The applicant proposes to capture and sample six species of Southern Ocean pinnipeds across their geographic range (*i.e.*, Antarctica, subantarctic islands, South America, Australia, New Zealand, Africa). Target species include: leopard seals (*Hydrurga leptonyx*), Antarctic fur seals (*Arctocephalus gazella*), crabeater seals (*Lobodon carcinophaga*), Ross seals (*Ommatophoca rossi*), southern elephant seals (*Mirounga leonina*), and Weddell seals (*Leptonychotes weddellii*). Take activities will consist of one or more of the following methods based on location, sex, and age class of the animal: remote tissue sampling, physical capture, chemical immobilization, and aerial surveys. The applicant may collect morphometrics, tissues (*e.g.*, blood, hair, skin, vibrissae, blubber, milk), and opportunistic samples (*e.g.*, scat, carcasses); mark via flipper tag; collect ultrasound measurements; attach instruments; and measure via photogrammetry. For each species, the applicant proposes to capture and sample 30 adults, harass and sample 30 adults, and capture and sample 30 pups annually for 5 years. An additional 100–500 animals depending on the species may be taken annually by unintentional harassment. The applicant requests three leopard seal unintentional mortalities and two unintentional mortalities for all other species, annually. The applicant also requests authorization to import parts from each species of Antarctic pinniped from the Southern Ocean and other countries where these species are found to the U.S. and to export samples from the U.S. to collaborators abroad for analyses. The permit would be valid for 5 years from the date of issuance.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

DEPARTMENT OF EDUCATION

Applications for New Awards; Fulbright-Hays Doctoral Dissertation Research Abroad Fellowship Program; Amendment of Selection Criteria and Extension of Application Deadline Date

AGENCY: Office of Postsecondary Education, Department of Education.

ACTION: Notice; amendments.

SUMMARY: On February 10, 2023, the Department of Education (Department) published in the **Federal Register** a notice inviting applications (NIA) for fiscal year (FY) 2023 for the Fulbright-Hays Doctoral Dissertation Research Abroad (DDRA) Fellowship Program, Assistance Listing Number 84.022A. We are amending selection criterion (b)(3) and the selection criteria point allocations in the NIA and extending the deadline date for transmittal of applications until April 28, 2023. All other information in the NIA remains the same.

DATES:

Applicable Date: These amendments are applicable on April 10, 2023.

Deadline for Transmittal of Applications: April 28, 2023.

FOR FURTHER INFORMATION CONTACT:

Amy Marrion, U.S. Department of Education, 400 Maryland Avenue SW, Room 258–24, Washington, DC 20202. Telephone: (202) 453–5628. Email: DDRA@ed.gov.

If you are deaf, hard of hearing, or have a speech disability and wish to access telecommunications relay services, please dial 7–1–1.

SUPPLEMENTARY INFORMATION: On February 10, 2023, we published the NIA for the 2023 DDRA competition in the **Federal Register** (88 FR 8832). This NIA established selection criteria for the

2023 competition in accordance with 34 CFR 662.21. Consistent with 34 CFR 662.21(c)(3), among these was selection criterion (b)(3), *Qualifications of the applicant*. Under selection criterion (b)(3), the Secretary would consider “[t]he applicant’s proficiency in one or more of the languages (other than English and the applicant’s native language) of the country or countries of research, and the specific measures to be taken to overcome any anticipated language barriers” for a total of 1 point.

On March 24, 2023, the Western District Court of Texas in the matter of *Lujan v. Cardona*, No. 3:22–CV–00158–DCG, ECF No. 37, granted in part a preliminary injunction, which “vacates 34 CFR 662.21(c)(3) as to all 2023 Fulbright-Hays Fellowship applicants until the Court reaches a merits decision in this case or the U.S. Department of Education publishes a final rule amending 34 CFR 662.21(c)(3).” Subsequently, on April 3, 2023, the Court amended its order to clarify “that its injunction applies only insofar as the Foreign Language Criterion prohibited considering an applicant’s native language skills” *Lujan*, ECF No. 40. As a result, the Department is amending the selection criteria for the 2023 DDRA competition, such that selection criterion (b)(3) allows native speakers to receive points for conducting research projects in any language in which they have proficiency, other than English. Additionally, the Department is increasing the number of points associated with selection criterion (b)(3) from 1 point to 10 points, and the number of points allocated to selection criterion (b) from 26 points to 35 points.

In order to give all applicants the opportunity to apply under the amended NIA, the Department also extends the deadline date for transmittal of applications until April 28, 2023. All other information in the NIA remains the same.
