Finished Carbon Steel Flanges From India: Final Results of Antidumping Duty Administrative Review; 2020–2021; Correction

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

ACTION: Notice; correction.

SUMMARY: On March 14, 2023, the U.S. Department of Commerce (Commerce) published the **Federal Register** notice of the final results of the administrative review of the antidumping duty order on finished carbon steel flanges from India covering the period August 1, 2020, through July 31, 2021. That notice incorrectly identified the name of one company in the final results of the review rate table.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of March 14, 2023, in FR Doc. 2023–05149, on page 15669, in the Producer/exporter and weighted-average dumping margin (percent) table, make the following correction:

- In the second row of the “Producer/Exporter” column in the chart, revise the second-listed company name, “USK Export Private Limited” to “USK Exports Private Limited.”

Background

On March 14, 2023, Commerce published in the **Federal Register** the final results of the administrative review of the antidumping duty order on finished carbon steel flanges from India covering the period August 1, 2020, through July 31, 2021.¹ In the weighted-average dumping margin table, Commerce inadvertently misidentified USK Exports Private Limited as USK Export Private Limited (*i.e.*, it used the singular form “Export,” rather than the plural form “Exports”). This same mistake appeared in its *Preliminary Results*.² The corrected Producer/exporter and weighted-average dumping margin (percent) table is as follows:

Producer/exporter	Weighted-average dumping margin (percent)
R.N. Gupta & Co. Ltd	0.73
Norma (India) Limited/USK Exports Private Limited/Uma Shanker Khandelwal & Co./Bansidhar Chiranjilal	1.00
Non-Selected Companies	0.84

interested party claimed domestic interested party status under section 771(9)(F) of the Act, as an association a majority of whose members are manufacturers of domestic like product in the United States.⁵ On January 3, 2023, the domestic interested party submitted a timely substantive response for both sunset reviews within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁶ Commerce did not receive a substantive response from any other interested parties with respect to the *Orders* covered by these sunset reviews. On January 25, 2023, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties in either of these sunset reviews.⁷ As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted expedited (120-day) sunset reviews of these *Orders*.

Scope of the Orders

The product covered by these *Orders* is biodiesel, which is a fuel comprised of monoalkyl esters of long chain fatty acids derived from vegetable oils or animal fats, including biologically-based waste oils or greases, and other biologically-based oil or fat sources. These *Orders* cover biodiesel in pure form (B100) as well as fuel mixtures containing at least 99 percent biodiesel by volume (B99). For fuel mixtures containing less than 99 percent biodiesel by volume, only the biodiesel component of the mixture is covered by the scope of these *Orders*. Biodiesel is generally produced to American Society for Testing and Materials International (ASTM) D6751 specifications, but it can also be made to other specifications. Biodiesel commonly has one of the following Chemical Abstracts Service (CAS) numbers, generally depending upon the feedstock used: 67784–80–9 (soybean oil methyl esters); 91051–34–2 (palm oil methyl esters); 91051–32–0 (palm kernel oil methyl esters); 73891–99–3 (rapeseed oil methyl esters); 61788–61–2 (tallow methyl esters); 68990–52–3 (vegetable oil methyl

esters); 129828–16–6 (canola oil methyl esters); 67762–26–9 (unsaturated alkylcarboxylic acid methyl ester); or 68937–84–8 (fatty acids, C12–C18, methyl ester). The B100 product subject to the *Orders* is currently classifiable under subheading 3826.00.1000 of the Harmonized Tariff Schedule of the United States (HTSUS), while the B99 product is currently classifiable under HTSUS subheading 3826.00.3000. Although the HTSUS subheadings, ASTM specifications, and CAS numbers are provided for convenience and customs purposes, the written description of the scope is dispositive.

Analysis of Comments Received

All issues raised in these sunset reviews are addressed in the Issues and Decision Memorandum, including the likelihood of continuation or recurrence of dumping and the magnitude of the margins of dumping likely to prevail if these *Orders* were revoked. A list of topics discussed in the Issues and Decision Memorandum is included as an appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNotices/ListLayout.aspx>.

Final Results of Sunset Reviews

Pursuant to sections 751(c) and 752(c) of the Act, Commerce determines that revocation of the *Orders* would be likely to lead to continuation or recurrence of dumping, and that the magnitude of the dumping margins likely to prevail would be weighted-average margins of up to 86.23 percent for Argentina and up to 276.65 percent for Indonesia.

Administrative Protective Order

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a). Timely notification of the destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act, and 19 CFR 351.218(e)(1)(ii)(C)(2) and 19 CFR 351.221(c)(5)(ii).
