

numerical limitations to the categories to allow for increased flexibility across the broad categories of membership. The Council Representative members, as well as being diverse and an inclusive membership will represent one or more of the categories below:

- (a) Academic associations;
- (b) School safety, campus safety, public safety, or emergency management associations;
- (c) State, local or tribal law enforcement or related association;
- (d) President or Chancellor of a public or private:
  - Four-year college or university;
  - Two-year community college; or
  - Minority Serving Institution (MSIs);
- (e) Superintendent or comparable of a K–12 public school system;
- (f) President or CEO of an Education Employee Association or Education Employee Labor Organization; and/or
- (g) President or CEO of a private sector company, non-governmental organization, or civil society.

Appointments are made without regard to political affiliation. In order for DHS to fully leverage broad-ranging experience and education, the HSAPC must be diverse with regard to professional and technical expertise. DHS is committed to pursuing opportunities, consistent with applicable law, to compose a committee that reflects the diversity of the nation's people.

The Council is the sole advisory committee within DHS providing advice and recommendations on matters relating to the intersection of education and academia and the DHS mission.

The Council will operate in an advisory capacity only. The Council is necessary and in the public interest. This notice is provided in accordance with the Federal Advisory Committee Act, as amended, 5 U.S.C. App. The Council will terminate two years from the date of its establishment, unless renewed by the Secretary.

Revisions were made to the committee's objectives and scope of activities to encompass broader topics to align with the challenges facing the education and academic sectors. These broader topics allow the Secretary to receive recommendations on more facets of issues pertaining to these sectors. The committee's revised objectives and scope of activities provide for the committee to make recommendations that may relate to, but are not limited to:

- (a) DHS-wide funding opportunities, such as grants, scholarships, programs, and hiring surges;
- (b) Safety and security, including prevention, response, mitigation,

recovery, and other emergency management and preparedness measures;

(c) Improving coordination and sharing of threat and security related information including threats of violence, and targeted violence and terrorism prevention;

(d) Methods to develop career opportunities to support a 21st century DHS workforce; and

(e) Enhancing and expanding research opportunities, such as the DHS Science and Technology Centers of Excellence and DHS/National Security Agency joint Centers of Academic Excellence.

Finally, to allow for more external (non-Federal) voices, the revised charter removes DHS and Interagency members, which included "up to one representative" from six DHS offices/components and four federal agencies who served as non-voting ex officio members. Under the revised charter, the Secretary may invite participation from other federal Departments and Interagency members as necessary.

## DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA–2023–0010]

### Agency Information Collection Activities: Sector Outreach and Programs Online Meeting Registration Tool

**AGENCY:** Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

**ACTION:** 60-Day notice and request for comments; revision, 1670–0019.

**SUMMARY:** The Infrastructure Security Division (ISD) within the Cybersecurity and Infrastructure Security Agency (CISA) will submit the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and clearance. This notice solicits comments on the information collection during a 60-day public comment period prior to the submission of this ICR to OMB. The submission proposes to renew the information collection for an additional three years and update the burden estimates associated with collecting

information for the purposes of registration for meetings and events.

**DATES:** Comments are due by June 5, 2023.

**ADDRESSES:** You may send comments, identified by docket number through the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for sending comments.

**Instructions:** All submissions must include the agency name 'CISA' and docket number CISA–2023–0010. Comments received will be posted without alteration at <http://www.regulations.gov>, including any personal information provided.

Comments that include protected information such as trade secrets, confidential commercial or financial information, Chemical-terrorism Vulnerability Information (CVI),<sup>1</sup> Sensitive Security Information (SSI),<sup>2</sup> or Protected Critical Infrastructure Information (PCII)<sup>3</sup> should not be submitted to the public docket. Comments containing protected information should be appropriately marked and packaged in accordance with all applicable requirements and submission must be coordinated with the point of contact for this notice provided in the **FOR FURTHER INFORMATION CONTACT** section.

**Docket:** For access to the docket to read background documents or comments received, go to <http://www.regulations.gov>.

**FOR FURTHER INFORMATION CONTACT:** Dr. Ryan Donaghy, 703–603–5000, [CISARegulations@cisa.dhs.gov](mailto:CISARegulations@cisa.dhs.gov).

**SUPPLEMENTARY INFORMATION:** The Critical Infrastructure Protection Act of 2001, 42 U.S.C. 5195c, states that any physical or virtual disruption of the operation of the critical infrastructures of the United States be rare, brief, geographically limited in effect, manageable, and minimally detrimental to the economy, human and government services, and national security of the United States; and that actions necessary to achieve the policy stated be carried out in a public-private partnership involving corporate and non-governmental organizations. On behalf of the DHS, the Cybersecurity and Infrastructure Security Agency's Infrastructure Security Division (CISA ISD) manages the Department's program

<sup>1</sup> For more information about CVI see 6 CFR 27.400 and the CVI Procedural Manual at [www.dhs.gov/publication/safeguarding-cvi-manual](http://www.dhs.gov/publication/safeguarding-cvi-manual).

<sup>2</sup> For more information about SSI see 49 CFR part 1520 and the SSI Program web page at [www.tsa.gov/for-industry/sensitive-security-information](http://www.tsa.gov/for-industry/sensitive-security-information).

<sup>3</sup> For more information about PCII see 6 CFR part 29 and the PCII Program web page at [www.dhs.gov/pcii-program](http://www.dhs.gov/pcii-program).

to protect the Nation's 16 critical infrastructure sectors by implementing the National Infrastructure Protection Plan (NIPP) 2013, Partnering for Critical Infrastructure Security and Resilience. Pursuant to Presidential Policy Directive 21 on Critical Infrastructure Security and Resilience (February 2013), each sector is assigned a Sector-Specific Agency (SSA) to oversee Federal interaction with the array of sector security partners, both public and private. An SSA is responsible for leading a unified public-private sector effort to develop, coordinate, and implement a comprehensive physical, human, and cyber security strategy for its assigned sector. There are six critical infrastructure sectors assigned to CISA ISD, including the Chemical sector. In addition to fulfilling the regulatory obligations set forth by Congress, the CISA Office of Chemical Security coordinates with and builds sustainable partnerships with its public and private sector stakeholders to enable more effective coordination, information sharing, and program development and implementation. These partnerships are sustained through the NIPP Sector Partnership Model.<sup>4</sup>

Information sharing is a key component of the NIPP Partnership Model, and DHS sponsored conferences are one mechanism for information sharing. To facilitate conference planning and organization. This voluntary information collection tool for online event registration is maintained and leveraged by the Office of Chemical Security within CISA ISD. The information collected with this tool is used to register public and private sector stakeholders for meetings hosted by the Office of Chemical Security, principally the annual Chemical Security Summit. This tool is also used for private sector stakeholders to register their interest in being contacted by chemical security personnel regarding services provided under the voluntary ChemLock security program. The Office of Chemical Security uses the information collected to ensure that sufficient space and resources are available at meetings; to follow up with registrants when required; to develop meeting materials for attendees; and efficiently generate attendee and speaker nametags. Additionally, it enables the Office of Chemical Security to gain a better understanding of the organizations participating in chemical security events, and subsequently also identify which segments of the sector are underrepresented. This then allows

for the Office to target these underrepresented sector elements through outreach and awareness initiatives.

The changes to the collection include: changes to the burden costs, annual government costs, and revised and added data fields. Historically retained fields that collect redundant or unnecessary information have been removed and existing fields have been updated for accuracy and ease of use. Also, the following two fields have been added:

- 'How did you hear of this event,' a field which was included in the original instrument for this collection, and removed in a previous revision, has now been re-added to the instrument
- A field for the registrant's company website has been added

The annual burden cost for the collection has increased by \$5,751, from \$1,802 to \$7,553, largely due to an increase in the number of respondents associated with the shift to a hybrid event and updated compensation rates. Additionally, the scope of the collection has increased twofold: (1) the annual Chemical Security Summit, the event with which the calculations for this collection have been historically based, has moved to a hybrid format that allows for a dramatic increase in estimated registration numbers (from 400 previously to 1400), and (2) the utilization of this collection for the voluntary ChemLock program which adds an estimated 200 users per year. The annual government cost for the collection has increased by \$53,757, from \$8,347 to \$62,104, due to the shift to a hybrid event format and the associated increase in the number of registrations, which increased from 1,000 to 7,106.

This is a revision and renewal of an information collection.

*OMB is particularly interested in comments that:*

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,
3. including the validity of the methodology and assumptions used;
4. Enhance the quality, utility, and clarity of the information to be collected; and
5. Minimize the burden of the collection of information on those who are to respond, including through the

use of appropriate automated, electronic, mechanical, or other technological collection techniques or

6. Other forms of information technology, e.g., permitting electronic submissions of responses.

#### Analysis

*Agency:* Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

*Title of Collection:* Sector Outreach and Programs Online Meeting Registration Tool.

*OMB Control Number:* 1670-0019.

*Frequency:* Annually.

*Affected Public:* State, local, Tribal, and Territorial governments and private sector individuals.

*Number of Annualized Respondents:* 1,600.

*Estimated Time per Respondent:* 0.05 hours.

*Total Annualized Burden Hours:* 80 hours.

*Total Annualized Respondent*

*Opportunity Cost:* \$7,553.33.

*Total Annualized Respondent Out-of-Pocket Cost:* \$0.

*Total Annualized Government Cost:* \$62,103.77.
