

future, such as innovations in advanced manufacturing, and supply chains, among others;

- Fostering sustainable and equitable economic growth in underinvested regions of the U.S.;

- Creating long-term high paying jobs in existing and new industries;

- Facilitating engagement and partnership with local and regional communities adjacent to DOE Laboratories and Sites; and

- Training and educating both the current and future diverse, equitable, and inclusive workforce.

Innovation ecosystems anchored around DOE National Laboratories and Sites will directly support DOE's missions, including advancing new and emerging clean energy technologies, combatting the effects of climate change, developing technologies to support our nation's security, cleaning up of legacy nuclear waste, and developing a technically skilled workforce.

Purpose

DOE is seeking input from all stakeholders about opportunities for place-based innovation activities that leverage research institutions—particularly the National Laboratories and Sites—to catalyze innovation ecosystems, contribute to DOE's mission in energy, environment, and national security and ensure our nation's vibrant economic future. The information received in response to this RFI will inform, and be considered by, the DOE in program planning and development. This is solely a request for information and not a Funding Opportunity Announcement (FOA), prize, or other solicitation.

Request for Responses

The objective of this RFI is to identify both opportunities and challenges for developing place-based innovation ecosystems anchored by DOE National Laboratories and Sites. DOE is interested in hearing about potential new activities, as well as ongoing activities that would benefit from additional support. Information related, but not limited, to the following questions is requested:

Part A—Regional Characteristics

- What makes your region competitive or unique for innovation?
- What are your region's top three areas of technical expertise or attributes that are relevant to DOE's missions?
- What untapped potential exists in your region?
- What are the top three barriers to maximizing/growing your region's innovation ecosystem?

- What key areas of investment could be leveraged to realize untapped opportunities in your region?

Part B—Place-Based Innovation Activity

B.1: Existing Activities: Describe the Existing Place-Based Innovation Activity in Your Region

- How does the activity connect to the immediate region or other specific location?
- How does your activity engage with local/regional partners (e.g., Federal laboratories, industry, academia, financing/investment, community organizations, local and tribal governments, etc.)?
- Are there any DOE National Laboratories or Sites currently involved? If so, how?
- How does the activity contribute to one or more of the aforementioned key elements of an innovation ecosystem?
- How does the activity foster belonging, accessibility, justice, equity, diversity, and inclusion?
- What are the challenges for existing innovation activities in your region?
- How was this innovation activity initiated/funded?

B.2: Potential Activities: Describe Potential New or Expanded Place-Based Innovation Activities in Your Region

- How would the new or expanded activity connect to the immediate region or other specific location?
- How would your new or expanded activity engage with local/regional partners (e.g., Federal laboratories, industry, academia, funding/investment, community organizations, local and tribal governments, etc.)?
- How would the new or expanded activity contribute to one or more of the aforementioned key elements of an innovation ecosystem?
- How would the new or expanded activity foster belonging, accessibility, justice, equity, diversity, and inclusion?
- What are the potential benefits of the new or expanded activity for your region?
- What are the potential challenges for new innovation activities in your region?
- What level of support would be required to facilitate the new or expanded activity?
- What are potential sources of support for this expanded or new activity?
