

agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

Title of Collection: "Project Planning for the Use of Outer Continental Shelf Sand, Gravel, and Shell Resources in Construction Projects that Qualify for Negotiated Noncompetitive Agreement."

Abstract: Under the authority delegated by the Secretary of the Interior, BOEM is authorized, pursuant to section 8(k)(2) of the Outer Continental Shelf (OCS) Lands Act (43 U.S.C. 1337(k)(2)), to convey rights to OCS sand, gravel, and shell resources by negotiated noncompetitive agreement (NNA). These resources are used in shore protection and beach and coastal restoration projects, or in construction projects funded in whole or part by, or authorized by, the Federal Government.

This ICR does not change the 2020 OMB approved information collection.

From January 1, 2020, through February 8, 2023, BOEM issued eight NNAs and two amendments to existing NNAs. For BOEM to continue to meet the needs of local and State governments, information must be acquired to plan for future projects and anticipated workloads. Therefore, BOEM will issue calls for information about needed resources and locations from interested parties to develop and maintain a project schedule. BOEM also requires information to quickly respond to short-notice requests such as during an emergency declaration in the aftermath of a hurricane or tropical storm.

BOEM will publish all ongoing projects on the website <https://www.boem.gov/marine-minerals/requests-and-active-leases>.

OMB Control Number: 1010-0187.

Form Number: None.

Type of Review: Extension of a currently approved information collection.

Respondents/Affected Public: Potential respondents comprise States, counties, localities, and Tribes.

Total Estimated Number of Annual Responses: 80 responses.

Total Estimated Number of Annual Burden Hours: 200 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion or annually.

Total Estimated Annual Non-Hour Burden Cost: None.

Estimated Reporting and Recordkeeping Hour Burden: BOEM estimates that the annual reporting burden for this collection is about 200 hours, assuming an emergency declaration is made each year.

Local Government Compilation: 25 local governments \times 1 hour per information collection response \times 2 responses annually = 50 hours.

State Government Compilation: 15 State governments \times 5 hours per information collection response \times 2 responses annually = 150 hours (50 local government hours + 150 State hours = 200 total burden hours).

A **Federal Register** notice with a 60-day public comment period on this proposed ICR was published on December 23, 2022 (87 FR 78992). BOEM did not receive any comments during the 60-day comment period.

BOEM is again soliciting comments on the proposed ICR. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available. Even if BOEM withholds your information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA).
