Federal Emergency Management Agency

[Docket ID FEMA–2023–0002; Internal Agency Docket No. FEMA–B–2323]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before July 3, 2023.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA–B–2323, to Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) patrick.sacbibit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and

Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are

used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information

regarding the SRP process can be found online at https://www.floodsrp.org/pdfs/srp_overview.pdf.

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

[Docket No. DHS-2023-0015]

Homeland Security Advisory Council

AGENCY: The Department of Homeland Security (DHS), the Office of Partnership and Engagement (OPE).

ACTION: Notice of new taskings for the Homeland Security Advisory Council (HSAC).

SUMMARY: On March 27, 2023 the Secretary of DHS, Alejandro N. Mayorkas, issued a memorandum tasking the Homeland Security Advisory Council (HSAC) to establish six subcommittees further outlined below. This notice is not a solicitation for membership.

FOR FURTHER INFORMATION CONTACT: Rebecca Sternhell, Principal Deputy Assistant Secretary & HSAC Designated Federal Official, Homeland Security Advisory Council, Office of Partnership and Engagement, U.S. Department of Homeland Security at HSAC@hq.dhs.gov or 202-891-2876.

SUPPLEMENTARY INFORMATION: The Homeland Security Advisory Council provides organizationally independent, strategic, timely, specific, and actionable advice and recommendations for the consideration of the Secretary of the Department of Homeland Security on matters related to homeland security. The Homeland Security Advisory Council is comprised of leaders in local law enforcement, first responders, State, local and tribal government, national policy, the private sector, and academia.

The Secretary has requested that the HSAC form new subcommittees to study and provide recommendations in four critical areas for the Department:

1. Development of the Department’s Artificial Intelligence (AI) Strategy. This effort will be divided into two subcommittees. One will be focused on how the Department can best use AI to advance critical missions, and the other will be focused on how the Department should be building defenses to the nefarious use of AI in the control of an adversary.

2. Potential revisions to the homeland security grant programs, including the risk methodology that is applied, to ensure the Department is operating the programs optimally in light of the changed threat landscape over the past 20 years.

3. A wholesale review of the immigration Alternatives to Detention (ATD) programs, and recommendations to modernize the programs and make them more effective.

4. Potential revisions to the DHS workplace and workforce skill set. This effort will be divided into two subcommittees. One will review the Department’s current diverse work environments—from secure spaces and ports of entry to remote offices—and make recommendations for the workplace of the future. The second subcommittee will assess the alignment of workforce skills with work responsibilities in discrete, critical mission areas.

Schedule: The subcommittees’ findings and recommendations will be submitted to the HSAC for its deliberation and vote during a public meeting mid-late Summer 2023.

Dated: March 29, 2023.

Rebecca Kagan Sternhell,
Principal Deputy Assistant Secretary & HSAC Designated Federal Official, Homeland Security Advisory Council, Department of Homeland Security.
