Type of Review: An extension without change of a currently approved ICR.

Respondents/Affected Public: Private Sector; State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 573.

The Department and the public have a strong interest in knowing the terms of marketing contracts of the millions of students receiving millions of dollars in Federal student aid. The Higher Education Act of 1965, as amended (HEA) strongly supports providing important consumer information to students and the public, as evidenced in several parts of the law. The increased transparency will help ensure accountability and encourage institutional practices that are in the interest of students.
