- 15 business non-for-profit organizations will participate in a semi-structured interview (five

community partner directors will have participated in recruitment calls and semi-structured interviews)

Estimated Number of Responses per Respondent: 2.42 (2.56 for responsive participants and 1.50 for nonresponsive participants).

Estimated Total Annual Responses: 375 (345 annual responses for responsive participants and 30 annual responses for nonresponsive participants).

Estimated Time per Response: .53 hours (.52 for responsive participants and .68 for nonresponsive participants).

The estimated time of response varies from 0.5 to 1.0357 hours (30 minutes to 62 minutes), depending on the respondent group and activity, as shown in the table below, with an average estimated time of 0.53 hours (32 minutes) for all responses. The average estimated time is calculated by dividing the 198.21 estimated total hours for responses in the table below by the 375 total estimated responses.

Estimated Total Annual Burden on Respondents: 198.21 hours (177.86 for responsive participants and 20.36 for nonresponsive participants). See the table below for estimated total annual burden for each type of respondent by data collection activity including the non-responses.

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Annual Integrated Economic Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on November 21, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: Annual Integrated Economic Survey.

OMB Control Number: None.

Form Number(s): This electronic collection has no form number.

Type of Request: Regular submission, New Information Collection Request.

Number of Respondents: Dress Rehearsal—8,470 and 50 debriefing interviews; Full AIES—384,940.

Average Hours per Response: Dress Rehearsal—3 hours and 55 minutes,

Debriefing interviews—1 hour; Full AIES—3 hours and 23 minutes.

Burden Hours: Dress Rehearsal—33,206 hours, Debriefing interviews—50 hours; Full AIES—1,300,535 hours.

Needs and Uses: The U.S. Census Bureau requests Office of Management and Budget (OMB) approval to conduct the Annual Integrated Economic Survey (AIES) on an annual basis, beginning for survey year 2023 (collected in calendar year 2024) and a preparatory Dress Rehearsal for the AIES for survey year 2022 (collected in calendar year 2023). The AIES is a new survey designed to integrate and replace seven existing annual business surveys into one survey. The AIES will provide the only comprehensive national and subnational data on business revenues, expenses, and assets on an annual basis. The AIES is designed to combine Census Bureau collections to reduce respondent burden, increase data quality, and allow the Census Bureau to operate more efficiently to reduce long term costs. The existing collections integrated into the AIES are the Annual Retail Trade Survey (ARTS), Annual Wholesale Trade Survey (AWTS), Service Annual Survey (SAS), Annual Survey of Manufactures (ASM), Annual Capital Expenditures Survey (ACES), Manufacturers' Unfilled Orders Survey (M3UFO), and the Report of Organization.

The AIES will collect the following information from employer businesses in sample:

- Business characteristics, including employment, operating status, organizational change, ownership information, and co-op status
- Business classification, including business activity, type of operation, and tax status
- Revenue, including sales, shipments, and receipts, revenue by class of customer, taxes, contributions, gifts, and grants, products, and e-commerce activity
- Operating expenses, including purchased services, payroll, benefits, rental payments, utilities, interest, resales, equipment, materials and supplies, research and development, and other detailed operating expenses
- Assets, including capital expenditures, inventories, and depreciable assets
- Robotic equipment

Additional topics of collections in the AIES include sources of revenue and/or expense for providers (e.g., hospitals and other businesses in the health industry) of select services such as inpatient days, outpatient visits to hospitals, patient visits for other

selected health industries, revenue from telemedicine services, and expenses for electronic health records. Product data will be collected from businesses operating in manufacturing industries. Merchandise lines data will be collected from businesses operating in select retail industries. Detailed inventories will be collected for trucks, truck tractors, and trailers.

The AIES may include new questions each year based on relevant business topics. Potential topics for such new questions could include technological advances, management and business practices, exporting practices, and globalization. Any new questions will be submitted to OMB for review using the appropriate clearance vehicle.

Beginning in August of 2023, the Census Bureau plans to conduct a Dress Rehearsal for the AIES with approximately 8,470 companies. The Dress Rehearsal will collect survey year 2022 information. The Dress Rehearsal will be a large-scale test of the forms and procedures planned for the AIES. The burden estimate is 3 hours and 55 minutes per respondent. The Dress rehearsal will allow us to examine patterns of non-response and to determine what additional support respondents will need. Paradata gathered from respondents' interactions with the online collection instrument during the Dress Rehearsal will help refine our burden estimate. We will also compare the quality of responses received to historical data collected in the 7 surveys the AIES will replace. Up to 50, 1-hour debriefing interviews with respondents will also be conducted.

To minimize the burden imposed on most respondents already in sample for the seven annual surveys the AIES will replace, we will use the AIES responses from companies that participate in the Dress Rehearsal to satisfy their reporting requirement for the annual survey(s) for which they are in sample for the 2022 survey year. Given that the AIES Dress Rehearsal will be conducted during the same calendar year as we will be conducting the 2022 Economic Census, we may use the AIES Dress Rehearsal to supplement Economic Census responses, pursuant to title 13 U.S.C. 193.

After conclusion of the Dress Rehearsal, and based on refinements made to forms and procedures, the Census Bureau will begin conducting the full-scale AIES in 2024, collecting survey year 2023 information. The AIES will select a stratified sequential random sample of approximately 384,940 companies from a frame of approximately 5.4 million companies
