OFFICE OF PERSONNEL MANAGEMENT**Federal Employees' Retirement System; Normal Cost Percentages**

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: The Office of Personnel Management (OPM) is providing notice

of revised normal cost percentages for employees covered by the Federal Employees' Retirement System (FERS) Act of 1986.

DATES: The revised normal cost percentages are effective at the beginning of the first pay period commencing on or after October 1, 2023. Agency appeals of the normal cost percentages must be filed no later than October 16, 2023.

ADDRESSES: Send or deliver agency appeals of the normal cost percentages and requests for actuarial assumptions and data to the Board of Actuaries, care of Gregory Kissel, Senior Actuary, Office of Healthcare and Insurance, Office of Personnel Management, Room 4316, 1900 E Street NW, Washington, DC 20415, or by email to actuary@opm.gov.

FOR FURTHER INFORMATION CONTACT: Karla Yeakle, (202) 606-0299.

SUPPLEMENTARY INFORMATION: The FERS Act of 1986, Public Law 99-335, created a new retirement system intended to cover most Federal employees hired after 1983. Most Federal employees hired before 1984 are under the older Civil Service Retirement System (CSRS). Section 8423 of title 5, United States Code, as added by the FERS Act of 1986, provides for the payment of the Government's share of the cost of the retirement system under FERS. Employees' contributions are established by law and constitute only a portion of the cost of funding the retirement system; employing agencies are required to pay the remaining costs. The amount of funding required, known as "normal cost," is the entry age normal cost of the provisions of FERS that relate to the Civil Service Retirement and Disability Fund (Fund). The normal cost must be computed by OPM in accordance with generally accepted actuarial practices and standards (using dynamic assumptions). The normal cost calculations depend on economic and demographic assumptions. Subpart D of part 841 of title 5, Code of Federal Regulations, regulates how normal costs are determined.

In its meeting on May 10, 2022, the Board of Actuaries of the Civil Service Retirement System (the Board) recommended revisions to the demographic assumptions used in the actuarial valuations of CSRS and FERS. The demographic assumptions include assumed rates of future mortality, employee withdrawal, retirement, and merit and longevity pay increases. The Board reviewed the long-term economic assumptions and determined that they should remain unchanged. OPM has adopted the Board's recommendations.

With regard to the economic assumptions described under section 841.402 of title 5, Code of Federal Regulations, used in the actuarial valuations of FERS, the Board concluded that the long-term economic assumptions should remain unchanged from what was determined at the Board's meeting on April 2, 2020. The long-term economic assumptions continue to be a rate of investment return of 4.0 percent; assumed inflation rate of 2.40 percent; the assumed rate of FERS annuitant Cost of Living Adjustments should remain at 80 percent of the assumed rate of inflation; and the projected rate of General Schedule salary increases should remain at 2.65 percent. The general

salary increases are in addition to assumed merit salary increases. These assumptions are intended to reflect the long term expected future experience of the Systems.

The demographic assumptions are determined separately for each of a number of special groups, in cases where separate experience data is available. Based on the demographic and economic assumptions described above, OPM has determined the normal cost percentage for each category of employees under section 841.403 of title 5, Code of Federal Regulations.

Section 5001 of Public Law 112-96, The Middle Class Tax Relief and Jobs Creation Act of 2012, established provisions for FERS Revised Annuity

Employees (FERS-RAE). The law permanently increases the retirement contributions by 2.30 percent of pay for these employees. Subsequently, Section 401 of Public Law 113-67, the Bipartisan Budget Act of 2013, created another class of FERS coverage, FERS-Further Revised Annuity Employee (FERS-FRAE). Employees subject to FERS-FRAE must pay an increase of 1.30 percent of pay above the retirement contribution percentage set for FERS-RAE. Separate normal cost percentages apply for employees covered under FERS-RAE and for employees covered under FERS-FRAE.

The normal cost percentages for each category of employee, including the employee contributions, are as follows:

NORMAL COST PERCENTAGES FOR FERS, FERS—REVISED ANNUITY EMPLOYEE (RAE), AND FERS—FURTHER REVISED ANNUITY (FRAE) GROUPS

Group	FERS normal cost (percent)	FERS-RAE normal cost (percent)	FERS-FRAE normal cost (percent)
Members	26.3	19.6	19.9
Capitol Police covered under 5 U.S.C. 8412(d) and 5 U.S.C. 8425(c)	39.5	40.0	40.2
Other Congressional employees	27.0	19.6	19.9
Law enforcement officers, members of the Supreme Court Police, firefighters, nuclear materials couriers, customs and border protection officers, and employees under section 302 of the Central Intelligence Agency Retirement Act of 1964 for certain employees	39.5	40.0	40.2
Air traffic controllers	40.4	40.9	41.2
Military reserve technicians	21.4	21.8	22.1
Employees under section 303 of the Central Intelligence Agency Retirement Act of 1964 for certain employees (when serving abroad)	27.0	27.5	27.8
Other employees of the United States Postal Service	16.9	17.3	17.6
All other regular FERS employees	19.2	19.6	19.9

Under section 841.408 of title 5, Code of Federal Regulations, these normal cost percentages are effective at the beginning of the first pay period commencing on or after October 1, 2023.

The time limit and address for filing agency appeals under sections 841.409 through 841.412 of title 5, Code of Federal Regulations, are stated in the **DATES** and **ADDRESSES** sections of this notice.

OFFICE OF PERSONNEL MANAGEMENT

Federal Employees' Retirement System; Present Value Factors

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: The Office of Personnel Management (OPM) is providing notice of adjusted present value factors applicable to retirees who elect to provide survivor annuity benefits to a spouse based on post-retirement marriage, and to retiring employees who elect the alternative form of annuity or elect to credit certain service with nonappropriated fund instrumentalities. This notice is necessary to conform the present value factors to changes in the economic and demographic assumptions adopted by the Board of Actuaries of the Civil Service Retirement System.

DATES: The revised present value factors apply to survivor reductions or employee annuities that commence on or after October 1, 2023.

ADDRESSES: Send requests for actuarial assumptions and data to the Board of Actuaries, care of Gregory Kissel, Senior Actuary, Office of Healthcare and Insurance, Office of Personnel Management, Room 4316, 1900 E Street NW, Washington, DC 20415, or by email to actuary@opm.gov.

FOR FURTHER INFORMATION CONTACT: Karla Yeakle, (202) 606-0299.

SUPPLEMENTARY INFORMATION: Several provisions of the Federal Employees' Retirement System (FERS) require reduction of annuities on an actuarial basis. Under each of these provisions, OPM is required to issue regulations on the method of determining the reduction to ensure that the present value of the reduced annuity plus a lump-sum equals, to the extent practicable, the present value of the unreduced benefit. The regulations for each of these benefits provide that OPM will publish a notice in the **Federal Register** whenever it changes the factors used to compute the present values of these benefits.

Section 842.706(a) of title 5, Code of Federal Regulations, prescribes the method for computing the reduction in the beginning rate of annuity payable to a retiree who elects an alternative form of annuity under 5 U.S.C. 8420a. That reduction is required to produce an annuity that is the actuarial equivalent of the annuity of a retiree who does not elect an alternative form of annuity. The
