed.

The Bureau believes the public interest would be served by substituting channel 35 for channel 11 at Hampton, Virginia. The Petitioner states that the Commission has recognized that VHF channels have certain characteristics that pose challenges for their use in providing digital television service, including propagation characteristics that allow undesired signals and noise to be receivable at relatively far distances. According to the Petitioner, it has received many complaints from viewers unable to receive a reliable signal on channel 11, despite being able to receive the NBC, CBS, and FOX

network affiliates in the Norfolk, Virginia, market, all of which operate on UHF channels. The proposed channel change would not cause any loss of service to viewers of WVEC’s existing coverage area. The proposed channel 35 facility causes 1.38 percent interference to WFMY-TV, Greensboro, North Carolina, in excess of the amount allowed in the Commission’s rules. That station is also owned by the Petitioner and it provides an Interference Acceptance Consent letter from the station agreeing to accept the interference from the proposed channel 35 facility as Exhibit C to the Rulemaking Petition. In addition, the proposed facility was predicted to cause prohibited interference to WYSJ-CD, Yorktown, Virginia. An application for minor modification to co-locate WYSJ-CD with WVEC’s proposed channel 35 facility (LMS File No. 0000188559), eliminating the adjacent-channel interference, was granted simultaneously with the issuance of the Order. See *NPRM* at para. 3, n.7.

This is a synopsis of the Commission’s *Report and Order*, MB Docket No. 22-151; RM-11927; DA 23-229, adopted March 16, 2023, and released March 16, 2023. Television Broadcasting Services Lufkin, Texas

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On December 9, 2022, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking (NPRM)* in response to a petition for rulemaking filed by Gray Television Licensee, LLC (Petitioner or Gray), the licensee of KTRE (Station or KTRE), channel 9, Lufkin, Texas, requesting the substitution of channel 24 for channel 9 at Lufkin in the Table of TV Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends Federal Communications Commission (FCC) regulations to substitute channel 24 for channel 9 at Lufkin.

DATES: Effective March 27, 2023.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418-1647 or Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 88 FR 1038 on January 6, 2023. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 24. No other comments were filed.

The Bureau believes the public interest would be served by substituting channel 24 for channel 9 at Lufkin, Texas. The proposed channel substitution will resolve significant over-the-air reception problems in KTRE's existing service area, reception issues which the Commission has recognized results from the propagation characteristics of digital VHF signals and the deleterious effects manmade noise has on the reception of digital VHF signals. Furthermore, the existing KTRE tower has significantly deteriorated and cannot be reasonably repaired, and thus the Petitioner proposes to relocate the proposed KTRE facility on channel 24 to an adjacent, shorter tower. Although that facility would result in a slight reduction in KTRE's predicted population served, once terrain-limited coverage predications and coverage of same-network (ABC) alternative stations are taken into account, only 448 persons will lose ABC network service, a number which the Commission considers *de minimis*.

This is a synopsis of the Commission's *Report and Order*, MB Docket No. 22–436; RM–11941; DA 23–175, adopted March 3, 2023, and released March 3, 2023. Provisions of the Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, do not apply to this proceeding.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On December 9, 2022, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking (NPRM)* in response to a petition for rulemaking filed by Gray Television Licensee, LLC (Petitioner or Gray), the licensee of KOSA–TV (Station or KOSA–TV), channel 7, Odessa, Texas, requesting the substitution of channel 31 for channel 7 at Odessa in the Table of TV Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends Federal

Communications Commission (FCC) regulations to substitute channel 31 for channel 7 at Odessa.

DATES: Effective March 27, 2023.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418–1647 or Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 88 FR 42 on January 3, 2023. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 31. No other comments were filed.

The Bureau believes the public interest would be served by substituting channel 31 for channel 7 at Odessa, Texas. The proposed channel substitution will resolve significant over-the-air reception problems in KOSA–TV's existing service area. The Petitioner further states that the Commission has recognized the deleterious effects manmade noise has on the reception of digital VHF signals, and that the propagation characteristics of these channels allow undesired signals and noise to be receivable at relatively farther distances compared to UHF channels and nearby electrical devices can cause interference.

According to the Petitioner, although the proposed channel 31 facility would result in a slight reduction in the predicted population served, once terrain-limited coverage predications are taken into account, the proposed channel 31 facility will result in a loss of service to 36 people, a number which the Commission considers *de minimis*. This is a synopsis of the Commission's *Report and Order*, MB Docket No. 22–435; RM–11940; DA 23–158, adopted March 1, 2023, and released March 1, 2023.
